C. G. WOODALL,
EDITOR AND PUBLISHER.

A NUMBER of the howling lunatics who style themselves "Anarchists" are under arrest in Chicago charged with having brought about the murder of several policemen by the use of dynamite bombs. The hanging of a dozen or two Anarchists, would be a very proper way of showing the mischievous cranks who come here from foreign parts that, while this is a country where personal liberty and free speech have full sway, it is yet a country that will deal short, sharp and decisively with those who attempt to interfere with its law and order regulations. It is to be hoped that John Most, the most blatant of the anarchic lunatics, can be connected with the Chicago riot, and his worthless neck be one among those that are stretched. He kept himself in hiding after the riot, but was discovered by the police and hauled from under a bed by the heels. It is believed that he can be connected with the Chicago affair by strong circumstantial evidence.

IT IS a disgraceful fact, that legislation is sometimes defeated in Maryland after a measure has been passed by the General Assembly, by the stealing of the engrossed bill before it reaches the Governor for his signature. A bill passed by the recent Legislature, compelling owners of Western Maryland coal mines to adopt proper methods of ventilation so as to protect the health of the miners, never received the Governor's signature, and the Alleghany miners were, with some justice, in dignant thereat. Without proper investigation, however, they passed resolutions condemning Governor Lloyd. The Governor in reply to the resolutions stated to the miners, through an open letter, that the bill never reached him. The miners have accepted his statement and have exonerated him from all blame in the matter. The party who prevents any given legislation, by stealing the original copy of an enacted law, commits a high crime against the State, and the law of the State should be made so to recognize it, and to to punish it as such.

The Duty of the State.

The militia of Maryland should be promptly and thoroughly organized. We do not know that we have any of the Chicago and Milwaukee social brotherhood in this State, but if they should make a demonstration in Baltimore it would be well to be prepared to give them a warm reception. The last Legislature appropriated $50,000 to arm the militia of the State, and they should be armed and drilled.—*Easton Star.*

The recommendation of the *Star* is the dictate of prudence and forecast. The danger is not over, and it is the part of wisdom to prepare for it. It is too late to begin preparation in a crisis like that at Chicago or Milwaukee. Since the outbreak in those two Western cities we may look for similar outbreaks elsewhere. The feeling is contagious, and will be likely to spread. —*Westminster Advocate.*

The *Star* is right and the *Advocate* is right. Maryland should have a well armed and well drilled militia, that can be relied upon in an emergency. Every company in the State should be well officered and thoroughly disciplined. The State militia should not be a play soldier af fair. It should be remarkable for something beside brass-buttoned uniforms and ornamental street parades. In order to insure thorough organization and efficiency, the commander of the State forces should use all the authority in his power to assure proper organization and discipline of local companies. The appropriation by the last Legislature is ample for equipping a State militia, if it be judiciously expended.

F. S. PHELPS, the founder of the Smyrna *Record*, in the last issue, writes his valedictory and passes the *Record* over to Messrs. Taylor & Boyer, two young men of Smyrna. Under management of Mr. Phelps, the *Record* has been a rattler. From the day on which it was born until its last issue, its mission down here below seemed to be to stir up the little State of Delaware. Now that Phelps has emigrated to Philadelphia, it is to be feared that such a calm will fall upon the inhabitants of the three counties of Delaware, that the Eastern Shore of Maryland will begin to think that she is the whole Peninsula. Mr. Phelps, it has been stated, expects to fill a position upon one of the Philadelphia dailies.

THE Cambridge *Chronicle*, with its last issue, completed its thirty-third year. A wide-awake, well-printed, well-edited local paper, is a thing that any town and county should be proud to possess, and should freely encourage. The town of Cambridge and the county of Dorchester have reason to be very well satisfied with the *Chronicle* under the present management of Editor James F. Melvin. The *Chronicle* ought to fill the bill.

A GREAT MANY of the *Transcript's* Maryland and Delaware exchanges have given expression to a kindly good-will, coupled with generous good wishes, anent the *Transcript's* 25th birthday. Of all these kindly expressions, the *Transcript* is duly and truly appreciative.

We publish a little pamphlet (sent free to any address) giving their testimony just as they gave it to us; but if you have any doubts about the matter, write any of these Relieved Rheumatics, and get an expression from them:

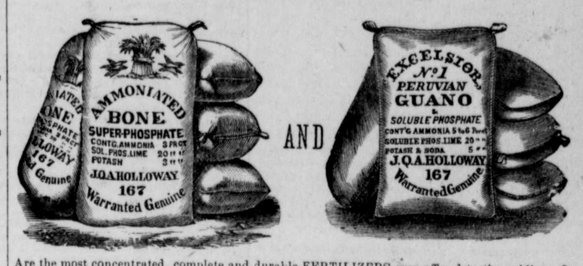
To Corn Planters!

HOLLOWAY'S



Are the most concentrated, complete and durable FERTILIZERS ever offered to the public. It is the universal opinion of Farmers and Planters of Maryland and Virginia, after more than Twenty-seven years experience, in their use, that an application of 100 pounds is equal in its effects to 200 pounds of any other Fertilizer or Guano, therefore 50 per cent. cheaper.

UNIFORM QUALITY IS GUARANTEED.

Farmers, to secure the *ONLY GENUINE EXCELSIOR* and *PHOSPHATE* should see that every Bag is branded as above, with the *Analysis and My Name in Red Letters.*
