WOODALL & JUSTIS,
EDITORS AND PUBLISHERS.

A Pair of Rival Houses.

Baltimore city has just at this time two political clubs, and the Baltimore city dailies give frequent items of information concerning these clubs. This club literature is not specially edifying to the general public, but to him who reads with due appreciation it has a fine humor in it. One item, reading alike in all the papers,—which proves it to have been shaped at headquarters,—will state that the "'Calumet' last Tuesday evening elected seven new members. Mr. Smith Brown sang a tenor so'o. The attendance was large, and all those present enjoyed themselves. The Calumet is in a flourishing condition." Another item not far away in the same paper will state, that the "Crescent" again on last Friday evening, "took a strong reform stand." "Mr. Frank Morrison made a strong reform speech," &c., &c. A selection from one of Mr. Morrison's "reform stand" speeches may not prove uninteresting. Mr. Morrison's English is not always the best, and his meaning is not always of crystaline clearness, but his reform views are probably sound,—when you learn exactly what they are. On a recent occasion Mr. Morrison said,—

"This is a very serious matter to discuss. It is not a pleasant thing to be compelled to stand out at the front and acknowledge that a man has done wrong at home. It is doubly unpleasant for a man to acknowledge that he was even implicated with those with whom he has been associated and who have done wrong. And yet from the inception of this organization to the present time you have gone along step by step until this action was unavoidable.

"You cannot disguise the fact, no matter how you turn your head, that every step this organization has taken has led up to this last result. I regret very much that I, of all others, should be compelled to come down and explain this declaration. In as few words as possible I will try to tell you how it looks from my standpoint.

"The resolutions are not intended to be retroactive nor retrospective. I believe these resolutions are absolutely essential for the life of the party which we have served through thick and thin, through right and wrong during all these years."

The reform move No. 2, headed by Messrs. John K. Cowen, Teacle Wallis and others, utterly repudiates Mr. Frank Morrison, with his Crescent Reform Club, and his crescent reform views. Indeed, the gentlemen pushing reform move No. 2, are disposed to elevate their noses much higher in the air, at the mention of Mr. Morrison and his club, than they are at the mention of Mr. Rasin and his club.

Club politics generally means machine politics. The machine is generally run by a boss in his own peculiar interests. Good, honest, straightforward Democracy would undoubtedly be much better off in Baltimore, without either the "Calumet" or the "Crescent."

THE congressional district which Mr. Samuel J. Randall represents, is made to run through Philadelphia, as zig-zag as a cow-path through s swamp. This district was made by a Republican Legislature for the benefit of Samuel J. Randall. There has been some talk that the present State Legislature would divide the city up by straight lines, which would make every congressional district in Philadelphia Republican. Sam'l J. Randall, however, is too valuable for the Republican party to lose, and they propose to continue to take care of him. The zig-zag district will be maintained in his interests.

THE Easton *Star* has declared itself as opposed to the renomination of Grover Cleveland. The *Star* had better go slow. The next President of the United States will be Grover Cleveland. If he is not, the next President will not be a Democrat.

THE *Transcript* has received from Hon. E. K. Wilson three volumes of valuable obituary speeches. Its stock of obituary literature is sufficient to last it through the next one hundred years.

DIED.

WESTCOTT.—At his late residence in this town, on Tuesday morning, March 22d, in unfailing trust in the merits of Christ, Mr GEORGE B. WESTCOTT, aged 86 years. His funeral will take place from Emanuel P. E. Church, this (Thursday) afternoon at 2 o'clock.

HANCE.—In Chestertown, March 20th, GEORGE W. HANCE, aged 34 years.

LEE.—Near Fairlee, March 21st, ALBERT, the infant son of Vincent Lee, aged 12 days.

REED.—At Templeville, Md., March 6th, of pneumonia, after an illness of two weeks, Mrs. ANNIE E. REED.

RESOLUTIONS OF RESPECT

To the Memory of George B. Westcott, Passed by the Board of Directors of the Chestertown National Bank of Maryland.

Resolved, By the Board of Directors of the Chestertown National Bank, at a special meeting held March 23, 1887, that in the death of the late GEORGE B. WESTCOTT, this institution has lost an able officer; one who has managed its affairs from its organization, and ever manifested that wise and prudent judgment which has contributed so largely to its success, and that sterling integrity which has secured for it the unlimited and just confidence of all having business connections with it, and we a wise counselor and a uniformly, courteous and able presiding officer. And that we extend our sympathies to his family, hoping they may find in the blessed consolations of the religion of our Lord and Saviour a healing for their great sorrow.

Resolved, That the secretary of this meeting be requested to record the above resolutions on the minute book of the directors and send a copy to the family of the deceased, and also to the county newspapers.

Remarkable Success!
THE IMPERIAL BURNER

I herewith annex a few testimonials:

I never could find a lamp which would give a satisfactory light until I was furnished with the Imperial by Mr. Stam. W. J. SCOTT.

Eight burners light my hall brilliantly. They give me more light and less trouble than any burner I have ever used. COLIN F. STAM.

Mr. L. K. Stam—Dear Sir—The Eight Light Chandelier purchased of you, with the Imperial Burner has given perfect satisfaction, lighting up the entire hall, and was commented upon favorably by all present.
Yours, &c., T. A. HULME.

I am delighted with my lamp; never had so much satisfaction with light before.
H. W. VICKERS.

I have tried several different kinds of Burners in lighting my store, and find the Imperial excels them all; it gives more light and greater satisfaction than any I ever used.
M. T. GOSLEE.

Reference is also given to any one using the burner. It is not necessary for me to say any more regarding this burner, though I give the simple and only directions needed:

DIRECTIONS.—The Burner when sent out is wicked and properly trimmed. After that it needs no trimming whatever, or further attention than occasionally wiping off with a soft cloth. In lighting, never use paper. When the Lamp is lighted, turn up the wick gradually until the chimney is heated, then turn to full height. The chimney requires no wiping or other cleaning than rinsing in cold water, and allowing it to drain and dry.

These Burners can be bought at the Paint Store next door to Goslee's Shoe Store.

Our Peach Tree Guano! Our Peach Tree Guano!
TRADE MARK

The most successful growers of peaches are using fertilizers upon their orchards, and they believe it is necessary that the tree must be fed to produce yearly crops. A large crop one season necessarily reduces the quantity of fruit the next, without you supply to the tree what the fruit takes from it. A properly prepared and low cost Fertilizer is cheaper than fruit, therefore you must make a good profit if you feed your trees. Peach trees should not have applied to them any fertilizer containing sulphuric acid. Nearly all the Peach Tree Fertilizers are made with this objectionable article. Our Peach Tree Guano does not contain one lb. of sulphuric acid, and the wonderful results from its use prove our claim that it is the most successful Peach Tree Food upon the market. Ask the gentlemen mentioned below their opinion of these goods. Dr. John J. Black, New Castle, Del., author of the celebrated work upon the peach, pear and quince, says: "I think the condition of my trees warrants me in saying the application of your tree Fertilizer to them has been of advantage."

BETTERTON, Md., Jan. 12, 1887.
MESSRS. C. W. KENNARD & Co.—Gentlemen:—In the Spring of 1885 and the Spring of '86 I used your "Special Tree Guano" with very satisfactory results. My crop was nice both years. The summer of 1886 my crop was large and fine and what was very peculiar my peaches did not rot on the trees, which I attribute to your fertilizer. HENRY H. MCVAY.

WORTON STATION, March 4, 1887.
MESSRS. C. W. KENNARD & Co.—Gentlemen:—I used one ton of your "Peach Tree Guano" last Spring on our peach orchard with the most surprising results. The orchard is sixteen years old, and as the trees had not borne any peaches up to last year for over seven years, I advised Mr. Porter to let me cut it down, but we did not do so I am glad to say. We had a nice crop last year; the peaches were nicely colored and of fine size. We made three pickings from the trees; we counted the peaches in one basket and it contained only fifty-two peaches. I measured one, it was 10½ inches in circumference. The *Kent News* contained an account of the basket containing the fifty-two. For a large number of our peaches we got one dollar per basket, and the basket returned at the station. Another strange thing was; that the orchard kept its foliage longer and greener than any orchard I saw last fall. I certainly cannot help recommending your Peach Tree Phosphate, and advise all growers to use it.
P. H. GEARS.

BETTERTON, Md., Jan. 12th, 1887.
MESSRS. C. W. KENNARD & Co.—Gentlemen:—We have used your 'Special Peach Tree Guano' with wonderful success on old peach trees, and in our nursery, the most remarkable result was on our June budded trees; we gave them an application when we budded in June, and where we made the heaviest application our trees were over five feet high in the following October.—Where we only used a small quantity the trees were about two and a-half feet high, an increase in size of one hundred per cent. We truly believe your "Peach Tree Guano" the best article made for peach trees, and the lowest priced; shall need more next spring. We will be pleased to answer any questions regarding its worth, and advise all nurserymen and peach-growers to use it.
Very respectfully,
H. H. MCVAY,
J. T. VANDEGRIFT,
Nurserymen.

Black Residuum! Black Residuum!

Hand in your orders for this article early. It prevents frenching in corn, and destroys insect life in your peach orchard. We are always the lowest priced in fertilizers and chemicals. A trial will convince you. We were the first to lower the price of these goods.
