COLLINS & HOPPER,
EDITORS AND PUBLISHERS.

EX-TREASURER STEVENSON ARCHER has been assigned to prison hospital work in the State penitentiary, and is now a nurse and assistant to the physicians in charge. A position, says the Baltimore *Sun*, That requires a person of intelligence and patience to fill adequately. The present assistant, who goes out in a short time, was formerly a minister of the gospel, and prior to him the place has always been filled by the inmate best adapted for such service. The duties are to compound at times and always to administer medicines, to keep the hospital in order, to see that the patients are fed as directed by the doctor, and other duties connected with the medical department of the prison.

AT THE recent conference of State Tariff Reform clubs held in Baltimore, it was determined to establish a newspaper bureau for the purpose of supplying the country press with carefully-selected tariff reform literature. Since ex-President Cleveland, the great Democratic standard-bearer of tariff reform, placed in the hands of his party, the vital issue of a revision of an iniquitous tariff system, the necessity of an educational campaign has been sorely felt, and there could be no more satisfactory way of bringing about the desired result than through the potent channels of the press. It is of particular importance that the great truths of tariff reform be placed clearly before the agriculturists of the country, for though most intimately interested, it was in the rural districts that the needed reform was repudiated, resulting in the defeat of Mr. Cleveland in 1888. James A. Pearce, Esq., is a member of the State committee on organization from Kent county.

WHEN GRAVE national dangers confront a country, be it under Democratic, Republican or monarchical rule, it is high time for people to pause and consider the situation, and dispassionately review the prospect and ask themselves what results may follow such an administration of affairs as infringe upon the rights of the *whole* people, irrespective of political, religious or social affiliations. When the "Plumed Knight," James G. Blaine, who lorded it in royal style over the hills of Scotland with Mr. Carnegie, becomes a States Rights advocate and forswears allegiance to orthodox Republican doctrines, something is wrong and it is time to pause and seriously consider the situation of national affairs. The revolutionary system of legislation at Washington, already assumes threatening proportions, and unless a halt is called by someone who may at least have *instinct* enough to see that a limit to such proceedings has been reached, a point may be reached when patience ceases to be a virtue and such a usurpation of unwarranted power will be overcome by a rebellion of public sentiment, and legitimate indignation, such as American feeling has never known.

FIRE WAS DISCOVERED in the main office of the Western Union Telegraph Company, Broadway, New York, on Friday, July 18, and before the flames were extinguished the Associated Press office, the distribution and operating rooms and the restaurant, comprising the two upper stories, were burned, and the whole building deluged with water. When discovered the flames had reached the ceiling of the distributing room and were eating their way through to the operating-room, where the instruments that connect with the wires that distribute news throughout the country were located. In less time than it takes to tell it this entire floor was ablaze and the flames were eating their way to the floor above, where the Western Union Company's restaurant was located. The building was an imposing eight-story iron structure, and was claimed to be absolutely fire-proof. On the lower floor are the private offices of Jay Gould, Sidney Dillon, Dr. Norvin Green and others who are famous throughout the land. Had the fire taken place later in the day when the building was usually crowded with over a thousand people, the result might have been much more disastrous. The loss is estimated at over $250,000.

HOPE FOR THE FARMERS.

It is "an ill wind that blows luck to nobody." If the latest reports concerning the wheat crop of Europe are correct, American farmers have reason to be jubilant. The cold rains of June and July have almost completely destroyed the wheat crop of England. Precisely the same causes have operated on the Continent. In Germany scarcely a third of a crop will be made, and in Russia, which expected to do a big export business in cereals, the crop is only fair and may not more than supply the demands of that empire. In India the crop is smaller than it was last year, when it was unprecedentedly light.

The yield of wheat is, probably, less than usual in many portions of the United States, but, owing to the rapidly increasing area cultivated, the crop will be very near to highwater mark. The greatest difficulty with grain-growers in this country has been for many years to dispose of their produce to advantage. When the crop is phenominally short in Europe and India combined, there is no difficulty; but this has not happened of late. The supply here has been greater than the demand, with the result that the farmers have scarcely received living prices for their wheat. If the European output is much shorter than usual, as appears to be the case in these reports, there is a light bursting from the clouds that have hung over the farmers, and we may again see wheat selling for at least enough to pay the expense of producing it and a small profit besides.

Farm work has not been as prosperous recently as it used to be. This has not arisen altogether from accidental economical causes. The farmers themselves have now and then contributed to their own misfortunes. They should study the laws of supply and demand as carefully as the merchant. If one crop or one kind of stock ceases to pay another should be substituted. Too frequently they continue in the old ruts just because they are easier than to mark out and travel new roads. A farmer would indignantly repel a charge of ignorance or lack of progressive spirit who will persist year after year in pitching a crop that will not pay. Surely, there is food for reflection in this illogical course. But if Europe's necessity furnishes our opportunity, we doubt if the farmers will feel themselves called upon to lament the tribulations of their neighbors across the sea.—*Baltimore American.*

STATE AND PENINSULA.

Mr. Robert Downes was last week fatally burned at his home on Kent Island. It is supposed that while endeavoring to extinguish the light of a lamp it caught to his clothing.

A call has been issued for the Caroline county Democratic primaries on Saturday, August 30, and the county convention on September 2 to elect delegates to the Congressional district convention.

The contract for building a new Catholic church in Denton, on the site of the present building, was awarded to Contractor Carey, of Baltimore. It will be a wooden structure and will cost $2,500.

The canning factory of A. H. Bradley, near Riverton, Wicomico county, was burned a few days ago, with a large lot of new cans and a remnant of last year's stock. The loss will reach about $10,000.

H. D. Godwin, a merchant of Centreville, made an assignment on Monday, of all his property, embracing a farm of over 300 acres near Ingleside, in Queen Anne's county, three dwellings in that place, with the large stock of goods in store, and other personal property, to Messrs. P. B. Hopper and E. H. Brown, as trustees, who filed their bond in the sum of $25,000.

A company for the manufacture of ice has been organized in Easton, with a capital of $10,000.

The Singerly Pulp and Paper Works have been incorporated in Cecil county, with a capital stock of $500,000.

The first ripe Anne Arundel cantaleup seen this season was carried to Annapolis on Friday.

The Sixth Congressional District Democratic convention will be held at Hagerstown on Thursday, September 18.

This vicinity, says a Calvert county correspondent of the *Sun*, is suffering severely from a protracted drought of seven weeks. The last rain to wet the ground more than an inch fell on May 26. Pastures, which were exceptionally good at that time, have burned brown. Corn is now suffering, some of it burning at the top. Tobacco looks well, considering the season, but without a rain at an early date the yield will fall far short of what it would be. Wheat now being threshed is about half a crop. Oats are an entire failure, very few farmers harvesting any at all. Fruit is very scarce. There are no peaches; very few apples and pears.

BEYOND THE STATE.

The "Natural Bridge" property has been sold to a Massachusetts and Virginia syndicate for $300,000. It was purchased from H. C. Parsons and Hon. James G. Blaine, who have owned it for a number of years.

Mr. R. L. Lerch and Miss Susie Simmons, both of Washington, D.C., were married in John Brown's Fort, Harper's Ferry, last week by the Rev. J. L. Stevenson of the M. E. church. This was the first marriage that ever took place in the fort.

Rila Kittridge, the champion microscopic postal card writer of the world, has succeeded in writing the President's last message, consisting of 10,000 words, on a postal card.

In the past three years Pasteur treated 7,893 persons bitten by mad dogs, and only fifty-three died. The usual percentage of deaths is 15.90, so that Pasteur would seem to have saved 1,265 lives.

The Great Bear River Canal in Utah, for the construction of which $2,000,000 have been provided, is expected to be one of the most extensive irrigation works in America. To get the river along the side hill along Bear creek canon and out on to the plain near Plymouth will necessitate moving 220,000 cubic yards of solid rock.

Literary Notes.

Mrs. Elizabeth W. Champney, who is now abroad, will contribute to the next number of *Harper's Bazar* an article describing her experience of "Country Life in England." The same issue of the *Bazar* will contain the second instalment of papers on "Exercise for Women," by Emma Moffett Tyng, the subjects discussed being "Bicycles and Tricycles."

At the time of General Fremont's death he was engaged upon the manuscript of a paper for *The Century's* forthcoming series on the California Gold Hunters. It was to be entitled "Finding Paths to California," and was not only to deal with the several exploring expeditions, but to narrate the writer's intimate connection with the events which led to the conquest and occupation of the territory. The work will be promptly continued by Mrs. Fremont. A first draft of the article has been made, and the subject had been so recently and closely discussed by General and Mrs. Fremont that she will have no trouble in completing the manuscript, for which she had already written an introduction, as well as a supplement describing her life at Monterey in 1849. A fine portrait of General Fremont from a daguerreotype of '49 or '50 will appear in the September number of *The Century*, along with portraits of Commodores Sloat and Stockton, "Duke" Gwin, and Governor Burnett, in an article giving account of "How California Came into the Union."

EXCURSIONS TO HISTORIC BATTLEFIELDS.—A series of special excursions to the Battlefields of Cedar Creek, (Middletown,) Winchester and Harper's Ferry, under the auspices of the Grand Army of the Republic are announced for July 23, Aug. 20, Sept. 16, and October 16, 1890, affording a rare opportunity to visit the Historic Ground where the contending hosts struggled for victory.

Tickets for these excursions will be sold from all ticket stations on the Baltimore and Ohio R. R. east of the Ohio river at one fare for the round trip on July 22 and 23, Aug. 19 and 20, Sept. 15 and 16, 1890, valid for return journey ten days including day of sale.

For the accommodation of those desiring to visit the Battle fields of Antietam and Gettysburg, the Baltimore and Ohio R. R. Co., will place on sale excursion tickets at one fare for the round trip to these at Harper's Ferry and Weverton, to be sold July 23 to 31 inclusive, good to return until Aug. 1st inclusive. Aug 20 to 28 inclusive good to return until Aug. 29 inclusive. Sept. 16 to 24 inclusive good to return until Sept. 25 inclusive. Oct. 16 to 24 inclusive good to return until Oct. 25th inclusive, for rates and time of trains call on or address agents B. & O. R. R.

Counting the Ceusus Returns.

WASHINGTON, July 18.—The returns from the country districts are being rapidly received at the census office. The count, however, will be confined to the large cities until they are disposed of, when the country districts will be taken up. Thus far the count has exceeded 15,000,000, but as each schedule is verified by a second count the actual count exceeds 30,000,000. A night force of counters has been employed and will be continued until the count of the entire country has been completed and verified. From this time it is expected that the daily count will average about 2,000,000.

A MAN who has practiced medicine for 40 years, ought to know salt from sugar; read what he says:

TOLEDO, O., Jan. 10, 1887.

MESSRS. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience have never seen a preparation that I could prescribe with as much confidence and success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if they would take it according to directions.

Yours truly,
L. L. GORSUCH, M. D.
Office, 215 Summit St.

We will give $100 for any case of Catarrh that cannot be cured with Hall's Catarrh Cure Taken internally.

OFFICE OF THE

Local Board of Health.

July 13, 1890.

In accordance with the action of the State Board of Health, it is thought advisable to publish extracts from the Acts of 1890, in regard to deaths from contagious, epidemic or infectious diseases, viz:

SEC. 1. "Whenever any physician or person acting as a physician shall have cause to believe that any person whom he has attended during the last illness of such person outside of the city of Baltimore, had died of small-pox, cholera, yellow fever, typhoid or typhus fever, diphtheria, leprosy or any other disease of a contagious, infectious or epidemic character, the said physician or person acting as physician shall, over his own signature, immediately give notice thereof to the Secretary of the State Board of Health, which notice shall state the cause of death, the name, sex, age and color of deceased, and such other information in connection with the existence and spread of the disease as may be deemed important for the protection of the public health; and if no physician has been in attendence during the illness of such person, then it shall be the duty of the householder in whose house or upon whose premises the death occurred, to transmit to the Secretary of the State Board of Health the facts in accordance with the requirements of this section.

"SEC. 2. That whenever any hotel-keeper, keeper of a boarding-house, superintendent, manager or director of a private or public institution of any kind shall know or be informed by a physician, or shall have reason to believe that any guest, inmate or other person in hotel, boarding house, lodging house or institution over which he or she may have control or supervision, or on the premises thereof, is sick with or convalescing from small-pox, cholera, yellow fever, typhus or typhoid fever, scarlet fever, diphtheria, leprosy or any other contagious or infectious disease, the said owner, proprietor, manager or other person having charge shall immediately give notice thereof in writing to the *health officer* of the *city* or *town* in which the infected house or premises is located; said notice shall state name and place of residence of the person sick, the name of the disease, the name of the owner, proprietor or manager of the house, and location of said house; and it shall be the duty of the Local or State Health Officer, as the case may be, to take such steps, and do such things as may be necessary to render effective the provisions of the Act of 1882, chapter 155, entitled 'An act to provide against the spread of infectious diseases.'

"SEC. 3. When any person or persons who shall neglect or refuse to comply with the provisions of this Act he or they shall be deemed guilty of a misdemeanor, and shall, upon conviction thereof, in a court of competent jurisdiction, be *fined* not more than *fifty* dollars for *any such offence.*'

The Local Health Officer for Kent county will render any such assistance or advice as may be required under the above provisions. The physicians have generally been provided with blanks for such returns as named. If any have not received the same, if they will notify the undersigned he will see that they are supplied, keepers of boarding-houses, hotels, etc., will find it to their benefit to communicate with the Secretary of the Local Board of Health for information and assistance in such above mentioned cases.

WM. H. CACY,

Manufacturer of FERTILIZERS,

CHESTERTOWN, MARYLAND.

Standard, New Life, Reliance.

THE ABOVE BRANDS OF FERTILIZERS

Have now been used in this and neighboring counties for the past five years, and during that time have given general satisfaction. My facilities for manufacturing are now better than hitherto, and I guarantee to fill all orders promptly and in first-class drilling order.

If those farmers who have not yet tried any of our brands of Fertilizers, will enquire from some one who has used them, as to results obtained, I think that they will be induced to give them a trial.
