Skunk Takes Snooze in Comfy Clothes Basket

WILLIAMSVILLE, N. Y.—After a refreshing snooze in a comfy clothes basket, a skunk walked away "without leaving even a trace of an odor." Mrs. J. C. Eakin discovered the skunk sound asleep in a basket filled with soiled laundry.

The local dog warden, answering her appeal for help, wrapped a blanket around the basket and carried it into the backyard. The little visitor apparently got out the right side of his bed that morning for he stalked off in friendly fashion.

He Escapes Handshakes But Meets With Disaster

BARTOW, FLA.—Fred Bohde has decided it isn't a good idea to be in such a hurry to leave church as soon as the benediction is over.

Rushing out at the end of the service, Bohde passed under a large oak near the church just as a heavy limb fell. At the hospital they found he had suffered a fractured rib, bruises and a general shaking up.

"I wish now I'd stopped to shake hands with a few more people, then I'd have missed that limb," he said from his hospital bed.

Judge's Best Customer Celebrates Anniversary

ATLANTA.—Police Recorder A. W. Callaway was celebrating his 21st anniversary on this bench. Up before him came a familiar person, a red-haired woman charged with being drunk.

He observed that she had been in his court four or five times a year ever since he took the bench. Wearily, he announced $7 fine.

"It's all your fault, Your Honor," blurted the red-haired defendant, "I was just celebrating your anniversary."

NAGGING BACKACHE
May Warn of Disordered Kidney Action. Don't Neglect It!
Modern life with its ceaseless hurry and worry, irregular habits, improper eating and drinking, exposure, contagion *whatnot*, keeps doctors busy, hospitals crowded. The after effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.
After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.
Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance sometimes are burning, scanty or too frequent urination.
