Watch Your Kidneys!
Be Sure They Properly Cleanse the Blood
YOUR kidneys are constantly filtering waste matter from the blood stream. But kidneys sometimes lag in their work—do not act as nature intended—fail to remove impurities that poison the system when retained.
Then you may suffer nagging backache, dizziness, scanty or too frequent urination, getting up at night, swollen limbs; feel nervous, miserable—all upset.
Don't delay! Use Doan's Pills. Doan's are especially for poorly functioning kidneys. They are recommended by grateful users the country over. Get them from any druggist.

TOLCHESTER COMPANY,

IF YOUR BREATH HAS A SMELL YOU CAN'T FEEL WELL
When we eat too much, our food decays in our bowels. Our friends smell this decay coming out of our mouth and call it bad breath. We feel the poison of this decay all over our body. It makes us gloomy, grouchy and no good for anything.
What makes the food decay in the bowels? Well, when we eat too much, our bile juice can't digest it. What is the bile juice? It is the most vital digestive juice in our body. Unless 2 pints of it are flowing from our liver into our bowels every day, our movements get hard and constipated and ¾ of our food decays in our 28 feet of bowels. This decay sends poison all over our body every six minutes.
When our friends smell our bad breath (but we don't) and we feel like a whipped tomcat, don't use a mouthwash or take a laxative. Get at the cause. Take Carter's Little Liver Pills which gently start the flow of your bile juice. But if "something better" is offered you, don't buy it, for it may be a calomel (mercury) pill, which loosens teeth, gripes and scalds the rectum in many people. Ask for Carter's Little Liver Pills by name and get what you ask for—25¢. ©1934, C.M.Co.
