Instructions to Voters

The Primary Election will be held on Tuesday, Sept. 14th, at the polling places designated in the official notice published elsewhere in this issue. The polls will be open at 8 A. M. and close at 6 P. M., and the conduct of the election will be similar to that of the general election, except that at the primary election the ballot must be euclosed in an official envelope obtained from the judges and be sealed before it is deposited in the ba lot box; that a voter may prepare his ballot before entering the polling place, provided he uses an official sample ballot; and that the cross-marks on the ballot must be made with an ordinary black lead pencil. A cross-mark is to be made in the box to the right of the name of each person for whom the voter wishes to cast his vote.

The ballots are canvassed and counted as they were last year, and the same provisions apply to the envelope. A ballot may be prepared before entering the polling place, but upon a voter presenting himself to vote, it having been determined that he is qualified to vote, a blank official ballot shall be given him, together with the envelope. The voter then retires to one of the booths, taking with him the blank ballot, and shall there mark with a black pencil his ballot for voting, or use the ballot which he has already prepared. He then places the ballot in the envelope and seals same and hands it to one of the judges of the election, who, after detaching the coupon, deposits same in the ballot box. If the envelope is unsealed, it is the duty of the judge to send the voter bach to the booth to seal same, and should the voter mutilate his envelope he is entitled to another one just as he would be to another ballot in the general election.

Count of Ballot

If any envelope shall be found not of the character required for this primary, or if any mark or device be found on any envelope except the initials of the Judge as required, or if any mark or device be found on any ballot, or peculiar folding, by which, in the opinion of the majority of the judges, the same may be identified so as to indicate who has cast the same, the ballot so marked or the ballot contained in the envelope so marked, or folded, or improperly sub stituted, shall not be counted. When more than one ballot is found in one envelope, or a ballot is found in an envelope furnished for a different political party than that for which the ballot was provided, the same shall not be counted for any person unless a cross mark made by a black pencil appears after his name. Only ballots marked with a black pencil shall be counted. If any envelope is deposited in the box inadvertently without being properly sealed, and without being detected by the judge receiving the same, or shall become unsealed in the ballot box, it shall not be thrown out for that reason. If more names are marked for any office than there are persons to be voted for, such ballots shall not be counted for such candidates or delegates, or other persons to be voted for, as the case may be, but the whole ballot shall not for that reason be rejected for candidates for other offices or positions.

On the day of the primary election the polls shall be opened at 8 a. m. and close at 6 p. m.

The returns shall be made before 12 o'clock noon of the second day after the primary in the same manner and form as is provided for in general elections.

LEE THE BEST CHOICE.

Between Lee and Harrington there is, if nothing else, the choice between new blood and the State Democratic organization that is responsible for nine-tenths of the carelessness, extravagance and indifference from which the State has suffered in the past.

Mr. Harrington has never demonstrated Gubernatorial qualifications. But even had he done so, he is tied to and part of the old crowd. He is confessedly the old crowd's candidate.

When Woodrow Wilson came into the Presidency he told Senators who were after plums for their followers that they must apply to the heads of tne departments. He had to withdraw that order within a week, else his administration would have gone to pieces.

If that happened to a President elected over the heads of the politicians, what chance would Mr. Harrington have to work for the people after the politicians themselves had put him in office?

The nomination of Senator Lee must mean much more than a mere personal honor to him. It would convey a mandate from the party to the party managers to clean house. It would be a specific act of condemnation of the old extravagance, the old looting, the old misgovernment of the State for the politicians' benefit. The old crowd has again and again promised economy, been retained in power on the strength of promises, and then straightway forgotten them. Senator Lee is by no means a superman. But even if he were an entirely negative character, the choice still would lie with him, for he stands for the repudiation of the old system. The choice here is not wholly between two men; it is first and foremost one as to whether men like Smith, Gorman and their associates are entitled by their past performances to a new vote of confidence in them and their promises.—Baltimore City News.

NEWSPAPER COMMENTS ON LEE'S RECORD.

"In many respects, Senator Blair Lee, of Montgomery county, stands out as the biggest man of the Legislature. A man of absolute integrity and real devotion to the public interest, he, with a few devoted followers, held the balance of power in the Senate and he made excellen use of it. * * * Lee won all the time. It was his primary election law that finally got through, it was his State Roads proposition that was adopted, he forced the income tax resolution through the Senate. * * * Finally he unquestionably saved the Public Utilities Bill, in the early hours of last Sunday morning. * * *"—(From the Baltimore News, April 5, 1910.)

"Were it not for Blair Lee, the State of Maryland would have no primary law at all worthy of the name."—(From the Baltimore Sun of November 3, 1913)

"Throughout his whole political career, he has fought for good men and measures."—(From the Baltimore Sun of November 3, 1913.)

"He is the type of public man to whom the whole country is looking for, and getting purer and better government."—(From the Baltimore Sun of November 3, 1913)

"Publicity and efficiency are the keynotes of Senator Lee's progrrm, and no honest member of the Legislature should be afraid of either."—(From the Baltimore Sun of November 12, 1913.)

"Senator Lee has not the alignments that embarrass and entangle a man in politics. He can go ahead doing the things that need doing. His nomination will be accepted as a wish from the rank and file of the Democratic voters that they want their party to do the right thing.—(From editorial in News of August 11, 1915.)

Hicks' Forecast for September.

A regular storm period is central on the 2nd, beginning the last two days of August, and extending to September 5th. The moon is at last quarter, in apogee and at extreme north declination. The regular vulcan period is intensified by the mercury and venus disturbances, with earth's autumnal equinox advancing toward its center. After these early September storms do not be surprised if very cool nights with frosts northward, attend the rising barometer and northerly winds that are sure to follow.

The first reactionary storm period is central on the 7th, 8th and 9th. The venus period is central on the 7th, the moon is in conjunction with sun and earth, and on the celestial equator on the 9th, saturn and mars are in close conjunction on the 10th, and venus is at superior conjunction with earth and sun on the 12th. It must also be remembered that the ecrth is passing its annual crisis of electrical and magnetic disturbances, from about the 5th to 15th.

The second regular storm period is central on the 14th, extending from the 12th to 17th, inclusive. This period is near the center of earth's autumnal equinox, at the culminating stages of the venus equinox, with moon at first quarter on the 17th, in perigee at the center of the period on the 14th, and at extreme south declination on the 15th. Jupiter is in opposition with earth and sun on the 17th.

The third reactionary storm period is central on the 19th, 20th and 21st. The chances are very favorable for many intense disturbances on and touching Sunday, Monday and Tuesday, the 19th, 20th and 21st. In fact the astronomic outlook at this time suggests the probability of continued storm conditions over the 22nd, and into the storm period immediately succeeding. The moon being on the celestial equator on the 22nd, will greatly tend to prolong low barometer, high temperature, with vicious electrical and atmospheric storms.

The third regular storm period is central on the 25th, normally extending over 23rd to 28th, inclusive.

THE SUN SMOKED OUT.

The following letter is one of the many which the Baltimore Sun refused to publish because it favored the nomination of Senator Blair Lee. This letter was written by a prominent Baltimorian and sent by him to the Sun:

TO THE EDITOR OF THE BALTIMORE SUN:

As a Democratic voter and tax-payer, and subscriber of your paper, I feel that I have the privilege of expressing my views in reference to the coming primaries, for after all we are "the boat" which carries the politicians across "the river." This being a fact, we, as the real judge as to who shall have passage across, why should we not pick the desirable from the undesirable travelers?

In a series of articles "The Sun" has very beautifully shown up the graft, waste, and the general mismanagement of the affairs of this State under the present leadership.

Will the tax-payers and well-thinking citizens still continue to give this band of political grafters free and unrestricted passage across "the river"? Is "The Sun" in favor of it? If not, why doesn't it have the moral courage to come out like the Baltimore News, namely, for Blair Lee and clean government?

The Sun knows that Lee is a higher type of man "politically" than Senator Smith. If it were not for Lee the voters of this State would not even have the right as to who should have passage in "the boat." Senator Smith has shown by his record that he has never intended for the "people" to have "a boat."

It has been argued, and I am frank to admit that I believe myself, that Lee and Preston wish to get control of the State. What if they do? Haven't they as much right to seek control as Senator Smith has to maintain it?

Preston, as the Sun was compelled to admit, made a first-rate mayor, and it honestly supported him for re-election. Lee by his record has shown that he is the "people's advocate." In as much as it has been shown that the management of the State is being conducted in a manner that is rotten from top to bottom, then why not, from a reasonable standpoint, granting that the State leadership is the real issue involved, substitute some one who has actually accomplished something for the people, for some one who has done nothing for nearly a quarter of a century but impose a burden upon them.

In as much as Harrington has carried out no reform in regard to this waste, useless offices, etc., as State Comptroller, will he if elected Governor, and as Senator Smith's personal representative, ever do so?

Eighty per cent. of the people of this State desire good and honest government; I am with the eighty per cent.

Will the good thinking voters and tax-payers continue to give free passage across "the river"? Or are they going to elect a new "captain" that will make every applicant for passage stand inspection before he enters "the boat"?

In conclusion, I wish to state my only reason in supporting Blair Lee for Governor is that I feel assured in my mind, that the "ringing out of the old" and the ringing in "of the new" will be a long step toward eliminating the political waste and graft of this State.
