THE TRI-COUNTY LICENSE.

State's Attorney Hopper has written to Gen. Seth, Commander of the Fishery Force about tongers licenses in Chester and Wye rivers. As Kent and Talbot issue boat license under chapter 333, 1890, as required by Judge Stump's decision in the Willey case, and Queen Anne's a personal license under Chapter 602, 1890, as it is said Judge Robinson advised, deputy Commander Horney in Chester river and deputy Commander Bryan in Eastern Bay and Wye river find working on the same grounds some oysterman with Chapter 333 license and others with Chapter 602 license, which means that the Queen Anne's oystermen who are paying a license averaging about ten dollars to the boat find themselves working in company with Kent and Talbot oystermen whose license average about three dollars a boat. This is reasonably unsatisfactory to the Queen Anne's oysterman working in the waters of their own county in company with the cheaper licentiates who are residents of adjoining counties. But what can the Commander of the Fishery Force do? If he arrest all who are not licensed under Chapter 333, as Mr. Hopper, would very naturally ask, it would be all the Kent and Talbot oystermen; if all not licensed under Chapter 602, it would be all the Queen Anne's oystermen. His wisdom is apparent in doing as he has done,—advising his deputy Commanders to make no arrests when the oystermen have a license under either act. The court in bane, it must be remembered, have not yet viewed the Willey case. When that case was before Justice Stevens, at Oxford, when it came before the Circuit Court on appeal at the May term, 1891, and during the long time intervening until Judge Stump decided it, or apprised the Clerk of his court through the State's Attorney of his decision, about Sept. 1st., 1891, it was supposed to involve only the right of a dividing water oysterman of Dorchester county who had a boat license to oyster under the general law in Chapter 602, to work in the dividing waters of the Choptank lying in Talbot. It was never supposed that the question whether or not Chapter 602 repealed Chapter 333 was involved. It certainly was not necessarily a point in Willey's case. His point that the general law about dividing waters and boat license gave him the right to work on the Talbot side of the Choptank inasmuch as the local law requiring personal license in Kent, Queen Anns's and Talbot did not include Dorchester was sufficient Probably a boat license would have been sufficient for a Talbot oystermen who worked *exclusively* in the divided waters of the Choptank lying in Dorchester.

When the question of Chaptet 602 repealing Chapter 333 got into the Willey case we do not known, nor do we know how to find out.

We are informed that Judge Stump has written to Judge Robinson explaining that the opinion in his verdict in the Willey case (to be entered in November) was intended to apply only to the question of the Dorchester man's boat license being good in dividing waters under the general law. But here is what Judge Stump *said*:

"The act of 1890, Chapter, 602, repealed the Act of 1891, Chapter 333, so far as it relates to taking out a personal business license. The Clerk should issue the license required by Chapter 602," and the clerks of Talbot and Kent are doing it, while the clerk of Queen Anne's is not.

It is a pity this case was forgotten by the court at the July term. The delay in the decision has much to do with the present muddle and the future complications.

Our oystermen wanted this personal business license, and were satisfied with it generally knowing that what defects experience might show to be in it, could be remedied by the next legislature. It was so near the end of the last session when the oystermen asked for it that our representatives did not have time to frame a perfectly symmetrical act.

The only way they could get it at all was to put Talbot in the Kent and Queen Anne's bill then on its passage.

Why do they want it?

There are two principal reasons. One, because the increased revenue can be used and was used in Talbot in part to give additional and adequate police protection; another, because under the boat licence system any number of tramps who never become citizen could license any old boat they could get and steal oysters day and night. Personal license keeps out the tramps and thus gives additional dignity to the business.

Both Kent and Talbot Counties.—A party in Baltimore wrote to Commander Seth to know whether he will not construe the opinion of Judge Robinson, in the case decided by the Court of Appeals in relation to the closing of Tangier Sound as authorizing any citizen of the State to take oysters in said Sound. He replied, "Judge Robinson simply says that the waters of Tangier Sound belong to the State and what he intends to be understood as meaning is that the State at large shall legislate for Tangier Sound and not a particular county or district. The Legislature has said that only citizens of Somerset county shall take oysters in Tangier Sound within the limits of Somerset county, and this law is in force." Commander Seth is much pleased with the encouraging words he is constantly receiving from the oystermen in relation to his enforcement of the culling law, and says the only objection he has encountered is from Dorchester county. That the oysterman recognize the fact that the culling law is all that stands between them and the leasing of the beds and bars, and the public generally are restlessly awaiting the result of a test of this law. There are as many honest, conscientious men engaged in the oyster industry as any other business, and these men who obey the law from a sense of duty do not like to see the irresponsible people destroying their interests with impunity, they therefore ask a rigid enforcement of the law. If 5 per cent. are taken to-day and the same tomorrow and the days following, there will be but few small oysters by the first of January. He will keep them, if possible, until the Legislature meets, and then the responsibility will be on that body.—*Easton Ledger.*
