Chestertown Transcript.

PUBLISHED EVERY THURSDAY.

THURSDAY, MAY 29, 1890.

COLLINS & HOPPER,
EDITORS AND PUBLISHERS.

WILLIAM F. WROTH, Esq., of Still Pond, son of Major B. B. Wroth, was elected teller in the Second National Bank of Chestertown to fill the vacancy caused by the promotion of W. B. Copper, Esq., who was elected cashier. Mr. Wroth is a gentleman of high personal character and integrity and well qualified to fill the position to which he has been elected.

GLOVERSVILLE, N. Y., was visited by a severe shock of earthquake on the morning of May 27. Large buildings were shaken, people thrown out of chairs and out of bed, and glass was shattered. The earthquake was preceded by a loud, rumbling sound. At the same moment the fire-alarm bells rang out and the whole city turned out, the excitement being intense. A small dwelling was burned.

PRINCESS ANNE, May 27.—The destructive army worm appeared mysteriously in this county a few days ago, and is now actively engaged in many wheat fields. The worm cuts off the blades of the wheat stalk, and an examination has also revealed his work of destruction in the maturing heads of wheat. Young timothy has not been exempt from attack, and growing corn has also suffered. In many instances corn will have to be replanted. The pests can be enumerated only by millions, and nothing is left to mark their march over a lawn but grass nipped off near the earth. They crawl on porches and have invadsd houses. They blackened a road over which they crossed for 200 yards.

THE McKINLEY BILL will impose a tax of from $2 to $2.50 on every ton of manufactured fertilizers used by our farmers.

Now the farmers of the country cannot stand these figures.

We use 2,000,000 tons of these fertilizers a year. The bill, therefore, proposes to rob the farmers of more than $4,000,000 annually.

At present the sulphuric acid used in the manufacture of fertilizers is free. Very little is imported. The manufacturers are making money. The government needs no additional revenue. Why tax this necessary article?

If the government draws this $4,000,000 a year from the pockets of the farmers it will be to benefit forty or fifty manufacturers whose thousands or so of workingmen will receive no higher wages.

This is another attempt to tax the masses for the classes. There is neither reason nor justice in it.—*Atlanta Constitution.*

SENATOR FAULKNER has introduced a substitute for the bill of Senator Wilson, of Iowa, to correct the effect of the recent "original package" decision of the United States Supreme Court.

Senator Faulkner admits that prompt legislation is necessary to prevent an abuse of that decission, but he holds that the Wilson bill is unconstitutional, in that it proposes to confer upon States certain powers relating to the inter-state commerce, which the constitution vests exclusively in Congress. Mr. Faulkner maintains that the Congress cannot delegate any of its constitutional powers to the States, but he proposes to remedy the matter by providing that upon the transportation of any liquor to and within a State and its delivery to the owner or consignee it shall then at once become and be considered and incorporated as a part of the common mass of property within such State or Territory, and shall, therefore, become subject to the jurisdiction of the State. In other words, as soon as liquor in its package shall have been delivered Congress releases it as an element of commerce and surrenders it to State regulations.

Mr. Faulkner says that unless something is done the effect of the Supreme Court decision would be to destroy the license system of all the States; that liquor dealers would put up packages containing quantities from one drink up, and these in original packages could be sold in the States without the payment of license. Senator Cullom, chairman of the inter-state commerce committee; Senators Vest, Morgan and others endorse Faulkner's bill as the proper solution of the whole subject.—*Baltimore Herald.*

STATE HAPPENINGS.

Cumberland has elected a Democratic mayor and a majority of the city council, under the new election law.

General United States Appraiser Philip W. Downes, who was appointed by President Cleveland in 1886, has received a letter from President Harrison removing him from office. The dismissal was on political grounds only.

Mr. John T. Chambers, near Port Republic, informs us that he has a 4-year-old cow that has produced four calves within the past fourteen months. She was the mother of twins in 1889, and last Sunday again presented her owner with another bouncing pair of bovine babies. She is of common stock but a generous milker.—*Calvert Journal.*

The First Quarterley Conference of the M. P. Church of Snow Hill Circuit, will meet in Snow Hill at 10 o'clock on Saturday morning, May 31. The Preachers' Association of the Salisbury District of the Wilmington M. E. Conference will meet in Berlin on June 16.

The receivers of the Chesapeake and Ohio Canal have been at work on their second report during the past week in Hagerstown, and expect to finish it in a short time. They desire some additional information from the coal companies as to the amount of coal that will be shipped over the canal if repaired.

STRAWBERRY DUMPLINGS. Put one pint of sifted flour into a bowl, and rub into the flour two ounces of butter; add a teaspoonful of salt, a heaping teaspoonful of baking powder, and sufficient milk to moisten; mix quickly, take out on a board, and roll out in a sheet a quarter of an inch thick; cut into cakes with a biscuit-cutter, put about three strawberries in each cake, fold them over neatly, and steam about twenty minutes.

STRAWBERRY SAUCE.—Beat two ounces of butter to a cream, adding gradually four ounces or a half-cupful of powdered sugar; then add twelve large strawberries, mash, and beat till light. This sauce is for the dumplings, but can be used with any batter pudding.

Bucklen's Arnica Salve.

THE BEST SALVE in the world for Cuts, Bruises Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give satisfaction, or money refunded. Price 25 cents per box. For sale by Colin F. Stam.

FRUIT NOTES.

The Outlook in Kent and Elsewhere.

With the approach of the harvest of fruits of various kinds, there is no question of greater interest to the country at large than the status of the vast fruit interests of the country, its aggregate value and the facilities necessary to market it to the greatest advantage to all parties concerned. The following we reproduce from the Baltimore *Sun*, but regret its gloomy forecast:

"The story of the peach crop of the Eastern Shore and Southern Maryland for 1890 is short and sad, as told by the officials of all the steamboat lines which transport the usually abundant fruit to Baltimore. The unbroken current of opinions expressed along the Light street wharf recently in response to inquiries was that the peach crop will be a failure this season. Mr. George Warfield, president of the Chester River Steamboat Company, said all his information was to the effect that there will be no peach crop in Kent and Queen Anne's counties. Capt. Wm. Cunduff, of the steamer Tockwogh, of the Sassafras river route, says there will not be 5,000 baskets of peaches shipped from Kent county the whole season. He has often taken on board as many at a single wharf. He traveled sixty-two miles Sunday through Kent county into Delaware, and saw only signs of desolation and barrenness in the peach orchards. Mr. Jas. E. Byrd, of the Maryland Steamboat Company, and representatives of the other Eastern Shore and the Patuxent river lines, have information of the same depressing import. The mild winter and cold nips in the spring are generally assigned as the cause of the peach failure.

Reports from various parts of the country indicate that Texas and California are about the only States in which fair crops of peaches will be gathered this year. In the great peach growing counties of the Eastern Shore of Maryland and Delaware the crop is reported to be almost a total failure. A similar report comes from different points along the Atlantic seaboard from Connecticut to Georgia, which latter State in recent years has produced large crops of very fine peaches. The peach belts of Illinois and Michigan will also disappoint the growers this year. The crop in California and Texas is said to be fine, but the fruit will be costly when it reaches this part of the country and scarcely to be compared in juiciness and flavor with the product of our Eastern Shore or Washington county orchards."

Further reports from the pear and apple prospect throughout Kent county are to the effect that the crop will be seriously injured and scarcely less so with apples than with pears. Damsons are almost entirely destroyed and the gooseberry crop will be shorter than for years past. The farming community has become steeled by continued experiences against the depressing effects of failures of the fruit and berry crops and will not be unnecessarily cast down by these reports of failure.

Literary Notes.

Scribner's Magazine for June is a Stanley number, containing the only article which he will contribute to any periodical, and the first authoritative word from him on many of the most important features of his great expedition for the relief of Emin Pasha. This article fills thirty-two pages of the issue, and is a most graphic and exciting narrative from first to last. It opens with a solemn acknowledgment of Stanley's belief in God's help to him when he was helpless in the forest solitudes of Africa. "I feel utterly unable," he says, "to attribute our salvation to any other cause than to a gracious Providence, who, for some purpose of his own, preserved us."

The American public is happy in having the first laugh over Alphonse Daudet's new Tartarin story. A translation usually appears either simultaneously with, or subsequently to, the publication of the original work; but in the case of "Port Tarascon: The Last Adventures of the Illustrious Tartarin," the translation by Henry James, beginning as a serial in the June Number of *Harper's Magazine*, will be published complete before the French public can share in enjoying the immense drolleries of the original. The preference given to the American public by one of the greatest living novelists, the hearty cooperation of one of the greatest living American novelists, and the distinguished assistance of Rossi, Myrbach, and others, creators of an original style in the art of illustration, have combined with the enterprise of the American publishers to bring about one of the most signal "international episodes" in the history of modern letters. This unique literary transaction signalizes the beginning of the fifth decade of *Harper's Magazine*.

The *June Century* opens with another article by Albert Shaw, whose paper of "Glasgow" recently attracted so much attention. This time Mr. Shaw treats of "London Polytechnics and People's Palaces," a subject which is particular timely as similar institutions are springing up in the different parts of the world. The frontispiece is a portrait of Walter Besant, author of "All sorts and Condition of Men."

Perhaps the most striking feature of this number is the beginning of another annonymous novel called "The Anglomaniacs." The scene is laid in New York, and the story is evidently written by one who knows well the situation. The pictures are furnished by C. D. Gibson, who knows how to give charm to his heroines.

The Pulpit and the Stage.

Rev. E. M. Shrout, Pastor United Brethren Church, Blue Mound, Kansas., says: "I feel it my duty to tell what wonders Dr. King's New Discovery has done for me. My lungs were badly diseased, and my parishioners thought I could live only a few weeks. I took five bottles of Dr. King's New Discovery and am sound and well, gaining 26 lbs. in weight."

Arthur Love, Manager Love's Funny Folks Combination, writes: "After a thorough trial of convincing evidence, I am confident Dr. King's New Discovery for Consumption, beats 'em all and cures when everthing else fails. The greatest kindness I can do my many thousand friends is to urge them to try it. 10c. trial bottles at C. F. Stam's Drug Store.

ORDER NISI.

EUGENE GOODING, Collector,
vs.
UNKNOWN HEIRS OF JOHN PURNELL.

In the Circuit Court for Kent County, April Term, 1890.

THE object of this proceeding is to procure the ratification and confirmation of a sale made on the 26th day of August, 1889, by the Collector of Taxes for the First Election District of Kent county, of a tract of land in said district described in said collector's advertisement of sale as being situated near the public road leading from Millington to Smyrna, Delaware, on the south side thereof, containing about fifty acres, and improved by an old dwelling house and stable, adjoining the lands of Thomas Pratt, Manlove Wilson and others, and assessed on the books of assessment in the name of John Purnell.

The report of sale made herein, together with all the proceedings had in relation thereto by said collector, having been examined by the court, and the same appearing to be regular, and the provisions of law in relation thereto appearing to have been complied with; it is thereupon this 1st day of May, 1890, by the Circuit Court for Kent county, ordered that notice be given by the insertion of a copy of this order in the CHESTERTOWN TRANSCRIPT, a weekly paper published in Chestertown, Kent county, Md., once a week for four successive weeks before the second Monday of June, 1890, warning all persons interested in the said property to be and appear in this court by the second Monday in July, 1890, to show cause, if any they have, why said sale should not be ratified and confirmed.

Has only served a few mares, but has proved sure with them. He comes down a long line of the best producers.
The American Farmers' Stock Book, in speaking of the most desirable strains of horses which have been the result of careful and scientific breeding, in coming to the Cleveland Bays, says: "We come next to a class of horses always held in the highest esteem for their many valuable qualities. It is a horse that is now bred to a degree of perfection that leaves little to be desired in all that goes to constitute size, style and ability to perform any labor that may be required, except the heaviest drudgery. The Cleveland Bays are good carriage horses, good and stout wagon or plow horses, and they match together about as easily as Devon cattle, combining as they do, plenty of staunch thorough blood with excellent size and constitutional vigor. Unfortunately they are rare in the United States, but since their introduction into the West, they have been steadily growing into favor. They are remarkable for their pure bay color, dashed only at the fetlocks and in the forehead with white. We have good authority for our admiration of this splendid animal. Canada has of late years become celebrated for finely-bred and finely-matched carriage horses, which is due to the sagacity of some Canadian breeders, in selecting Cleveland Bay Stallions for sires."

KENNARD'S
Spring Fertilizers!
It is now nearing the time when the farmer's attention is directed to the growth of Truck, planting of Corn, etc., and in this connection we again offer our Fertilizer to our patrons and farmers in general. Our facilities for manufacturing are much greater and our freighting lower, and we propose that our buyers shall have advantage of the same. We would here remark *that it is not too late to fertilize your Peach Trees*, the many testimonials in our card proving the correctness of our statement. The ingredients of our PEACH TREE GUANO sizes and colors up the fruit beautifully, therefore commands a better price.
CLIMAX, AN EXCELLENT SUPER-PHOSPHATE FOR TRUCK,
which has proven unusually successful, after years of trial, as the many testimonials of those that use it certify.
ACME No. 1, A HIGH GRADE FERTILIZER FOR A REASONABLE PRICE.
adapted to the growth of CORN and OATS, the popularity of same proving its worth.
Acme No. 2, A Corn Fertilizer,
Especially manufactured for "stiff lands." Prevents Frenching in Corn, and grows a good crop, the many that use it, confirming our statement.
POTATO COMPOUND,
Manufactured solely for the growth of Potatoes. A High Grade Fertilizer (at a reasonable price), which ensures an excellent crop of Potatoes. Our space will not allow the naming of each and every testimonial, therefore, parties wishing further information about our several Fertilizers, will communicate with us, and we will be pleased to furnish such.
