Tasty Baked Eggs For Tempting Breakfast Treats

The homemaker who has overlooked baked eggs for the family breakfast has unknowingly been depriving her family of a very tempting breakfast treat. Like so many other things baked eggs also can appear in variety:

BAKED EGGS

(1) Use individual baking dishes and melt one teaspoon of butter in each dish. Break the eggs into the dishes, allowing one or two eggs to a dish. Sprinkle with salt and pepper, and place a tiny piece of butter on each. Bake in a slow oven (250-350 F.) until the eggs are set but not hard. Serve in the baking dishes.

(2) Shirred—Use small ramekins or egg-shirrers. Grease each dish, put in a layer of buttered crumbs, break an egg over the crumbs, season with salt and pepper and cover with buttered crumbs. Bake in a slow oven (250-350 F.) until eggs are set and crumbs brown. Serve in ramekins.

(3) In Bacon Rings—Curl long slices of bacon around the inside of muffin cups or small ramekins. Break an egg inside each bacon-ring, season with salt and pepper and bake (350 F.) until set, but not hard. Remove carefully from the dish so that the egg will remain fastened to the bacon. Arrange on a platter and garnish with parsley.

(4) In Tomato Sauce—Grease, small ramekins and place two tablespoons thick tomato sauce in each. Slip a poached egg into each dish, cover with gated cheese, season with salt and pepper and bake in a very hot oven (400-500 F.) two or three minutes, to brown the cheese.

Tungsten Tools

Tools made from tungsten steel were found to last many times as long as the best tools made previously, and the efficiency of the worker was increased from three to five times.

Vitamin A

Vitamin A is not lost in cooking, so both cooked carrots and raw will give the family an essential vitamin. The mature deep-yellow carrot has the most concentrated vitamin A.

NAGGING BACKACHE
May Warn of Disordered Kidney Action Don't Neglect It!

Modern life with its ceaseless hurry and worry, irregular habits, improper eating and drinking, exposure, contagion *whatnot*, keeps doctors busy, hospitals crowded. The after effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.

After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance sometimes are burning, scanty or too frequent urination.

In such cases it is better to rely on a medicine that has won world-wide approval than on something less favorably known. Use *Doan's Pills*. They have been winning new friends for more than forty years. Be sure to get *Doan's*. Sold at all drug stores.

THE REASON DOAN'S ARE FAMOUS
All over the country grateful people tell others: "*Doan's have helped me; I recommend them to you.*" That is why we say, *Ask your neighbor!*
