PRESIDENT HARRISON has handed in his letter of acceptance.

THE tax rate for Queen Anne's county has been put at 89 cents on the $100, four cents less than last year.

SEVERAL interesting communications are forced out of this issue for want of space.

THE FACT that Commander Seth, of the oyster navy, is not in entire harmony with the æsthetic triumvirate which controlls political affairs, it is stated, has placed his political head in danger of the knife.

IT has been decided that the next Congressional Convention will meet at Easton, on Wednesday, September 28. Each county committee will fix the time for the prim aries.

MAJ. W. E. STEWART, States attorney for Talbot county, has raised the point that district school trustees cannot act in conformity to the law unless the oath of office is regularly administed. This opinion is endorsed by Attorney General Poe.

IS CHESTERTOWN exercising due sanitary precautions to ward off the inroads of the cholera scourge should it make an appearance? This is an extremely pertinent question. Let our authorities consider it. The sanitary condition of Chestertown is certainly *not first-class.*

EX-GOVERNOR E. E. JACKSON is being strongly urged by a select coterie of personal friends, for the appointment to Congress to succeed Judge Page. It would be a public calamity to withdraw Mr. Jackson from a political seclusion which he has so acceptably filled.

QNEEN ANNE'S enters the Congressional fight, it is stated, with four candidates—John B. Brown, P. B. Hopper, E. H. Brown and A. R. Weedon. This, we surmise, will prove an awkward political problem for our sister county to solve. This looks somewhat like "a house divided against itself.

AS THE Australian ballot system is to be used this fall for the first time in Kent, it is important that no unnecessary postponement be indulged in, in instructing the people in the use of the new ballots. The man who encourages the idea that the present campaign is a mere walk-over for Democracy, should be held criminally responsible to the party. Action, prompt and unceasing action, is the secret of success.

COL. THOMAS S. HODSON, chairman of the recent Republican Convention of the First District, has appointed the following committee to notify Hon. George M. Russum of his nomination as the party candidate for Congress: Philip L. Goldsborough, of Dorchester county; R. E. Erdman, of Queen Anne's; Alfred L. Tharp, Talbot; Charles O. Melvin, Worcester; Wm. H. Knowles, of Wicomico.

IT IS ANNOUNCED that Col. W. Scott Roberts, of the Centreville *Record*, is in the field for the appointment of Insurance Commissioners. Queen Anne's will urge in his behalf, that being the banner Democratic county of the State, and there being no more staunch Democrat or more thoroughly competent gentleman in the State for the place, the claims of her candidate should command the careful consideration of the appointive power. Then, too, Queen Anne's has not been politically, nearly so well provided for as some of her sisters.

THE LATEST calculations state that the Electoral Colleges of this year will have 444 votes, of which 223 will be necessary for an election. Six new States, casting 20 electoral votes, have been admitted into the Union since 1888 by the Republicans. If the Republicans were to carry the same States this year as they did in 1888, they would have 46 majority, with the aid of all the silver States. The Democratic calculations which propose to get along with New York in the Harrison column have to set down several Western Republican States as doubtful. It is certain that the Democrats will get four or five electoral votes in Michigan. In order to succeed without New York the Republicans must carry every doubtful State and all the Pacific Coast and Northwestern States.

THE following complimentary notice of Captain William D. Burchinal, in a recent issue of the *Baltimore Evening News*, called forth the "eliminating" article from Col. Vannort, which we printed last week:

"Capt. Wm. D. Burchinal, Surveyor of the Port of Baltimore, is one of the most popular men in the State, irrespective of party. He served his party several terms in the State Senate with credit to himself and honor to old Kent. In addition to being a man whose popularity is not confined to his own party, Capt. Burchinal is one of the shrewdest politicians in the State. He went to Ocean City to the recent Republican Convention, and it was largely owing to his able management that Mr. Russum was nominated without friction. His alliance with Charles T. Westcott, of Chestertown, has given him control of Kent county, and has finally and completely eliminated Col. Wm. J. Vannort, late Republican candidate for Governor from the politics of the State."

THE PEOPLE'S CANDIDATES!

DEMOCRATS, RALLY!

A Grand Ratification Meeting

AND BANNER RAISING!

Will be Held by the Democracy of Kent County, at Chestertown,

On Tuesday, September 13.

THE HANDSOME CLEVELAND AND STEVENSON BANNER WILL BE RAISED AT 2.30 O'CLOCK, FOLLOWED AT 8 O'CLOCK IN THE EVENING BY SPEECHES BY PROMINENT ORATORS, AT STAM'S HALL.

HON. PHILIP D. LAIRD,

OF MONTGOMERY COUNTY,

THE STAUNCH CLEVELAND DEMOCRAT, WILL CERTAINLY BE PRESENT, AND OTHER SPEAKERS ARE EXPECTED. LET THIS BE AN OCCASION WORTHY OF THE CAUSE WHICH IT IS TO ADVANCE.

THE appointment of Congressman Page to the judgeship, should he accept, will necessitate primaries throughout the first Congressional district, to elect delegates to a general convention to select his successor in Congress. It has been suggested that the Ocean City convention be reassembled, but since that convention adjourned *sine die* any such proceeding would be evidently irregular. Another convention will be necessary.

Since writing the above, it has been learned that Mr. Page accepted the judgeship yesterday His resignation as Congressman will be sent to the Governor today.

IT IS NOW CLAIMED by members of the bar whose opinions are entirely worthy of respect and consideration, that an election held under the new election law, in the nine counties which were originally excluded from the operation of the Australian system, would not be valid, from the fact that it is necessary for the Senate to confirm the appointments of election supervisors for these counties. Any irregularity will be taken advantage of by the Republicans to throw out the Maryland vote, and this matter should be thoroughly investigated before it is too late. This should not be a campaign of doubtful experiments.

THE PEOPLE of Centreville, indeed of the county also, now have an opportunity to locate in the suburbs of this town a large manufacturing plant, which will give constant employment to 250 or 300 persons. E. M. Franklin, Esq., president of the Franklin Brass Manufacturing Co., has written to a friend, stating that the facilities where the plant is now located are totally inadequate to properly conduct the large business of the company. About two years ago, when Virginia was booming, the company selected a site at Buchanan, Va., and transferred the plant there from Brooklyn, N. Y. The place is too small to furnish facilities, and, as the bottom has dropped from the boom, it is not likely to grow larger for years.—*Centreville Record.* Another chance for Chestertown.

THE APPOINTMENT of Congressman Henry Page to the chief judgeship of the First Judicial Circuit, to fill the vacancy occasioned by the death of Judge Irving, was one of the most highly satisfactory official acts of Governor Brown's administration. Mr. Page is recognized as one of the most prominent members of the bar of the State, and is in every respect eminently qualified to be the succesor of the eminent jurist whose official robe has fallen upon his shoulders. At the time of his appointment, Mr. Page was in Baltimore waiting to see Gov. Brown, for the purpose of urging the appointment of his law partner, Joshua W. Miles. It is generally expected that the place will be accepted. Having enjoyed Congressional honors, the strong probability of an election to a forty-five-hundred-dollar a-year judgeship will not be surrendered, it is thought, for another year in Congress at five thousand dollars.

Foreign and Domestic News.

Oakland has had two heavy frosts.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally, and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free. ☞ Sold by druggists, price 75c. per bottle.

KENT'S CONGRESSIONAL CANDIDATE.

WILL Kent have a Congressional candidate? is one of the interesting questions which political aspirants throughout the district are propounding to themselves and their political advisers. The answer depends entirely upon circumstances. Should it be found (as is possible), that the appointment of Mr. Page was made, not so much to confer a deserved compliment upon that gentleman as a jurist, as to create a vacancy for some disgruntled gentleman in the district, whose elevation to Mr. Page's place in Congress, has already been arranged and decided upon, Kent *will not have a candidate.* But if, on the other hand, the appointment was clear of any desire *to play good politics*, and the field is left open for all *bona fide* candidates, then Kent county will present and urge the claims of Harrison W. Vickers, Esq. Mr. Vicker's friends in the county and elsewhere, will with pleasure place the claims of their candidate before the convention, urging his eminent fitness for the position, his record as an unswerving Democrat and the political claims of his county in his behalf. In the event of an open field, Kent will certainly have a candidate, and that candidate will be H. W. Vickes, Esq. The Baltimore *Sun* of yesterday speaks of Mr. Vickers as an "outspoken candidate" for congressional honors.

JOURNALISTIC.

The Baltimore *Ledger*, edited by James R. Brewer, made its first appearance upon the stage of journalistic life on Saturday last. That the new paper starts under most auspicious circumstances is certain, for with Editor Brewer in charge its campaign for popular favor must be eminently successful. An entertaining writer, a man of natural literary ability and having had wide experience in newspaper work, the time must be very short before the *Ledger* has strongly entrenched itself in public favor. The general make-up of the paper is exceptionally good, and we extend our compliments and a hearty welcome to the newcomer to our exchange table.

One of the brighest and most heartily welcomed of the guests who have visited us for the first time during the present season, is the *Sentinel*, edited at Elkton, by that veteran in the field of newspaper work, and that concise and vigorous writer, Geo. W. Cruickshank. Maryland scarcely has a more thoroughly equipped gentleman for the editorial chair of a sound, fearless journal, than will be found in the editor of the *Sentinel*. Cecil, in sustaining in a most substantial manner the new enterprise which now bids for public encouragement, will honor herself in showing a ready recognition of the paper which now enters the campaign asking only what its merit may honorably entitle it to expect. No man in Maryland journalism will receive a warmer welcome from his associates of the pen than will Editor Cruikshank upon his reappearance in the ranks. Success to the enterprise of the *Sentinel*.

The *Baltimorean*, the paper which has from first to last stood as the recognized leader of literary journals in the State, with success assured and merit established, continues its weekly visits to its appreciative constituents. Its twenty-first year has opened with all of the promise which merit and acknowledged excellence must command. In moral tone there is no paper in the State its superior, while its literary merit is unquestioned. Vigorous in its advocacy of right, and fearless in its vindication of a purer social and political life; the *Baltimorean* owes its success more to its own merits, than to any combination of favorable circumstances independent of itself.

STATE AND PENINSULA.

Delmar is to be promptly and rapidly rebuilt.

Washington county has a school board dead-lock.

Prospectors have discovered iron ore in Frederick county.

The first frost of the season is reported from Sykesville, Carroll county.

Prospecting for gold is being extensively carried on in Montgomery county.

Four vessels will be hired by the State fishery force for the oyster season to aid the regular vessels in watching forbidden grounds.

According to the police registration Baltimore's voting population is, white, 95,648; colored, 16,479—total, 112,127.

Grapes have been shipped the past week or ten days at the rate of from one to two cars a day from both Clayton and Brenford.

An organized gang of thieves are operating in Talbot county. On Sunday night the village of Royal Oak was twice raided, stores robbed and not a chicken left.

[SPECIAL TO THE TRANSCRIPT.]

THE CONGRESSIONAL SITUATION

BALTIMORE, MD., Sept. 7, 2.53 P. M., 1892.

The State Centaal Committee has ordered a new convention to meet at Easton September 28 to elect a successor to Judge Page who resigned his seat in Congress this morning. Governor Jackson says he is not a candidate and does not wish the nomination. Col. John Walter Smith says he is not a candidate. Bratton reported to be a candidate for the unexpired term only; that he does not want a full term.

There is at present a disposition below the Choptank river, to nominate a candidate from above. Vickers' probable candidacy is well received in the district. It is said that his is the only name mentioned entirely free at home and in the district, from complications of one sort and another. The utmost good feeling prevails, and a bitter contest is not looked for by the knowing ones.

TO THE BOARD OF TRADE.

Suggestions From a Member of the Board.

To the Honorable President and Members of the Board of Trade—Gentlemen: Nothing of value has yet materialized to the benefit of the town through your efforts. Some *hope* of a *glass factory*, but that is certainly in embryo. If unsuccessful in drawing manufacturers from foreign places, why not try to cultivate and encourage and foster home enterprise. You certainly are aware that the majority of those outside of the Board of Trade in this town, not only do not encourage home enterprise, but do all that lies in their power by tale bearing and detraction to make the path of enterprise full of anything else than roses. If the Board of Trade could achieve nothing more that offset these traitors, they would be worthy of renown. Before Chestertown can join the procession that is marching forward in progress, some of the *ideas* accepted by its people must be changed. It must get more under the control of its honorable business men and less under the control of its Shylocks. Every town will have its Shylocks, but every town should honor its *Antonios* and *Portias*. The lawyers will always have enough business to do in Chestertown, but the *business men* should not overlook the fact that the success of a business man or establishment, does not contribute as much to the interests of the lawyers as his failure.

I make no attack upon the lawyers. The profession is an honorable one, but a wise man keeps his body out of the hands of a physician as long as possible. Of necessity there must be physicians as well as lawyers. The Board of Trade, if properly named, is supposed to look after the commercial mercantile and manufacturing interests of the town.

In manufacturing, three elements must be blended: 1st, *capital;* 2d, brains; 3d, labor. We thus bring through brains the combination of capital and labor—the rich and the poor. The rich can earn a dividend on his capital; the man of brains can direct and plan and manage, and the laborer is given a chance to honestly earn his daily bread.

We have all three of these elements idle in the town, and yet we have not the wisdom to combine them. One by one our young, active, brainy men leave us and go to one of the larger cities to add to their aggregate of wisdom and importance.

We invite foreign manufactories to locate here, when we have the elements latent within us. Now, the business men must look at one other thing, our banks. If a man can get stock in a first, second or third National Bank, he is happy to see the very state of ideas as they now exist in the mind of capitalists and others—to wit, a dreadful fear of taking any stock in home enterprises. While he has this fear, he leaves his money on deposit at bank.

The bank calmly loans it out at six per cent. interest. If one-half of the idle deposits (idle to the depositor) were loaned out to enterprising farmers and manufacturers, the banks would not be so popular; they would not pay such dividends, but the poor would have more employment and the town would grow faster. In the current literature of the daily newspaper, we hear much of the rich getting richer and the poor poorer. Of all the institutions that contribute to this fact, there is none other so potent as the banks.

Now, gentlemen of the Board of Trade, we make no warfare on the banks. They will always exist and have a legitimate function. But if we are to produce a town full of life and industry and plenty, we will learn to combine capital of our own in enterprises taking capital. Generally, any manufacturing plant needs more capital than any one interested can command of himself. Could he command sufficient capital he would probably prefer to become a banker.

Now, gentlemen of the Board of Trade, supposing you have each and all acknowledged the desirability of forming a stock concern to manufacture peach baskets for next year's crop, or glass bottles for the wine presses of 1893, you start your solicitor out with a legal-cap of paper, and the first man he calls on is a bank president (because he had not read this paper), after half an hour's useless talk the solicitor retires disheartened. The bank president does not care to have $50,000 withdrawn from the "deposits" at his bank. The solicitor should be instructed to call on every-day men of industry of all occupations for subscriptions of $100 to $1000.

Gentlemen, do you want to enla rge and promote the manufacturing interests of the town? Pray for wisdom enough to know those worthy and able to trust to conduct the projected enterprises. This town has all the elements of success within itself. It should remember that the ninth commandment is still in the Decalogue, and that Solomon's prayer should be often read. Respectfully,

A MEMBER.
