ALL young men who will become of age before the election on November 2, should get registered on Tuesday next. Don't wait until the last day for registration. You may forget it.

IT IS estimated that not less than 200 Republicans voted in the Democratic primaries, most of them friends of Mr. John David Urie. A negro by the name of Green is reported to have voted in Rock Hall.

MR. W. B. COPPER, candidate for State Comptroller on the Lee ticket, attended the State Convention in Baltimore on Thursday and met many of his friends who expressed regret at his defeat in the recent primaries.

LAST week we gave the majority of Mr. George Sutton, candidate for Register of Wills over Mr. Samuel G. Caldwell as 37. It should have been 27. Mr. Caldwell made a phenomenal run in view of the tremendous fight made against him.

L. ATWOOD BENNETT, Lee candidate for the State Senate in Wicomico county, was returned elected over Mr. Jos. Bailey, the Price candidate, by a majority of 12 votes by the official count. Mr. Bailey had been returned elected by the unofficial vote by a majority of 6 votes.

THE Republican State Convention was held in Baltimore yesterday. The nomination of Messrs. Weller for Governor, Duer for Comptroller, and Doub for Attorney-General, was ratified and a platform of principles was adopted, which we shall discuss more fully next week.

THE Anti-Organization faction polled a larger vote in the last primaries than they did in the primaries of 1913, while the Organization majority over the Anti candidates ranged as high as 165. This is proof positive that a large number of Republicans voted in the primaries against the Antis.

IT WILL not be good politics for the Democratic party that Roads Chairman Weller should be elected Governor of the State. Every Democrat, who desires to see President Wilson renominated and elected, should vote for Mr. Harrington and the entire Democratic ticket. Let's be loyal to our party regardless of factional differences.

WHEN the September term of the Circuit Court for Cecil county convened in Ekton on Monday Chief Judge Albert Constable, in delivering his charge to the grand jury, suggested that that body recommend to the members of the next General Assembly of Maryland from that county that they have a law passed prohibiting negro camp-meetings in that county. As a result of such meetings there will be three murder cases to try at this term of court.

YOU hear a great many rumors about what is going to be done about cutting the Democratic ticket in November. Such talk is all bosh, and you may as well throw your knives away, for in our judgment there will be no local Republican ticket to vote for in the election. The "bluff" has been called, and the Republican leader is going to make a supreme effort to put his State ticket over a winner in the election, and let his local ticket shift for itself, or else draw the ticket entirely.

MR. JOHN D. URIE has withdrawn from the Republican ticket and has left his associates high and dry to shift for themselves. Mr. Urie's withdrawal calls the bluff, and he has made martyrs of his Republican associates in order to play true to his Organization Democratic friends. A most interesting situation is developing in Kent county politics, both as regards Democrats and Republicans who are such from principle. We understand that the other Republican candidates will remain in the fight and do all in their power to maintain the honor and dignity of the Republican party.

THE Democratic State Convention was held in Baltimore on Thursday and a large number of Democrats were present from all parts of the State. The convention ratified the vote of the people at the recent primaries by nominating Emerson C. Harrington for Governor, Albert Ritchie for Attorney-General, and Hugh A. McMullen for State Comptroller. Murray Vandiver was re-elected Chairman of the State Central Committee, and a strong platform was adopted, pledging the party to economy and efficiency and to important reforms in State government. Senator Lee attended the convention and he and his friends exerted their influence in behalf of the reform planks in the platform. We shall give the platform in full next week.

IT IS time now for every Democrat to be turning his attention to the renomination of President Wilson, and the Democratic factions in the county and State must be getting together, in order that the Democratic ticket may be elected in November. A triumphant victory of the Democrats in November will do much to strengthen the Wilson sentiment throughout the country. President Wilson is the strongest Democrat in the country to-day, and unless there is discord in the Democratic party there is no Republican in the country who can defeat the President. Maryland's election in November will have great influence on the Presidential election to both parties, and it behooves every Democrat, regardless of the result of the recent primaries, to stand by the party and vote the Democratic ticket in order to assist the friends of President Wilson to carry the State for him in the presidential primaries, and in the election in November.

KELLY.

The Baltimore papers are handing it to Kelly, the Democratic leader, good and hard these days for his disgraceful treatment of his best friends, John J. Mahon and Mayor Preston. The man deserves the condemnation of every decent and respectable man in the State. Pretending to be a friend of Senator Lee and the city organization which has given Kelly his political power, he took Senator Lee's money and used it against him in the recent primaries, and if the State of Maryland goes Republican in the coming November election it will be because of the traitorous conduct of Kelly and those who are responsible for his treacherous action, and furthermore, if President Wilson loses the State of Maryland in the next presidential election it will be traceable to this same Kelly. People are not going to stand for such loathsome methods of politics, and while the real friends of President Wilson are endeavoring to put the Democratic party in a healthy condition and render its electoral vote certain in the next presidential campaign, "The" Kelly and others like him are doing everything in their power to disgust the electorate with such leadership and thus drive all decent and self-respecting people away from the party. We sincerely trust that Mayor Preston and Mr. Mahon, who has proclaimed his allegiance with the mayor, will kick Kelly out of the Democratic party, and that they will summarily crush every vestige of influence that Kelly has in the city government. The only way to save the Democratic party from scorn and defeat is to kill Kelly politically, and the surest way to kill him politically is to destroy his political "pull," and Mayor Preston has the power with which to crush him. Let the Mayor show the people of the State that he means to use this power for the good of the Democratic party, and let President Wilson remain true to those who have fought his battle for good government in this State and lost in a noble effort, and he will be sure of the electoral vote of the State in the presidential election, and be it remembered that John Walter Smith is not the boss of the State yet. The power is in the hands of the people, and the final analysis of a difficult situation is always with the people. This State must be carried for the Democratic party in November, and the surest way for the State to land in the Democratic column is for Mayor Preston to clean house in Baltimore city and thus pave the way for a united party in the election.

Senator Lee For Ticket.

As was expected by all of his friends throughout the State, Senator Lee, who was defeated by Mr. Harrington for Governor in the recent primaries, made a statement on Tuesday, in which he stated that he will support the entire State and local Democratic tickets, and made a number of suggestions as to important planks in the party platform.

Senator Lee's statement is as follows:

"I will support the Democratic State and local tickets, as nominated, and urge all my friends to do likewise, and thus uphold the rule of the majority, which is the essential feature of the Primary Election law.

"It is vital to the success of the party this fall to secure the support of the independent Democrats in the State, and for that purpose the platform should contain, among others, clear planks in favor of:

"1. Home rule for Baltimore city and the counties alike.

"2. Extension of the limits of the city to include the entire harbor and the thickly settled suburbs, which are in reality an overflow of the city.

"3. A plank providing for doing away with unnecessary offices and useless expenses in the State government.

"4. A systematic method of making appropriarions by the budget system.

"5. Placing the appointing power now vested in the Board of Public Works in the Governor alone.

"6. To maintain unimpaired the present Primary Election law, with two amendments:

"(a) Restore the registration day before the primary election.

"(b) Do away with the method of voting in the counties known as the envelope system, or outside ballot, and substitute the regular primary election ballot now in use in Baltimore city.

ENVELOPE SYSTEM A DISAPPOINTMENT.

"The benefits sought for the party by the envelope system of voting, or outside ballot, have been more than overcome by the evils that have developed from its use. Mr. Harrington pledged himself in the primary campaign to do away with it. I urge my friends in the convention to unite with his friends and make this a part of the platform.

"There may be several other features as to the platform which I may take the liberty of suggesting through my friends in the convention."

PEOPLE'S COLUMN.

Support The Ticket.

Chestertown, Sept. 16, 1915.

TO THE EDITORS OF THE CHESTERTOWN TRANSCRIPT,
GENTLEMEN:

The warm, hot primary through which we have just passed will not change the attitude of any straight forward Democrat towards the successful ticket. It is not even necessary for me to see my friends and urge upon them the necessity of their active assistance and cordial good work in aiding in the election of the Democratic ticket this fall. This particularly applies to each and every local nominee. All warmth and bitterness should be thrown aside and we should present a solid front to the common enemy. Let us, therefore, act as men and help to work from now on for a Democratic victory in November next, in the State and county. We would have demanded this of the other side and they have the right to demand at our hands the full honest support of their ticket.

This letter is meant for each member of the Anti-Organization and to each friend I have in the county.

Yours very respectfully,
HOPE H. BARROLL.

Immigration and the War.

It is too soon to even guess what will be the results of the war with reference to immigration—whether they will lessen or increase the problems that the tremendous influx of foreigners has created. For thy present, however, the influx has been reduced to a figure that is less than in many years, while the returning tide of foreigners has grown to such an extent that the net increase of foreign population for the whole United States for the fiscal year ending June 30th is a scant 50,000.

The figures for the year, as officially given, shows that only 434,000 immigrants entered the United States during that time, as against 1,400,000 in each of the two previous years. The number of aliens who departed was 348,000, or 88 per cent of the immigration, as against 42 and 45 per cent in the two previous years. The most notable decrease in immigration has been among Italians, only 65,000 of whom came to the United States in the last year, as against 335,000 in 1914.

The figures on the departure of aliens during the European war indicate that the ties said to bind immigrants to their native land are not so strong as might be imagined. Although 120,000 British returned in the year ending on June 30, 1914, only 76,000 have returned during the war. Only among Italians has there been an increase in departures since the war, and that has been only about 1 per cent. The return of Scandinavians to their native land also has fallen off from 32,000 to 12,000, indicating the lack of desire by that wholesome people even to confront the possibility of war.

The falling off in immigration has caused a serious shortage of labor in the United States, and fortunately has enabled many unskilled laborers to gain wages nearer to decent living scale. Foreign nations also have been coming into our market for skilled labor, especially for work on munitions and armaments of war, and they have succeeded in taking abroad many skilled workmen, especially laborers in machinery.
