MR. ALFRED I. DU PONT has purchased the controlling interest in the Wilmington Morning News.

IN another column will be found a timely letter from Hope H. Barroll, Esq., in reference to the nomination of a Democratic ticket this coming fall. The Republicans have been at work for several weeks looking for and considering candidates for their ticket. Unless the Democrats get together and select a ticket composed of good men from both factions of the party we may look for the same result as has happened the past several years. A similar proposition as that now suggested by Mr. Barroll was submitted to the Democartic leaders two years ago, but it was not accepted and we all well know the result—a Republican victory. Let's get all the elements of the Democratic party together and win our full ticket in the fall.

BALTIMORE'S MAYORALTY FIGHT

The mayoralty fight in Baltimore has assumed definite form. Mayor Preston and his associates, J. Barry Mahool, candidate for president of the Second Branch of the City Council, and James A. Thrift, candidate for City Comptroller, filed their certificates this week. Their opponents are George Weems Williams, Howard Bryant and Joseph M. Smith. The former are backed by the city organization and the latter by part of the state leaders and the Kelley wing of the city. Both sides claim a walk-over. In our judgment if efficiency and the delivering of the goods has any virtue in politics, and we believe it has, Mayor Preston and his running mates have a very decided advantage, for the mayor has certainly delivered the goods to Baltimore City and given it an efficient administration, and made of it a comparatively new and up-to-date city.

PEOPLE'S COLUMN

To The Democrats Of Kent County

Doubtless every Democrat has given some serious thought to the composition and election of the Democratic Ticket next fall. There is only one way in which an entire Democratic ticket can be elected and that is by both sides agreeing upon a ticket, AS DEMOCRATS and NOT AS FACTIONS. The local ticket this fall is one of vital importance. Why not let the factions agree upon a divided ticket composed of part Organization and part Anti-Organization in this spirit. Drop the "Anti" and the "Organization" and let the ticket be a solid DEMOCRATIC TICKET, with candidates whom no leaders on either side can find just grounds for repudiation. If this can be done Kent County will be swept by a united Democracy with an old-time majority.

I write this so that it may be considered by all Democrats in a spirit of conciliation and a general expression of views be interchanged. If this suggestion be impracticable let some one suggest a better.

Very respectfully,
HOPE H. BARROLL.

NEW PARCELS POST IS POPULAR

New Route Through Kent County Has Promise Of Being Here To Stay

The new parcels post route through Kent county, from Salisbury to Wilmington, is becoming popular and has promise of being here to stay. While only two trucks are now on the route, as fast as the business increases there will be additional trucks added each way. Between 400 and 500 trucks have been secured from the army and they are waiting for the trade to develop, when they will be called into service.

Packages will now be carried as large as the present parcel post law will permit, but it is almost certain that after July 1 the farmer will be enabled to ship much larger bundles; even cans of milk can be shipped this way. A bill is now being put through Congress permitting this increase in the size of bundles.

One of the many advantages to be had by the farmer is that the truck can be stopped on the road and a crate of eggs, berries, or large quantities of butter, oysters, crabs or other perishable goods handed to the chauffer, who will weigh the parcel and accept payment for same. This will save the trip to the postoffice, and at the same time the packages will be in much better condition when they reach their destination than is the case at present, due to less handling.

These are only a few of the many advantages offered the farmer, and this service promises to become very popular with the people of this Peninsula.

Not only does this route run to Wilmington, but other trucks leave that city for Philadelphia and New York and goods shipped from here for those points will be transferred from one truck to another.

This new route is operated absolutely under the supervision of the Postoffice Department at Washington, and shipments will receive the same protection as they now receive from the railroads.

The trucks have been running on time, almost to the minute, since the route began, and they usually carry a big load from the Eastern Shore to northern points.

The Quaker Neck Road

A meeting of the Executive Committee which was elected to finance the community quota of the cost of building a State-aided road through Quaker Neck was held in T. W. Eliason's office on Saturday afternoon, Feb. 8th.

A large majority of the committee expressed a willingness to obligate themselves to finance the building of such road from the city limits of Chestertown, Md., to Bond Chapel M. E. Church, a distance of 4 6-10 miles. But in view of the high cost of road construction, together with the fact that the community could be depended upon for not more than $8,000, the committee was not willing to finance more than the 4 6-10 miles above referred to.

This, however, was not satisfactory to the minority membership of the committee, which minority refused to co-operate at all unless their plans prevailed. Therefore, the entire project was abandoned and on motion the committee voted to disband.

PROOF of Avery Tractor success is shown by the way Avery Tractor sales grow in the same community. When one farmer gets an Avery Tractor, his neighbors watch its work closely. It is not long before another Avery arrives and then another, for his neighbors see that Avery Tractors stand up under the work.

Likewise, when an Avery gets into a family, other members of the same family soon become Avery owners. Brothers, cousins, fathers and sons, uncles, and nephews are buying Averys. We have many records of where two, three and four brothers in the same family have bought Avery Tractors. The fact that neighbors, friends and relatives buy Avery Tractors after they have watched carefully the work of the first Avery Tractor in their community or family, is the very best proof that Avery Tractors are a success.

Power for Every Farm Need

You can get an Avery Tractor to exactly fit your size farm. Avery Tractors are built in six sizes—a size for every size farm. With an Avery Motor Cultivator you can also cultivate your row crops with motor power. You can also get a size Avery "Grain-Saving" Separator and Avery Plow for any size Avery Tractor. For any kind of field work, belt work or road work, there is a successful and profitable Avery Motor Power Machine.

Built by Motor Farming Machinery Specialists

The five sizes of Avery Tractors, from 8-16 to 40-80 H.P., are all of the same design. They have low speed motors, renewable inner cylinder walls, adjustable crankshaft boxes, gasifiers that turn kerosene into gas and burn it all, and many other original and exclusive features.

Avery Tractors are built entirely in our own big factories and every part of an Avery Tractor is built especially for tractor work and only for the Avery Tractor. Avery Company are *builders*—not assemblers.
