ounty near Chestertown or some other
arm in the vicinity, for the purpose of es-
ablishing a cannery. They expect to raise
all the vegetables and a large portion of
the fruit which they will pack.

built the new draw over Chester River
mpton, finished the same on Monday

Transcript told Capt. Burchinal
y in the campaign that he had no pos-
ible show for being the next collector of
he port of Baltimore. Now that things
have changed and wearing a somewhat
different aspect the *Transcript* will be well
pleased to see him win the place. Indeed
we should be very glad to shelve him snug-
ly in the collectorship.

—A prominent and enthusiastic Ches-
ertown Republican in election
ived a neat [illegible] Phila-
It contained what appeared to
eatly bound book, and was inscribed
t "Republican platform." The book
d to be a box made like a book and
was found a flat bottle labled "free
ky." See the joke? Republican plat-
m—free whisky. Joking on facts.

—A committee waited upon the Kent
county commissioners on Tuesday last and
urged a speedy conference upon the Ches-
ter River bridge matter with the Queen
Anne's commissioners. It is reported
that a committee of Queen Anne's county
citizens also waited upon the Queen Anne's
county commissioners. The feeling is,
that what is done in regards to the bridge
should be done immediately.

—Governor Jackson has ordered *nolle
prosequies* in the cases against Robert Al-
exander and Woolman J. Costin, two
young men formerly of Centreville against
whom indictments for forgery were pend-
ing. The pardoning papers were received
by the clerk the latter part of last week
and filed in the respective cases. The
Centreville *Record* says: From reliable
information both these young men are
penitent and are filling honorable and re-
sponsible positions.

—If the Chester River bridge is made
free to travel without tolls, it is more than
likely that within ten years a village will
grow on the Queen Anne's side. The land
there is first rate for building purposes,
and there could not be a better location
for a large cannery. It would be near to
a fruit and vegetable growing section, and
close to transportation.

—Mr. Thomas S. Dodd received on Sat-
urday commission from Gov. Jackson, as
justice of the peace, to succeed Esquire
Wheatley, recently deceased. He was
sworn in and entered upon the discharge
of his duties on Monday. Mr. Dodd is a
young man, being only twenty eight years
of age. He is however a man of intelligence
and character, and may be relied upon to
do justice. His office will be at the sheriff's
office in the court house building.

—County commissioners met Tuesday.
All present except second district com-
missioner.

Report of grand jury, October term,
1888, was accepted by the board and filed,
and Mr. Morris was appointed to investi-
gate matters referred to in report concern-
ing county jail.

The resignation of Wm. B. Plummer,
constable for third district, was received
and accepted, to take effect from date.

A committee of citizens, of which M. deK.
Smith was spokesman, waited upon the
board to urge the importance of a speedy
conference with Queen Anne's commission-
ers in reference to purchase of Chester riv-
er bridge. Mr. Morris, commissioner from
fourth district, was appointed to confer
with the officers of the bridge company to
ascertain price and terms on which bridge
may be obtained. It was further ordered
that the county commissioners of Queen
Anne's be invited to meet the commission-
ers of Kent, on Thursday, 22d inst., at the
office of the latter, in joint conference upon
the matter of purchasing the bridge.

Board was further engaged in examin-
ing, approving and passing sundry acts for
orders on the several collectors.

—Orphans' Court, Nov. 13, '88–present
Judges Walker, Fisher and Moffett.

Thos. B. Hadaway, adm'r of John W.
Brown, dec'd, filed release from Alice O.
Brown.

John P., Robt. G. and Wm. T. Nichol-
son, ext'rs of Robert Nicholson, dec'd,
passed their first and final admin. account.

Matthew H. Rash was appointed guard-
ian to Wm. T. Daniel.

Wm. M. Slay, adm'r of G. W. T. Perk-
ins, dec'd, filed an additional account of
sales of the personal property of his de-
cedent.

Elizabeth and Thos. A. R. Pierce, admr's
of Geo. R. Pierce, dec'd, filed an inventory
of the personal property of their decedent.

Back from Kansas.

Mr. Samuel Lee, residing near Melitota,
has recently returned from a trip to Kan-
sas, where he paid a visit to relatives. He
hurried home in time to get in a vote on
election day. Mr. Lee visited in three
counties of Kansas, and passed through
other parts of the State. As a farming
country, he does not think it will begin to
compare with Kent. Though they have a
rich virgin soil, they are not up with us in
progressive methods of farming. The
farm buildings will not compare with ours,
most of them being one-story. It is a great
stock raising country, and he saw a good
deal of fine stock. The towns are general-
ly handsome and well built. Game is
abundant. There is no peach culture to
speak of, and trees when planted, are gen-
erally left to take care of themselves. Mr.
Lee found Republicans thick everywhere.
Kansas, it will be remembered, is the State
of the unsquelchable Ingalls. His visit
was in all respects pleasant, and more es-
pecially so in the meeting of relatives
whom he had not seen for a long time.*

Matrimonial.

The following marriages were announced
to come off yesterday, the 14th inst. At
the time of going to press, the *Transcript*
is unable to give particulars:

The marriage of Miss Nannie L. Rouse,
youngest daughter of the late Robert H.
Rouse, of this county, and Dr. Arthur B.
Glasscock, formerly of Grafton, West Va.,
now of Tilghman's Island, at Salem M. E.
Church on Wednesday, November 14, at 3
o'clock P. M.

Mr. Wm. L. Holton, teller of the Cen-
treville National Bank, and Miss Henrietta
Goldsborough McKenney, daughter of Gen.
Wm. McKenney, at noon at St. Paul's P.
E. Church, in Centreville, Wednesday,
November 14th.

Mr. John H. O. Stokes, of this county,
and Miss Katie Virginia Friel, daughter of
Capt. Daniel Friel, on Wednesday, Nov.
14th, at half-past ten o'clock A. M., in the
Church of the Holy Trinity, Church Hill.
A reception will be held from twelve to
half-past two o'clock.

A Shooting Case.

Hamilton Frisby and Henry Johnson,
two colored men employed by Mrs. E. R.
Wickes, on Wednesday morning quarreled
over a dog. The quarrel finally brought on
an encounter and Johnson was following
Frisby with a stick when the latter ran to
the carriage house and seized a gun and
fired upon Johnson at close range. The
full load took effect in the left thigh, mak-
ing a deep round hole that probably pene-
trated to the bone. Dr. Catlin was sent
for and examined the wound. He found
that Johnson had no home and advised
that he be sent to the almshouse. The
wound he considered a very dangerous one
and possibly it will prove fatal. He wash-
ed the wound and stopped the flow of blood
Johnson is from Baltimore and has no
friends in this county. Frisby is said to
be quarrelsome and disagreeable generally.
He was arrested shortly after the occur-
rence, by sheriff Casey, and lodged in jail.
He was on his way toward Chertertown
when arrested.

THE NEW CHESTER RIVER POLICE BOAT.

The Defiance of the Swan Point Dredgers.

The new oyster police schooner for Ches-
ter river, is called "Helen Baugh-
man." Capt. George took charge of her
on Friday of last week. When she first
sailed on to her beat, she found a fleet of
dredgers busily at work. They immediate-
ly scattered, without attempting to fight
it out as they have been doing with the
Mary Compton. It is to be hoped that
Capt. George will be able with the new
boat, to enforce the oyster law, and to pro-
hibit illicit dredging on Swan Point bar.
The new boat is pronounced by those who
have seen her, to be very handsomely built,
and to have the general appearance of a
good fighter.

The open defiance, and general piratical
conduct of the dredgers who have been
illegally operating on Swan Point, has
passed all bounds of ordinary law break-
ing. The dredgers have this season not
only openly worked on the grounds, but
have persistently driven off the tongers, for
whom the grounds are by law reserved.
No tonger dare go out on the bar. If he
does so, he is immediately fired upon, and
compelled to withdraw. It is said that an
oyster tonger, who lives near Rock Hall,
has a son who is a dredger. The father
recently attempted to tong oysters, and was
fired on from the son's boat and compelled
to retire. The firshermen of Swan Point
vicinity are not allowed to fish their nets in
day time, but are fired on by the dredgers.
It is even dangerous to walk along the
shore. Some gentlemen who have a duck-
ing shore, were at their resort last week,
and the dredgers fired at them four or five
times. It is said they have nearly taken
all the good oysters from the bar, and that
what are left are young and small. We
shall look to see the new police schooner
make the contest less one-sided.

THE BIG CORN CROP.

Reports of the Yield Made to the Department of Agriculture.

WASHINGTON, D. C., Nov. 10.—The re-
turns of the yield of corn made to the De-
partment of Agriculture indicate a yield
per acre quite as large as that of 1885 and
larger than any other crop since that of
1880. The aggregate grown on a larger
area, will exceed that of any previous
American product, being very close to
2,000,000,000 bushels, or about 32 bushels
per capita. The average yield of the corn
surplus States per capita is as follows:
Ohio, 35.2 bushels; Indiana, 35; Illinois,
36.2; Iowa, 37; Missouri, 31; Kansas, 27,
and Nebraska, 36. These seven States
produce 64 per cent. of the crop aggregate.
The general average will fall somewhat
under 27 bushels.

There is a good supply of maize in nearly
all parts of the South, so that comparat-
ively little will be required from the West.
The yields of the Atlantic States are mod-
erate, seriously reduced by frost on the
northern border.

After three years of low yields, potatoes
give an average of about eighty bushels
per acre, or nearly the rate of 1879. The
averages of prominent potato-growing
States are as follows: Maine, 110 bushels;
New York, 82; Pennsylvania, 82; Ohio, 80;
Michigan, 75; Indiana, 75; Illinois, 80;
Iowa, 90; Minnesota, 85; Dakota, 80; Ne-
braska, 80. The yield has been increased
in the South. It is high in the northern
belt of Territories. The total product on
the basis of these averages, is about 195,-
000,000 bushels, or 61,000,000 more than
the estimated product of 1887.

The average yield of buckwheat is ap-
proximately 12 bushels per acre, and the
crop nearly 11,000,000 bushels. The aver-
age for New York is 11 bushels; Pennsyl-
vania, 14; Michigan, 11.5, Indiana, 11.4;
Illinois, 12.6; Wisconsin, 9.5; Minnesota.
11; Iowa, 10.8; Missouri, 10.7; Kansas, 9.5;
Nebraska, 11.3.

Hay is a crop slightly above the average
in yield, or 1.22 tons per acre. It has been
nowhere seriously injured by drought.—
There is a strong tendency to increase of
area in the South, and the yields upon cul-
tivated areas, rather than natural mead-
ows, are relatively large.

From Chesterville.

November 12th 1888.

Our union protracted meeting conduct-
ed by Rev. Mr. Merritt and Rev. Mr. San-
ders in the M. E. Church South in this
village has entered on the third week of
its continuance. The meeting up to this
time has resulted in a number of conver-
sions and accessions to the church. The
congregations have been large, and the
church has been strengthened by these
means of grace. We praise the Lord for
this success and pray that many more may
be brought into the kingdom of grace.

Some unprincipled conduct such as steal-
ing whips, cutting harness, etc., has been
carried on here during the meeting. Mr.
Wesley Jarman's new traces were taken
and very old ones were put in their place.
Hope the theives will get caught and put
where they belong.

Miss Ethel Solloway has been troubled
with sore eyes.

Mr. & Mrs. W. Aldridge have been on
the sick list the past week.

Miss E. Orall of Caroline county is visit-
ing her uncle Mr. W. Jarrell.

The ladies of the village and vicinity
will meet next Friday in their Christian
Temperance Union which bids fair to be
of considerable interest.

The political strife did not stir up any-
thing serious in our community. The
Democrats were disappointed, but believe
"there is a destiny which rules our ends
rough hew them how we will." While
the Democrats are disappointed the Re-
publicans are greatly surprised.

Prof. Eben F. Perkins passed through
our village this morning and visited Miss
Helen Powell's school and spent the after-
noon with our school.

CHAPMAN & LAMBERT,
April 5, 1888. Chestertown, Md

FOR CHILDREN OF ALL AGES.

St. Nicholas for 1889.

PEOPLE who have the
idea that *St. Nicholas Maga-
zine* is only for little chil-
dren should look over the
prospectus of that maga-
zine for 1889, and they
will discover that it is for children of
all ages, "from five to eighty-five,"
as some one recently said of it. Indeed,
while *St. Nicholas* is designed for girls and
boys, it might almost be called a "family
magazine," for the grown-up members of a
household will find much to interest them
in every number.

The editor, Mrs. Mary Mapes Dodge,
calls the next volume an "all-round-the-
world year," because it is to contain so
many illustrated papers about the world in
general—not dry geographical papers, but
stories and sketches and tales of travel and
adventure by land and sea—and all illus-
trated by the best artists. The features
will include a serial story, "How We Made
the Farthest North," by
Gen. A. W. Greely, the
well-known commander of
the Greely Expedition; a
serial about Canada, by Mrs.
Catherwood, who is writing
a serial story for *The Century* this year;
"Indians of the Amazon," by Mrs. Frank
R. Stockton. There are many papers about
Europe, including a Christmas story of life
in Norway, by H. H. Boyesen; articles on
Holland and the Dutch, by Mrs. Mary Mapes
Dodge; "The Queen's Navy," by Lieut. F.
Harrison Smith, R. N., with illustrations of
many of England's finest war ships; "The
Winchester School," illustrated by Joseph
Pennell; "English Railway Trains," by
Wm. H. Rideing, etc., etc. The French
papers include "Ferdinand de Lesseps and
his two Ship Canals," and there are several
interesting contributions on German, Italian
and Russian subjects.

Under "Asia," comes "Boys
and Girls in China," by Yan
Phou Lee (a recent grad-
uate of Yale); "Home Life in
the East," by Mrs. Holman
Hunt, and a number of pa-
pers about Japan. Under "Africa" there
is a sketch of Henry M.
Stanley, by Noah Brooks,
and several stories about
Egypt. Australia is not for-
gotten, nor the islands of the
sea, and there are even to be
stories of under the sea.

Of course the bulk of the contents will
relate to American subjects, as usual. Mrs.
Burnett, the author of "Little Lord Fauntle-
roy," contributes a story of New York called
"Little Saint Elizabeth;" there will be papers
describing how the govern-
ment offices are conducted,
papers about athletics, ama-
teur photography, etc. The
full prospectus will be sent
to any one who wishes to see
it by the publishers, The Century Co., of
New York.

The *Graphic* recently said of *St. Nicholas*,
'the family without it is only half-blessed.'

A GREAT MAGAZINE.

The Century for 1889.

THE question has often been
asked, "to what does *The
Century* owe its great circu-
lation?" *The Christian Union*
once answered this by the
statement that "it has been
fairly won, not by adver-
tising schemes, but by the excellence which
characterizes it in every department." In
their announcements for the coming year
the publishers state that it has always been
their desire to make *The Century* the one in-
dispensable periodical of its class, so that
whatever other publication might be desira-
ble in the family, *The Century* could not be
neglected by those who wish to keep abreast
of the times in all matters pertaining to
culture. And the unprecedented circula-
tion of the magazine would seem to be the
response of the public to this intention.

With the November number *The Century*
begins its thirty-seventh
year. Two great feat-
ures of the magazine
are to continue
the new vol-
already well
the public, the
history and the
on "Siberia and
Exile System." The
of these, written by
Messrs. Nicolay and Hay,
Lincoln's pri-
secretaries, contains
the inside history of the
dark days of the war, as
seen from the White
House.

THE SIBERIAN PAPERS,

by George Kennan, are attracting the at-
tention of the civilized world. The Chi-
cago *Tribune* says that "no other magazine
articles printed in the English language just
now touch upon a subject which so vitally
interests all thoughtful people in Europe and
America and Asia." As is already known,
copies of *The Century* entering Russia have
these articles torn out by the customs officials
on the frontier.

DURING 1889

The Century will publish the most im-
portant art feature that has yet found
place in its pages. It is the
result of four years' work
of Mr. Timothy Cole, the
leading magazine engraver
of the world, in the galleries
of Europe, engraving from
the originals the greatest
pictures by the old masters.
A series of papers on Ire-
land, its customs, land-
scapes, etc., will appear, and there are to
be illustrated articles on Bible scenes,
treating especially the subjects of the Inter-
national Sunday-School Lessons. George
W. Cable will write "Strange, True Stories
of Louisiana." There will be novelettes
and short stories by leading writers, occa-
sional articles on war subjects (supplement-
al to the famous "War Papers" by General
Grant and others, which have been appear-
ing in *The Century*), etc., etc.

The Century costs four dollars a year, and
it is published by The Century Co., of New
York, who will send a copy of the full pros-
pectus to any one on request.
