NAGGING BACKACHE
May Warn of Disordered Kidney Action. Don't Neglect It!

Modern life with its ceaseless hurry and worry, irregular habits, improper eating and drinking, exposure, contagion *whatever*, keeps doctors busy, hospitals crowded. The after effects are disturbing to the kidneys and oftentimes people suffer without knowing that disordered kidney action may cause the trouble.

After colds, fever and similar ills there is an increase of body impurities the kidneys must filter from the blood. If the kidneys are overtaxed and fail to remove excess acid and other harmful waste, there is poisoning of the whole system.

Symptoms of disturbed kidney function may be nagging backache, persistent headache, dizziness, getting up nights, swelling, puffiness under the eyes—a feeling of nervous anxiety and loss of strength and energy. Other signs of kidney or bladder disturbance sometimes are burning, scanty or too frequent urination.

In such cases it is better to rely on a medicine that has won world-wide approval than on something less favorably known. Use *Doan's Pills*. They have been winning new friends for more than forty years. Be sure to get *Doan's*. Sold at all drug stores.

THE REASON DOAN'S ARE FAMOUS
All over the country grateful people tell others: "*Doan's have helped me; I recommend them to you.*" That is why we say, *Ask your neighbor!*
