The Great Salisbury Fair.

The management of The Great Salisbury Fair, upon investigating the Greggs Act, finds that they are giving entire satisfaction in the West, where they are now showing, on account of a change made in the management since last year; this was a great show during 1913. The Fair management has arranged with Mirano Brothers, just imported from Germany, to take the place of Greggs Automobile Act. This is supposed to be the greatest sensational act of the world today, and is the highest priced act the Fair Associations can buy. The management is to be congratulated for this change.

The Bragaar Brothers, as well as the Webber Family, have just reported that thay are at this time playing at the New York Hippodrome, and will be at their post on the Fair Grounds for the first day of the Fair, August 18th. The Webber Family is the best acrobatic troupe that can be found today.

The past record of the Wicomico Fair Association proves that they wil have nothing other than the best attractions, and they are exerting every effort to make this Fair the greatest yet. They have already spent a large sum of money in improvements, including a large School Building for the benefit of all the schools in Wicomico County. Each school will compete with the exhibits made by their pupils, which is something new for this Peninsula. Another improvement is a large up-to-date Poultry Building, and they have already received a large number of entries in this division. We wish the Great Salisbury Fair success.

Hopes of the Powers From War

The ambitions of the European Powers in the present crisis are:

Austria—Annexation of Servia and union of all Southern Slavs under the Hapsburg crown; extension of Dual Monarchy to Ænean Sea.

Germany—Postponement of the "Slav peril" for a generation; in case of a general war, extensisn of German commercial interests with only Great Britian as a formibable rival.

Itlay—Support by Germany and Austria in her policy of African expansion.

Russia—Extension of empire to the Charpathians on the southwest, possibly the seizure of Posen and East and West Prussia, occupation of Constantiople; establishment of Russia as undisputed dominant power in Eastern Europe.

France—Removal of German menace; lessening of the terrible expense of unequal military competition with her neighbor; opportunity to develop her North Africa empire; recovery of lost provinces of Alsace and Loraine.

Great Britain—Maintenance of balance of power in Europe; maintenance of Britsh commercial and naval supremacy; preservation of her colonial possessions.

Selling Carloads of Ford Cars.

The sale of Ford automobiles continues with a consistency that is unsurpassed by any other car. Mrs. Jacob F. Thompson, the local agent, has sold eleven cars during the past few weeks, and has orders for many more. The reduction in the price of the Ford machine will probably result in a further increase in the sale of them. Read the large advertisement of the Ford machine in this issue. The following is a list of Ford cars that have been sold recently. Mr. Samuel Mann, Lynch; Mr. Fountain Crew, Betterton; Mr. John Brice, Betterton; Mr. Jarvis, Millington; Mr. W. R. Crow, Kennedyville; Mr. Elwood Morris, Worton; Mr. F. P. Medford, Blacks; Mr. E. C. Bowers, Lynch; Mr. R. Kennedy, Kennedyville; Mr. A. R. Chrisfield, Locust Grove; Mr. Hynson Beck.

The automobile firm of Graham Clements & Sutton, which handles only the first-class standard machines, received a new 1915 model Buick July 31 and had it on exhibition at the Fair grounds. It is a beauty, possessing all the up-to-date conveniences, and is a four-passenger car. They will receive four more this week.
