Contour Yields More

Studies of wheat yields show that the grain drilled on the contour produces about three to five bushels more per acre than wheat planted in the ordinary way.

He Wanted to Eat, Too

Soldiers at Camp Edwards, Mass., were lined up and ready to march to the mess hall for breakfast. Suddenly Private Thomas F. Miller broke ranks and dashed for the barracks. When he returned the sergeant wanted an explanation, for good soldiers just don't do those things. The explanation was accepted—Private Miller had forgotten his teeth!
