The Transcript

THURSDAY MORNING, JULY 23, 1885.

Subscription $1.50 per year; 75 cents for six months, in advance.

Advertising Rates.

Transient advertising will be charged at a rate of *one dollar* per square for first three insertions, and twenty-five cents per square for each subsequent insertion. A space equal to eight lines of brevier, constitutes a square. Figure work will be charged fifty cents per square additional for first three insertions.

JOB WORK.

Handbills, large and small; flyers, dodger letterheads, billheads, envelopes, cards, tag programmes, and other kinds of job work will be done neatly and reasonably.

Simple notices of marriages and deaths, inserted free. Obituary notices will be charged at rate of five cents per line.

Correspondence upon matters of local interest desired. Anonymous communications will not be inserted.

It is desirable that communications be in by Saturday night if possible, and in any case later than Monday night or Tuesday morning

—The weather during the latter part of last week and the early part of this week has been well up into the nineties.

—The St. Denis picnic at McCauley's Woods comes off next Wednesday. There will be dancing, a good supper and a lively time.

—The schools of Galena circuit, M.E. church, have an excursion to Tolchester on July 29th, by steamer Chester. See advertisement for fuller particulars.

—During the storm on Tuesday a bolt of lightning melted the telephone wire at Fairlee, destroying for a time the connection between Chestertown and other points on the line.

—Prime Fultz wheat was quoted in the Baltimore market Tuesday at 97 to 98 cts. Prime longberry at $1.00 to $1.02 per bushel. Corn, white, 58 cts.; yellow 54 cts. per bushel.

—Mr. J. C. Slaughter, the general agent for the Kent Mutual Life Insurance Company, has determined to devote his energies entirely to the interests of this home company. His advertisement appears elsewhere.

—Nearly $50,000 of the stock of the new bank in Chestertown has been subscribed for. There is yet some stock not taken. As soon as the whole shall have been subscribed for, the stockholders will proceed to organize.

—A large picnicing party from Sudiersville and Church Hill, bound for Tolchester, passed through Chestertown early yesterday morning. The party traveled in daytons and peach wagons, and seemed to be a very happy party.

—The Chestertown base-ball nine played the Elkton nine at Tolchester Thursday of last week, and got beaten, score 11 to 9. The Chestertown nine is a little—just a little afflicted with laziness. It has not played a single practice game this season.

—On Wednesday, July 29th, there will be a Cape May excursion under direction of committee representing M. E. Sunday school. The 29th of July is in all respects the right time for an ocean trip, and the M. E. excursion will undoubtedly be in all respects a pleasant one.

—An original play, written by Capt. Joseph W. Thompson, is to be put on at the Still Pond town hall this (Thursday) evening. A great many have expressed an earnest desire to see the performance, and there will undoubtedly be a full house. Capt. Thompson takes the leading part, and is supported by professional actors.

—Rev. Mr. Dennis, of the Episcopal Chapel, Florence, Italy, recently visited a friend near Rock Hall and expressed surprise at the agricultural advancement of the Eastern Shore, which, he said, was far ahead of Italy. At the request of the Rev. Mr. Wall he read the service at St. Paul's Church.

—Chestertown needs an organized fire company—a fire company with a head to it. Whenever a fire occurs, time is lost from lack of systematic direction and disorganized work. The head of a fire company should be a man with some generalship about him, one who can direct a body of men coolly in the midst of excitement.

—The ministers of the Easton district of Wilmington M. E. conference, met at Smyrna on last Monday, and by majority vote recommended the Rev. J. D. Rigg to succeed the Rev. Dr. Caldwell as presiding elder for the district. The bishop has the appointing of presiding elders, but he will probably be governed by the vote of district preachers.

—It is likely that the *Transcript* editor may go on the Peninsula Press excursion, which starts next Saturday, and that he will be absent about one week. There will be somebody in the *Transcript* Office, however, to receive the man who calls to settle a little bill with an open smile, or to attend to any other matters of business. If you have any orders for the *Transcript*, send them in and they will be attended to.

—John Chaney, colored, employed on the Emma A. Ford, attended a colored ball in Chestertown on last Friday night, and in a row that arose came pretty near to clearing out the company. Several of the male dancers came in contact with Chaney's fist and dropped suddenly. He was arrested on the Ford Monday evening, and had a hearing before 'Squire Wheatley Tuesday. From the evidence, the 'Squire dismissed Chaney and fined John Wilson five dollars and costs.

—Bathing at Cape May is undoubtedly the best on the Atlantic coast. The beech at Cape May runs out into the ocean with such a gradual decline that the danger is reduced to a minimum. The excursions that go every Wednesday over the Kent county road give about three and a-half to four hours at the beach,—plenty of time for a delightful bath and a good dinner. The M. E. Sunday school of Chestertown has its excursion on the 29th. There will on that occasion be plenty of good company and undoubtedly a delightful trip.

—Capt. J. B. Wilson, of the oyster police force, came up Chester river as far as Chestertown in the Mary Compton on Tuesday. On Tuesday evening a small party on invitation of Capt. Wilson had a pleasant sail up and down the stretch between the bridge and the bend in the river below Chestertown. Capt. Wilson has some hope that the Mary Compton will be replaced with a swifter and stronger vessel, schooner-rigged. He says the Mary Compton is a very nice little boat, but that she is better fitted for a pleasure yacht, for which purpose she was originally built, than for chasing oyster pirates.

—Orphans' Court, Tuesday, July 21, 1885.—Present, Judges Walker, Hyland and Stevens.

James A. Pearce filed the last will and testaments of Caroline Thompson, deceased, which was received.

James A. Pearce filed the last will and testament of Benjamin Comegys, deceased, which was received.

The auditor's report of Wm. M. Slay, trustee for the sale of the real estate of Robt. A. Wilson, deceased, was ratified and confirmed.

A New President for Delaware College.

The Rev. Dr. Caldwell, presiding elder for this district of the Wilmington Conference, has been elected president of the Delaware College at Newark, Del. Dr. Caldwell is distinguished for his scholarship. He is a native of Georgia, but on account of his Union sentiments withdrew during the war from the Georgia Conference, M. E. Church South. After the war he was appointed a judge in Georgia by the United States Government. In 1872 he joined the Wilmington Methodist Episcopal Conference, being sent to Still Pond, Md. In 1875 he was sent to Dover. In 1878 he went to St. Paul's, Wilmington. In 1881 he returned to Dover and in 1884 he was made a presiding elder. Dr. Caldwell is about 62 years of age.

New Advertisements.

The following new advertisements appear in this issue:

The Kent Mutual Life Insurance agency.

Wilmington Conference Academy at Dover, Del.

Excursion to Cape May by Chestertown M. E. Sunday school.

An excursion to Tolchester by steamer Chester.

Small farm for sale by C. H. Baker, Esq.

Free scholarship in Western Maryland College.

Notice by register concerning release of administrator.

Some Wheat Yields.

Mr. T. J. Shallcross near Locust Grove, got a wheat yield of 2,362 bushels. On 40 acres of fallow he got nearly 34 bushels to the acre, and on 45 acres of corn land 22½ bushels to the acre.

Harry F. Hill, on L. C. Justis' farm, from 165 acres threshed 3500 bushels of wheat.

Comegys Brown on 27 acres got 900 bushels, or 33⅓ bushels to the acre.

G. H. Leaverton on 40 acres got 800 bushels.

The following large yields were obtained in the lower district: Charles Wood, 5,000 bushels; Lewis Ayres, 2,000; J. Lewis, 1,400; Charles Strong, 1,440; R. W. Jones, 1,700; Lemuel Stevens, 3,000; J. Brice, 1,850; J. Beck 2,000; W. H. Coleman, 1,700.

C. T. Westcott, Esq., on two farms made an experiment with home manipulated fertilizers and South Carolina dissolved bone, and obtained very satisfactory results. On the farm tenanted by Mr. James Bramble, he obtained per acre,—from South Carolina dissolved bone, 29 bushels to the acre; from Westcott's mixture, 37 bushels to the acre; from Bonwill's mixture, 38 bushels to the acre. On the farm tenanted by Walter Trew he obtained per acre from Bonwill's mixture, 35½; from Westcott's mixture 39½, and from dissolved South Carolina, 37½. The cost to the acre of each application was the same, South Carolina bone being used in sufficient quantity to bring the price per acre up with the other fertilizers.

Fire from Lightning.

During the thunder storm of Tuesday afternoon, the barn and stable on Maple avenue, belonging to Mr. Joseph Vannort, was struck and set on fire. The cry of fire soon collected a crowd around the burning building. Two valuable horses were in the stable—one, Lankford, cost Mr. Vannort $1000. Mr. Joel Clements and John York, a colored man, got the horses safely out. Before anything could be done toward extinguishing the fire, the building was ablaze from top to bottom. Both the engines were run down to the fire and a hose was attached to the new engine. The engine was broken before it worked five minutes. The new engine has always distinguished itself as a failure. In a half hour steam was up on the water works engine, and two hose, one at the fire plug on the bridge corner and one at the Queen street corner plug, were throwing two full streams. The building was pretty nearly burned down by that time, however. It was impossible to save the barn, but from the fact that the burning building was within fifteen feet of W. H. Lambert's kitchen, which was covered by an old shingle roof, and that the latter was not burned, it may be gathered that there was some effective work done. Indeed, notwithstanding that the heat was intense even in the street opposite the burning building, a number of citizens handled hose and fought the fire almost within reaching distance of the flames.

Again the water system demonstrated its utility as a fire preventive. There is little doubt but that the house of W. H. Lambert would have gone, but for the effective work of a little stream from a street hose, that was early used on the kitchen near the burning building. The two heavy streams from the hose connected with the fire plugs would also have hindered the headway of a spreading fire.

The owners of the handsome new houses on Maple avenue were at one time concerned for the safety of their buildings, but soon understood that there was little danger.

Mr. S. Gooden, of Queen Anne's, was machining on one of the Ford farms in Queen Anne's, about two miles from Chestertown, and, when he saw the fire, he thought it was one of the large dwellings on Water street, and brought over twenty-one hands to fight the fire.

The loss, including contents of building, is probably about $600. Insured in Kent Mutual Company for $285. Mr. Vannort was from home at time of the fire.

Building Notes.

Mr. W. N. E. Wickes has placed in Mr. H. M. Stuart's hands the architect's designs for a handsome residence to be erected on the lot recently purchased by Mr. Wickes from E. F. Perkins, Esq. The lot is located on the river side of Water street, adjoining the residence of E. F. Perkins. The house was planned by J. Crawford Neilson, the architect who now has charge of the new Baltimore postoffice. The ground plan of the house will cover about 40x44 feet. It will be three stories in height, beside a high basement for kitchen, laundry, &c. The roof will be mansard. There will be an ornamental porch front and a full length porch back. The end next to Mr. G. W. T. Perkins will have two story bay windows back and front. The interior design of the house is very convenient and handsome.

Mr. R. K. Pippin will build for Mr. E. W. F. Simpers a very attractive residence, on the lot adjoining the parsonage on Spring avenue, which Mr. Simpers recently purchased of the M. E. church trustees. Mr. Simpers' house will be very much after the plan of Mr. James Brice's house on the college road.

R. Hynson, Esq., has built an addition back to his residence on Water street. The addition has large bay windows above and below which command a beautiful view down the river.

C. T. Westcott, Esq., is having some repairs done to the old Chambers house on Water street, and it is said that he expects to occupy it as a residence. It is one of the most pleasantly located houses in Chestertown, and though quite an old house, one of the handsomest.

Mr. W. Harry Simpers has had the old back building of the Rockwell house torn away, and designs having built a commodious addition, which will more than double the capacity of the front building.

The residence of Mr. J. B. Burchinal on Maple avenue is nearly ready for the painters. When the painters are done with it it will be a very attractive house.

The house of Mr. G. B. Rasin on Cross street is also nearly completed. It will make a very comfortable residence.

Mr. H. M. Stuart is building on Queen street a house which promises to be attractive and convenient.

The cottage which Mr. Milton Baker is building for Mr. Jos. Turner on Queen street is nearly under roof.

The new out-buildings for the jail are well under way. The work is being done under contract with Mr. H. M. Stuart.

Two very cozy and comfortable small houses are going up on Mill street east of Calvert street. One is being built by Mr. Frank Duyer for Mr. Creighton Wallis, and the other by Mr. R. K. Pippin for Mr. M. Frank Casey.

Mr. J. B. Sappington has recently built a wide porch in front of his store building on Cross street.

Peninsula Items.

The question of water system or no water system has been submitted to popular vote in Smyrna, and the citizens have decided to put in water-works.

Mr. William D. Lucas, superintendent of the Queen Anne's county almshouse, has resigned, his resignation to take place on the first of next January. His successor will be appointed Aug. 6th.

Trustworthy advices from Washington indicate that the appointment of Mr. Marshall S. Mutchler, of this county, to the Supreme Bench of Dakota is soon to be made by the President. The selection of Mr. Mutchler for such an important judicial post would be a fitting recognition of his legal qualifications. In his active practice of nine years at our bar Mr. Mutchler has won distinction and esteem in the profession. —*Denton Journal.*

George W. Tyler's large steam oyster and fruit-packing house, built out on the pier at St. Michael's, Talbot county, was totally destroyed by fire on Friday night at half-past twelve o'clock. All the boilers, engines and machinery used in the packing-houses and about $1500 worth of canned goods were consumed. The steamer Nelly White used a room in the building for a freight room, and a small amount of freight was destroyed. The loss is estimated at $6,000; insurance on building, machinery and goods, $3,500, in the Farmers' Mutual of Wilmington, Del. The origin of the fire is unknown.

The *Sussex Journal* says: "The rumored purchase of the Del., Md. and Va. R. R. by the Pennsylvania Railroad Company has been pretty generally confirmed this week at the mouths of citizens intimate with the railroad men and by the railroad men themselves. All the necessary arrangements for the transfer have been pushed as fast as possible, and it may be that by this time they are all complete. It is not known exactly when the Pennsylvania will assume control, but it is thought about the first of August. The effect of this change in the control of this road can only be determined by time. The fare will, of course, be reduced to three cents a mile, the amount charged by the Pennsylvania on all its lines, and freight charges will no doubt be made to conform with those on its other routes. It is thought also that the line of steamers from Lewes to New York will be discontinued, but this may be a mistake." The Delaware, Maryland and Virginia road extends from Harrington, Kent county, Del., to Franklin City, Va., with a branch line from Georgetown to Lewes and Rehoboth.

THE REPUBLICAN CONVENTION MEETS AND DOESN'T NOMINATE A TICKET.

IT PROPOSES TO DO SO LATER, HOWEVER.

The twenty-five delegates elected at the Republican primaries on Saturday, assembled in convention at the court house at eleven o'clock on Tuesday. The convention organized by calling J. W. Corey to the chair and electing W. H. Lambert, Jr., secretary. We are unable to give the list of delegates, because the young man who had hold of the secretary's papers yesterday thought it was too big a secret to give away. There were five colored delegates in the body. Matters did not appear to be enough cut-and-dried for making a ticket, and a resolution was offered before the convention to the effect that a committee of one from each election district in the county be appointed to interview members of the party and obtain the consent of desirable candidates to serve upon the ticket, the committee to report to the convention at an adjourned meeting. An amendment was offered to this resolution making the committee to consist of three, instead of one, from each district, and naming as the date of the second meeting of the convention the second Thursday in August, which is August the 13th. The amendment was accepted.

The probable reason for this postponement of time for making the ticket, is that the party managers found that they were not able to put up on last Tuesday as strong a ticket as they desired. It was rumored on the street that Dr. F. N. Sheppard, the proposed candidate for clerk, was not altogether willing. A prominent Republican remarked that the trouble was not in the lack of people willing to be candidates; that in fact candidates were thick enough to fill two or three tickets. The trouble was to put up a ticket that should stand the shadow of a show for winning.

Captain W. D. Burchinal has announced that he will not under any circumstances be a candidate for clerk. The Captain doubtless believes in the good old proverb that says a bird in the hand in worth two in the bush. Capt. Buachinal has yet one-half his term to serve in the State Senate.

Notes from Exchanges.

We assert now, as we have asserted heretofore, there is but one course for Democrats to pursue, and that is to sustain the organization [the jury system] and the nominations made therein. Any other course cannot be anything less than disorganization, which is too apt to result in defeat.—*Centreville Record.*

The wheat crop is undoubtedly much larger than was anticipated in the early spring. Opinions vary as to the average yield of the county through,—it is put all the way from ten to twenty busheis to the acre. There is a great deal of wheat growing land in Talbot that never fails to yield more than twenty bushels to the acre:—there are other farms in other sections that only in exceptional years reach ten bushels to the acre. Opinions concur that the crop this year is not a full one,—some say it is ten, others twenty-five, and others that it is thirty-three per cent. short.—*Easton Ledger.*

The Constitution of Maryland makes the jury in criminal cases judges of the law and the facts. The Court of Appeals have said that in these cases the jury are bound to heed any instructions from the Court, should the Court give them. No judge in Maryland has ever charged a jury, nor would he be allowed to.—*Towson Journal.*

No one else has yet been named as an aspirant to gubernatorial honors, and Gov. Lloyd will doubtless be the unanimous choice of the next legislature.—*Denton Journal.*

A number of colored people held a meeting in this town and passed resolutions condemning the lynching of Howard Cooper, at Towson, Monday.

When Cooper committed the crime which makes humanity shudder, we did not hear that the colored people of Hagerstown held any meeting to condemn the act.—*Hagerstown Mail.*

Congressman Gibson has made arrangements with the Postmaster General to take a day during the last week of July for the consideration of the applications for fourth-class postoffices in his district.—*Greensboro Free Press.*

He [W. Scott Way] is theoretically baldheaded, but practically the hirsute appendage of his cranium is intact.—*Middletown Transcript.*

The marriage of Mr. George W. Cosden of North East and Miss Mackey of Newark commands our congratulations and goods wishes. The worthy and the lovely. The noble and the fair. An auspicious union.—*Cecil Democrat.*

The colored people of this State have all the rights and privileges under the laws as are accorded to the white race; but they are so prejudiced against the white people that every act of justice through the courts toward colored people who break the law is regarded as an oppression. When one is arrested he is regarded as a martyr, and when he returns home after serving a term in the penitentiary, he is lionized by his friends as though he had had some great honor conferred upon him. There is no disgrace attached to conviction for crime; the rather, it is regarded as a persecution by the white race, and the convicted is elevated in the estimation of his fellows.—[*Westminster*] *Democratic Advocate.*

The neighbors of the victim of Cooper's lust became tired of the delays of the law and quietly proceeded to take the matter into their own hands, and the lynching was planned and executed deliberately. Nothing was known of the contemplated lynching until 11 o'clock that night.—*Port Tobacco Times.*

Pennsylvania Railroad.

From the Phila. Saturday Night, June 25, 1885.

The Pennsylvania Railroad is one of the greatest systems of inter-State communication in the world. Long years of careful and judicious management has placed it in a position above the fear of competition from rival lines. Its system connects two oceans, and reaches, with its tributary lines, every important point in the country. Its appointments are superb, and it has contributed more than any other road to make traveling a luxury. Accidents to its employees or patronts are matters of rare occurrence.

It would take columns to describe in brief its many advantages. Every safeguard, every convenience, every comfort, every luxury that ingenius minds have devised and cunning hands fabricated in railroad economy, are in practical operation on the Pennsylvania.

The inducements it holds out to summer tourists are unparalleled. It controls a direct chain of communication between Philadelphia and the ocean resorts stretching from Sandy Hook to Cape May Point. If the country is preferred, the Pennsylvania road carries the traveler to all important places in New York, New England and Pennsylvania. Whether it is desired to summer in some quiet, sleepy, inland town, or within sight of green fields and within sound of babbling brooks in a quaint oldfashioned farmhouse, or among the crags and cliffs of the Blue and Allegheny mountains, or on the health giving heights of Mount Washington, this road carries you to the chosen elysium quickly, cheaply and safely.

All the famous health resorts are tapped by it, and whether the invalid be afflicted with consumption or hay-fever, the Pennsylvania will take him to the place of cure. Its enterprise has built up along its main lines of travel, within a few minutes' ride of Philadelphia, a hundred little villages, and places that a few years ago were primeval wastes are now bright with a new life. Villas and cottages, many of them as sumptuously elegant as the palaces of the Old World's nobles, dot the hills, surrounded by carefully-kept grounds, that in summer make a picture of incomparable rural beauty. The people of no city in the world have so many and diversified places of summer resort, within easy riding distance, as have the inhabitants of Philadelphia.

The Pennsylvania road by means of its many fast trains which leave the station, Broad and Market, daily makes it possible for the business man to summer at the resort of his choice without interfering in any way with his business in the city. The road's facilities for the rapid and careful handling and transportation of freight are incomparably fine. Its recent enterprise in putting on fast passenger trains brings Chicago within twenty-four hours ride of Philadelphia, and transports the traveler to Cincinnati in eighteen.

Its road-bed is rock-ballasted, its rails are steel, its rolling stock of the most approved pattern, and its employes are trained to habits of politeness and attention to the traveling public. Parlor cars, dining cars and sleeping cars are attached, where necessary, to trains; and it is one of the wonders of modern railroad traveling that the Pennsylvania, more than any other road, has assisted in developing and perfecting that one can live on a railroad train in as much ease and comfort as in one's own home.

The Pennsylvania road never retrogrades. It always moves "upward and onward," and it uses all legitimate means to compass this end. It is jealous of the rights of its patrons, and quick to defend them. The machinery of its management runs like a well-oiled piece of mechanism, smoothly and without jar or crash. Every new invention in railroad economy is carefully investigated. If its adoption is found to add to the comfort, convenience or safety of the traveling public, no expense is spared to see cure its control. Its vast army of employes are trained to observe this one precept: "The comfort of our patrons above all else." Its motto might justly be written thus: "Speed—safety—comfort."

Literary Notes.

Harper's Magazine for August is a brilliant mid-summer number. It opens with a delightful frontispiece picture by E. A. Abbey, illustrating a quaint poem by Austin Dobson, entitled 'A Love Song.' Very bright and seasonable is Mrs. Sandham's article, 'A Trip on the Ottawa,' which is beautifully illustrated by her husband. Mr. J. C. Beard's 'Decorative Sentiment in Birds' is not only a handsomely illustrated article—containing seven pictures in Mr. Beard's best style—but full of novel and curious information.

The opening paper of the August number of the *Eclectic* is a fitting introduction to an excellent number; being a very suggestive discussion of 'Genius and Insanity,' by James Sully. Our most distinguished man of letters recently U.S. Minister to England, James Russell Lowell, is the subject of an appreciative article by G. Barnett Smith. There are two articles on the Russian question, 'M. Lessar's Triumph. Before and After,' by Lord Stanhope, and 'The Russian Armament.' The charge against a British General of rank that he was responsible for the loss of Gordon is discussed in an article from *Blackwood's.*

Only Temperance Bitters Known.

VINEGAR BITTERS

VEGETABLE FREE FROM ALCOHOL

PURELY WALKER'S CALIFORNIA

EUREKA

No other medicine known so effectually purges the blood of deep-seated diseases.

Millions bear testimony to its wonderful curative effects.

It is a purely Vegetable Preparation, made from the native herbs and roots of California, the medicinal properties of which are extracted therefrom without the use of Alcohol.

It removes the cause of disease, and the patient recovers his health.

It is the great Blood Purifier and Life-giving Principle; a Gentle Purgative and Tonic; a perfect Renovator and Invigorator of the system. Never before in the history of the world has a medicine been compounded possessing the power of VINEGAR BITTERS in healing the sick of every disease man is heir to.

The Alterative, Aperient, Diaphoretic, Carminative, Nutritive, Laxative, Sedative, Counter-Irritant, Sudorific, Anti-Bilious, Solvent, Diuretic and Tonic properties of VINEGAR BITTERS exceed those of any other medicine in the world.

No person can take VINEGAR BITTERS according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

Bilious, Remittent, Intermittent and Malarial Fevers are prevalent throughout the United States, particularly in the valleys of our great rivers and their vast tributaries during the Summer and Autumn, especially during seasons of unusual heat and dryness.

These Fevers are invariably accompanied by extensive derangements of the stomach, liver and bowels. In their treatment, a purgative, exerting a powerful influence upon these organs, is absolutely necessary.

There is no cathartic for the purpose equal to Dr. J. WALKER'S VINEGAR BITTERS, as it will specifily remove the dark-colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus forearmed.

It Invigorates the Stomach and stimulates the torpid Liver and Bowels, cleansing the blood of all impurities, imparting life and vigor to the frame, and carrying off without the aid of Calomel, or other minerals, all poisonous matter from the system. It is easy of administration, prompt in action, and certain in its results.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Pneumonia, Dizziness, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, and a hundred other painful symptoms, are at once relieved by VINEGAR BITTERS.

For Inflammatory and Chronic Rheumatism, Gout, Neuralgia, Diseases of the Blood, Liver, Kidneys and Bladder, the Bitters have no equal. In these, as in all Constitutional Diseases, WALKER'S VINEGAR BITTERS has shown its great curative powers in the most obstinate and intractable cases.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to Paralysis of the Bowels. To guard against this, take occasional doses of VINEGAR BITTERS.

Skin Diseases, Scrofula, Salt Rheum, Ulcers, Swellings, Pimples, Pustules, Boils, Carbuncles, Ring-worms, Scald-head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations, Humors and diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of the Bitters.

Pin, Tape and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. No system of medicine, no vermifuges, no anthelmintics, will free the system from worms like VINEGAR BITTERS.

Measles, Scarlet Fever, Mumps, Whooping Cough, and all children's diseases may be made less severe by keeping the bowels open with mild doses of the Bitters. This wonderful remedy is especially adapted to the systems of children, for purifying herbs alone give it its remarkable curative powers. It contains no alcohol, opium or other poison.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, this Bitters has no equal.

Cleanse the Vitiated Blood when its impurities burst through the skin in Eruptions or Sores; cleanse it when obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when, and the health of the system will follow.

In conclusion: Give the Bitters a trial. It will speak for itself. One bottle is a better guarantee of its merits than a lengthy advertisement.

Around each bottle are full directions printed in different languages.
