Little Girl Drinks Lye.—The little two-year-old girl of Mr. and Mrs. Romie Younger was quite seriously burned about the mouth and throat and otherwise injured by drinking a quantity of lye. The servant girl mixed a quantity of lye in a cup and set it beside her while scrubbing the floor. She left to attend to some other duty when the little girl came along, picked up the cup and drank a quantity of it. She was in serious condition for a time, but is improving we are glad to state. The accident happened last Saturday morning.

Stirring Them up at Ocean City.—Photogropher J. H. Perskie, who executed some fine work here during last fall and winter, and who has recently purchased some valuable property at Ocean City, Md., at a spirited public meeting held by the Mayor and City Council on Wednesday evening, told the city fathers of their shortcomings and what should be done for the advancement of Ocean City and offered to assist in financing his plans. The plans of Mr. Perskie, if carried out, will give Ocean City an illuminated boardwalk for three miles, with a 15 foot concrete motorcycle track between the boardwalk and the ocean. He also plans for a municipal electric light system, and has other improvements in view which will make Ocean City a great Convention City. Hurrah, for Perskie! He got that spirit while sojourning in Chestertown.

We ask our expert gardeners not to turn green with envy when we state that Mr. Harry R. Graham, the king bee in the gardening line, expects to grow three crops of vegetables on the same piece of ground in his fine garden this year. He has already grown one crop of string beans; his second crop is maturing, and he expects to plant roasting ear corn as soon as the beans are removed, and have roasting ear corn when the other fellows' is all gone. That is what we call ixtensive farming.

Local representative J. H. Sides, sold this week to Mr. L. E. Geantlin, of Kennedyville, one of those fine 1914 Maxwell touring cars. Everybody who owns a 1914 Maxwell, says they are the best car on the market for the money. Ask James G. Beck or Robert G. Nicholson if it is not correct.

Mr. Frank Turner, of Worton, has accepted the agency for the Rumlet car, two samples of which were in Chestertown Monday evening. These are dandy little bicycle wheel roadsters, and can skim over the road like a swallow on the water. Mr. Turner purchased one of the two cars.

The State Board of Health has notified the Board of Town Commissioners to change the present location of the town's water supply on or before November 1, 1915. This will entail a tremendous expense upon the town taxpayers, besides the enormous amount of money that has already been expended upon the system. Would it not be a good idea to ask those who advocated the repairing of the old pool to donate the cost of the repair of the same to the new location.

The postoffice equipment, which arrived last week, is now about installed. It was furnished by the Federal Equipment Company of Carlisle, Pa., and was installed by W. S. and A. M. Culp, contractors. The equipment is of the most modern type and complete in every detail, and with the ample room and convenient arrangement of the new quarters gives to Chestertown a postoffice second to none on the Eastern Shore. The interior painting and decorations are particularly harmonious and pleasing, displaying the skillful work of Mr. James Bartley.

There are 174,000,000 eggs in cold storage in the city of Philadelphia. These eggs have been bought up by the Egg Barons during the late spring and summer at 18 and 20 cents a dozen and they will be disposed of gradually during the winter months at from 40 to 50 cents a dozen. You can readily see where the people get off while eating stale eggs purchased to enrich the speculators. This is what the Republican party sympathizers call prosperity. Yes, prosperity for the Egg Barons, and high cost of living for the people Hurry up, President Willson, and get the Trust regulating laws through.
