WOODALL & JUSTIS,
EDITORS AND PUBLISHERS.

We have met the enemy, and to a certain extent he is ours. And, to a certain extent, we are "his'n." The *Transcript* has no flags to fly, no trumpets to blow, and no triumphant roosters to parade. Messrs. Harris, Justis and Jacoby appear to be beaten, by small majorities. There is no reason why it should have been so. It can only have happened by the desertion of a considerable number who voted for the Democratic State ticket. The Temperance vote, too, was drawn principally from the Democratic party. The temperance Democrats who threw away their votes for a cause that had no possible chance of winning have succeeded thereby in partially defeating the party with which they have heretofore affiliated.

GENERAL NEWS NOTES.

The regular trips of transatlantic steamers between cholera-infected parts in Europe and the seaports of this country have not been intermitted, although the danger of contagion is constant ahd ever imminent. It is not possible under our present laws to act for the protection of the public with the instant efficiency that is required. Suspected vessels may be quarantined; but they must be admitted to port. What is needed is a statute prohibiting the carrying of passengers to this country from infected foreign seaports, with authority vested in the head of the proper department to declare which ports are to be closed as infected within the meaning of the law.

The people of Georgia do not agree with Mr. Randall's tariff views, and they cannot be made to do so. Their real sentiments are misrepresented by two or three noisy organs who grind for Mr. Randall and his protectionist clan. The great body of the press of Georgia every day and every week proclaims that the sort of tariff reforms the people of the State demand is the reform which Mr. Carlisle and four-fifths of the Democratic party in Congress have been trying to effect, and which Mr. Randall and a little knot of protectionist Democrats have defeated. If there is any one who honestly doubts how Georgia stands on the tariff, we invite a careful attention to the political events in this State during the next twelve months.—*Macon (Ga.) Telegraph.*

On April 30, 1789, the wheels of government under the new Constitution were first set in motion. The first Congress had assembled in New York, and on that day General Washington, the first President, took the oath of office. It has been proposed by the New Yorkers to appropriately celebrate that great event on April 30, 1889. A meeting will be held at the Fifth Avenue Hotel on Thursday evening, Nov. 10, to take preliminary action. The meeting will be attended by many of the most influential gentlemen in New York, who appear to have determined that the last momentous step in the establishment of the Union shall be duly commemorated.

Undismayed by mistakes and previous failures, the owners of the famous "big raft" of Nova Scotia have again reconstructed their singular craft and will endeavor to tow it to New York by means of two powerful tugs. The raft is 560 feet long, 60 feet wide and 36 feet deep at its centre, and is cigar shaped. If this method of shipping large timber should prove successful, a new system of transportation in the lumber business would be established and much timber utilized which now is either burned at the mills or left to decay.

Wasaington, D. C., Nov. 6.—A Democratic Representative who has recently been in a conversation with Speaker Carlisle said yesterday that there need be no doubt that Mr. Mills, of Texas, would be chairman of the Committee on Ways and Means. "There are two ways of making that a strong Democratic committee," said the gentleman. "One is to increase the strength of the Democratic members of it, and the other is to diminish the strength of the Republican members. The Republican minority will be much weaker in this Congress than in the last. Hiscock and Reed will be a great loss to the Republican minority of the committee. Hiscock goes to the Senate, and Reed will probably be transferred to the Judiciary Committee of the House."

London, Nov. 6.—Sullivan the American pugilist, was met by friends in a special tug on his arrival at Liverpool. On landing an enthusiastic crowd tried to unharness the four horses of the carriage waiting for him. A reception was given at the Grand Hotel this afternoon, which was attended by many fighters. Among them were Greenfield and Bevan. The customs officers retain Sullivan's belt, pending the payment of duty. Sullivan will start for London this morning.

Chicago, Nov. 5.—News has reached here to-night that a number of picked Anarchists from Cincinnati, St. Louis and Louisville have been ordered to this city, and that these are to be joined by large numbers of others. It looks as though there might be a murderous effort made to prevent the hanging of the seven Anarchists in Chicago next Friday.

Marseilles, Nov. 6.—At a violent meeting of Anarchists here to-day a resolution was adopted to warn American agents in France of vengeance in the event of the execution of the condemned Chicago Anarchists. A copy of the resolution was conveyed by a deputation to the American Consulate. The Consul was absent and the deputation retired quietly.

A young tough, 18 years old, named James McLaughlin, coolly walked into Belevue Hospital, New York, and announced that he had been stabbed. He puffed a cigarette while the physician examined him, and found a wound in the abdomen which has in all probability severed the intestines. He will probably die, but refuses to tell how or by whom he was stabbed.

INDUSTRIAL NOTES.

The cattle industry of the United States represents $1,200,000,000.

A thousand coke ovens are being hurried to completion on Walden's Ridge, Tenn.

The Patent Office records show that 1935 inventions have been granted to women.

Manufacturing establishments are springing up rapidly in Tennessee and Georgia.

A Catasauqua founder is making 400 iron columns for a New York city market house.

A Connecticut man has invented a lamp which runs by clock work and puts itself out.

There are between 7000 and 8000 persons engaged as diamond workers in Amsterdam.

A Pennsylvania syndicate has secured [illegible] acres of land twelve miles from Chattanooga, where it will work ore better than the Lake Superior article.

[illegible] capitalists, with a capital of $5,000,000, are looking for a site to build immense tubular car works and railroad car manufactory a few miles southeast of Pittsburg. Fifteen hundred men will be employed.

[illegible] are building an immense dam across the Susquehanna, which will be of concrete [illegible], built between two rocky [illegible] will be 170 feet high, and built [illegible] having a radius of 637 feet. It will [illegible] stronger than the Quaker Bridge dam [illegible].

[illegible] upward of 100 companies were formed in the Gogebic iron range of Michigan with a capital of $200,000,000. Specimen stock is completely broken down, [illegible] which sold for $5 a few months [illegible] to be had for 25 cents. Attempts [illegible] wages have swamped a great many companies. The labor attracted [illegible] flocked to seek employment elsewhere. [illegible] loads of mining machinery and [illegible] outfitments are being shipped [illegible] locality to Little Rock, Ark.

[illegible] thinkers on the labor question believe that co-operation will supplant competition at an early day. Productive co-operation has made very little [illegible] where. Brains and organizing ability are scarce, and such services will always rate high. So long as there shall be only one man in a thousand who possesses the proper managing ability and foresight so long will the other 999 occupy the relation of employees under one name or another.

So far this year nearly 10,000 miles of main track, including repairs, have been laid. Railmakers have had to drop their prices from $40 to $34, and they are now much disturbed over the rumors that some of the syndicate have reduced prices to $23. The production of steel rails this year will be over 2,000,000 tons. Next year promises to be a very active one in railroad circles, and in bridge-building, car work and locomotive work the output will be beyond all precedent.

There are indications that a new tariff agitation will be started in the West, and the manufacturing interests of the East, recognizing it, are preparing to meet it by argument and appeal. The farming interests complain chiefly of the high price of clothing, and in a general way of higher prices of manufacturing articles than would rule under lower duties. This agitation will do more to enlighten the people upon a true national economy than anything else.

In England wheat values are advancing. Corn is stronger and demand is good. The industries of Great Britain are more profitably engaged now than they have been for two or three years. The Continental and colonial demands are expanding, and manufacturing interests are about to have a little better time.

DIED.

ROSE HILL NURSERY.

I desire to call the attention of those intending to plant orchards this fall or next spring, to the following facts:

I HAVE 80,000

Fine, Healthy, Vigorous Trees, of the varieties which experience has shown to be the best.

These Trees are all budded with the greatest care, and are warranted to be true to name in all cases.

These Trees are entirely grown from 100 bushels of natural seed, purchased in Tennessee. I have used none other than natural seed in my nursery, and I claim that my Trees have all the good qualities resulting from this exclusive use of natural seed.

My nursery is planted in Virgin soil, in which trees have never before been grown, and has not been forced by the use of artificial fertilizers.

I can give references to some of the best growers in this and adjoining counties. Among others to

Jas. W. Lambert,	Jas. W. Chapman,
Colin F. Stam,	C. T. Westcott,
Jas. T. Dixon,	G. B. Westcott,
Geo. W. Perkins,	George Bell,
Sam'l F. Cooper,	Thos. S. Wilmer,

and others, both in and out of the county.

I have catalogues of nursery which I will be pleased to mail to all applicants.

J. H. SIMPERS

Valuable and Finely Located

FARM

At Public Sale.

By virtue of competent authority, the undersigned will offer at Public Sale, at Kennedyville, Kent county, Maryland, on

SATURDAY, NOVEMBER 19TH, 1887,

AT 2 O'CLOCK P. M.,

THAT VALUABLE FARM

belonging to Mrs. Thomas J. Shallcross, on the east side of the public road leading from Locust Grove to Shallcross' Wharf, containing

215¼ Acres

OF LAND.

This is one of the best farms ever offered for sale in Kent county. The land is highly improved, and ranks No. 1.

The Improvements are a

FRAME DWELLING HOUSE

32x16 feet, two stories high, with Kitchen attached. A FRAME BARN, 40x20, ft., in good order.

AN APPLE ORCHARD

of about 12 acres of Choice Fruit, and a PEAR ORCHARD of one acre. Four acres set in Asparagus, which netted the owner $150 per acre in 1886, and about $100 per acre in 1887.

There are about 15 or 20 acres in Wood land and Marsh, which, with very little expense, could be made as valuable as any other part of the farm.

This Farm is very favorably located, within half a mile of Shallcross' Wharf, where there is a daily steamboat to Baltimore; three miles from Black's Station, on the Smyrna and Del. Bay R. R., and within a mile of Locust Grove, and convenient to school, church, mill, post office, &c.

Possession will be given purchaser January 1, 1888. Plat of the farm will be exhibited on the day of sale.

—ALSO—

WHARF & GRANARY

ON SASSAFRAS RIVER,

KNOWN AS "SHALLCROSS' WHARF,"

containing in all about THREE ACRES OF LAND, with Granary,

Dwelling House,

and 2 Tenant Houses.

This wharf would make an excellent business place, being situated in a very productive neighborhood.

Terms of Sale will be one-third of the purchase-money in cash on the day of sale, and the balance, with interest from January 1, 1888, in one and two years from that date. Deed at cost of purchaser.

CHARLES T. WESTCOTT,
Nov. 3, 1887—ts. Attorney.

You Can Find

OUR STORE

WITHOUT A MAP.

Yes, you can find our Mammoth Store without the aid of a map or diagram. Our grand establishment ranks among the most attractive and imposing mercantile buildings of the Monumental City, and its location, like the name of Mabley & Carew, is thoroughly familiar to the people of Maryland and the South.

Now for a practical, common-sense business chat with everybody. We put aside all unnecessary formalities. We don't like formalities, we don't like what is commercially known as "red tape." A man's a man, and a woman's a woman, that's all there is about it.—Everyone who enters our store is greeted with civility, and business-like courtesy. If you merely wish to "look around," all right.—You're welcome. There's a competent and courteous salesman, he'll show you everything. Don't carry your baggage and bundles all over town. Step right up to our first floor bundle counter and have your parcels checked, subject to delivery on demand. Just make up your mind when you come to Mabley & Carew's that you're an invited and welcome guest. These privileges cost you nothing, but will add greatly to your comfort and convenience.

Here you are on the first floor. Look at that $1 suit, there's a whole counter full of 'em at the same price and it's a genuine all-wool Scotch Cheviot, well made and correctly trimmed. You'll see suits exactly like it displayed in clothing store windows about town marked $15. Here's a grand assortment of Tailor-Made suits in English CHEVIOTS, PLAILS, WORSTED, CORKSCREWS, &c., at $15 each. Quite sure you couldn't match them in Baltimore for less than $20. Try it and let us know the result. There's our Pantaloons' Department to the right as you enter the door. Never saw so many pants and such a variety of patterns in one store, did you?—Guess not, for our general stock is just about three times larger than that of any other clothing house in all the South. Pantaloons from $1 up to the very finest made. Take a glance at our Furnishing Goods Department. Shelves, cases and tables filled to repletion with everything seasonable in the line of Furnishings, SHIRTS, COLLARS, CUFFS, UNDERWEAR, HOSIERY, GLOVES, NECKWEAR, HANDKERCHIEFS, Cardigan, Jackets, Umbrellas, Mufflers, &c. Prices always 25 per cent. less than are charged at exclusive stores.

Second Floor—Our Children's Department. Headquarters for Juvenile Clothing. Shirt Waists, Hats, Caps and Furnishings. Truly a magnificent stock, matchless and enormous in its variety of styles and patterns. CUTE and PRETTY KILTS, stylish NORFOLK SUITS, handsome THREE-PIECE SUITS—in fact, Suits of every description for Young Folks. Prices surprisingly low—much lower than are charged at any other store in the city. Our Overcoat Department offers decidedly the largest and most elegant variety of Overcoats your eyes every gazed upon. We'll sell a reliable garment for $4 or $5. You can select any grade and style you desire, for our assortment includes OVERCOATS of all qualities, from ordinarily good up to the finest Satin-Lined garments, all at very lowest prices.

Mabley & Carew,

S. W. Cor. Baltimore and Light Streets.

Send your name and address and we will mail free our Fall and Winter Fashion Review containing rules for self measurement and description of all the latest fashions. Also Furnishing Goods price list and set of handsomely colored cards.

and parties will be conveyed to and from Boat or Cars free of charge, and to any part of the Peninsula at Low Rates.

This House will be run as heretofore—on First-Class principle. Our rates are:

$1.50 per Day: .50 cents per Meal.

Rooms can be hired by any respectable party, and they can play cards to their hearts content if they so desire. Any abuse to furniture must be promptly paid for. Will state for the benefit of my temperance friends, that I always keep a bottle of two-year-old Monticello whiskey, and they can have, as all traveling men are welcome to, a good drink before eating their dinner. In regard to my table, as occasion may require, they will get California wine, peach, apple and pear cider, and occasionally brandy, when the dishes require it. My wife possibly uses 1 gallon good whiskey, in sauces per week. Call and see us and be convinced that we will treat you well.

COAL!

We will again call the attention of our friends and the public generally to the fact that with our present arrangement for transporting coal, we can furnish them the best quality of White Ash Coal, as low (or nearly so) as you can buy a lower grade of Coal. It is a fact without controversy (to them that know the difference between the grades of White Ash Coal), that the Lee Coal which we handle is the Best Coal that is brought to this market. The time will come when our people will find out that there is as much difference in the grades of White Ash Coal as there is in any other product. Some people seem to think that Coal is Coal. So it is, and wheat is wheat, but it is not all alike. We are ready to fill all orders for summer or winter use at the very lowest cash price. In future we expect to do business on a cash basis. Although Coal is from 30 to 40 cents higher this year than last. The outlook seems that it will be higher as the season advances. Remember that 2240 lbs. is a ton of Coal. Probably it will be to your advantage to examine our stock of Coal before buying.

Yours respectfully,

J. T. TWILLEY & CO.

FALL FERTILIZERS!

T. W. ELIASON, JR.'S

CHESTER COMPOUND

—AND—

No. 1 Ammo. Superphosphate.

I again offer the farmers of Kent these two Reliable Brands of High Grade Fertilizers. They are both Complete Fertilizers, being rich in Ammonia, Available Phosphoric Acid and Potash, and do not contain a single pound of adulterating material.

Their excellence has been proved by their uniform success running through a period of ten years' liberal use by many of our most successful farmers.

This excellence will be maintained, and no demand for cheaper fertilizers will influence us to lower the quality of these brands.

PRICES ARE SOMEWHAT REDUCED

from last season, and will be pleased to furnish quotations.

I also invite the attention of those who intend to use a high grade Alkaline Superphosphate to my

M. P. (Muriate of Potash) Brand.

which is composed of High Grade Dissolved South Carolina and Muriate of Potash, showing from 12½ to 14 per cent. Avail. Phosphoric Acid, and from 4 to 5½ per cent. Salts of Potash.

Also for sale

Dissolved South Carolina High Grade, Dissolved Animal Bones, Plaster, &c.

Cooley Creamer!

COOLEY CREAMER, COOLEY CREAMER

The Cooley Creamer and its products have been awarded more gold and silver medals than all other milk setting apparatus combined. It is made in four styles. The Senior, The Elevator, The Junior and Cabinet style. It is the only Creamer made which is allowed to submerge its cans, or have them water sealed, which advantage is only to be tested to be proven. The Cooley Creamer has more labor saving conveniences than any other.

By permission we refer you to the following parties who are using them satisfactorily:

MRS. W. W. STEPHENS, Hanesville, Md.;
