ROCK HALL SCHOOLS.

EDITORS CHESTERTOWN TRANSCRIPT:

GENTLEMEN—A good roof is very essential, but by far the most important feature of any edifice is the foundation, and no building will ever stand to receive the roof unless the foundation is good, and it is so with education. No man can make a good lawyer without a thorough knowledge of the fundamental principles of law. No man can make a great artist or a great musician without a thorough knowledge of the fundamental principles of art or music. Everybody will recognize this as undeniably true, and yet they continue to expect their children to graduate with distinction without taking into consideration the primary educational conditions that prevail in our schools.

There is an undoubted need at Rock Hall for a good primary school. Primary education is receiving the most attention of any branch in all the most progressive educational centers, and if it is the most important feature where the majority of the pupils graduate, how much more important is it where only a small minority reach the higher grades.

We do not want a new school at Rock Hall because Chestertown or any other town has one, but because it is absolutely needed. The conditions under which the site of the present school building is held make it poor policy to abandon the school, and besides it is practical to so alter and rearrange the present building as to make it suitable (though by no means ideal) for the grammar and high school grades.

Country children start leaving school after they reach the fifth grade, and it is only a small minority who reach or go further than the eighth grade. The facilities for primary education at Rock Hall are of the very crudest; the building is in no way suitable; the lighting is badly arranged; the blackboard space entirely inadequate, and the rooms too small to accommodate the classes. It is not the higher grades that are overcrowded, and the necessity of a new high school where the number of graduates for the past five years have been respectively: 1910, 4; 1911, 3; 1912, 2; 1913, 2; 1914, 7, is not apparent.

"The entire object of education is to make people not merely *do* the right things, but *enjoy* the right things—not merely industrious, but to love industry—not merely learned, but to love knowledge—not merely pure, but to love purity—not merely just, but to hunger and thirst after justice."

A child is most susceptible in its early years, and the impressions made upon its mind in its youth are the ones that have the greatest influence in after life. The way to get a child to attend the higher grades is not by putting up fine high schools. If a child starts its education in the midst of congenial surroundings, the desire to learn is firmly implanted, and unless this desire is so implanted, all the fine school buildings in the world will have no effect.

The present school building is in the heart of the town, the play ground is very limited and is only fit for use during the dryest of weather. There are no sidewalks and the children are forced to walk direct into the main road just where the most traffic occurs. This is dangerous, and, to say the least, not a suitable arrangement, especially among the younger children.

What we want at Rock Hall is a first class primary school, and one that will take care of all children up to and including the fifth grade. That will give us our "foundation," and when justified in so doing, the county will take care of the "roof"; in the meantime, the present building will take care of the higher grades and also such special classes as domestic science, &c., &c.

Yours very truly,

D. RUSSELL DOWNEY.

WHEN THE KIDNEYS FAIL

People Have Found That Ill Health Follows.

Do you ever feel that you simply can't go any further—that you must have rest from that lame and aching back—relief from the constant, dead-tired feeling—freedom from those stabbing, darting pains? Likely your kidneys are worn and tired and need help. The kidneys work night and day, removing uric acid from the blood and other waste created by expenditure of strength and energy. Naturally a life of unusual activity doubles the duties of the kidneys and in time the strain generally tells. Doan's Kidney Pills have brought new strength to thousands of bad backs and quick relief to weakened kidneys, so users say. Let them do the same for you. Convincing proof of merit in Chestertown testimony

Mrs. Albert Rawleigh, Cannon St., Chestertown, says: "One of my family suffered from kidney trouble. The kidney secretions contained sediment and the passages were too frequent. He had pains through his back and kidneys and at times was dizzy. Doan's Kidney Pills were finally procured from Toulson's Drug Store and they made him well."

Price 50c at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Rawleigh recommends. Foster Milburn Co., Props., Buffalo, N. Y.

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States. Remember the name—Doan's—and take no other.
