MILWAUKEE had a twenty-five-million-dollar fire last week.

SENATOR CARLISLE, of Kentucky, has lost his vote through a failure to register.

WE give the Australian ballot in this issue, hoping that each and every Democrat of the county may study it and be enabled thereby to register his choice without difficulty or mistake.

MACHINERY HALL of the World's Fair buildings, caught fire on Friday night and burned for about an hour, but was not seriously damaged because of the amount of iron used in the structure.

SENATOR GORMAN says that Cleveland was the strongest man the Chicago convention could have chosen. The senior Senator was a little late in discovering this great truth, but, "Eureka, he has found it," and not too late.

POSTMASTER-GENERAL WANAMAKER addressed a Republican meeting at Georgetown, Delaware, on Tuesday. Mr. Wanamaker is a first-class Sunday school talker, and is not like some of the politico-pious fraternity, as dumb as an oysters on the hustings.

THE REPUBLICAN corruption fund of five millions of dollars will be distributed as follows: $2,000,000 to be put in New York, $1,000,000 to be put in Indiana and $2,000,000 to be put in New Jersey, Connecticut, Delaware and other states where it may be needed.

REPUBLICAN leaders, it is expected, will question Mr. Cleveland's right to vote, and it is possible that our next President may be arrested if he attempts to deposit his ballot. Mr. Cleveland has recently moved, and it is claimed has lost his old residence without having as yet gained a right to vote in the district where he now resides.

THERE are 10,000 loaded grain cars in Chicago, and there is absolutely no place to unload them. Every elevator is crammed to the eaves, few of the shippers are inclined to pay the rail rate and a majority do not care to take it at any price. Wheat at St. Louis last week sold: No.2 red cash on 'change at 66½ cents per bushel, while the favorite speculative option, December, dropped to 70¾ cents. This breaks all previous records, but it is not believed to be the bottom should the enormous receipts at that end and primary markets continue. Protect manufectures and let the farmer shift for himself is the milk in the cocoanut of the McKinley bill.

ANOTHER issue of great moment in the pending contest is the Force bill, the magnitude of which cannot be overrated. It may mean the control of the election of Representatives in Congress by the bayonet. The Republican party, by its acts in the Fifty-First Congress, and by its platform in its late National Convention, stands pledged to the passage of this bill. That it will pass it if it has the power, no sane man can doubt. To all our people who desire the peace and prosperity of our common country, this question is all important.—A. E. STEVENSON.

STRONGLY substantiated rumor states that a move will be made, by petitioning the Governor, to have the death sentence of several of the boys convicted of the murder of Dr. Hill, commuted. It is claimed that one of the boys is under fourteen years of age, and if this be the case, then executive clemency may with propriety be invoked, but if the movement is the result of a sickly public sentiment, then we consider it inconsistent and unwise, and in the event of petitions being started, would suggest that they be first presented in the vicinity of the commission of the crime.

BEFORE ANOTHER ISSUE of the TRANSCRIPT is sent out to its subscribers, the great national battle of political giants will have been fought and the victory won, and now on the eve of the great contest the Democracy of Kent sends best wishes for success to the Democracy of each county of the State and of the nation. That vital issues are held in the balance, none can doubt, and that a desperate struggle for national supremacy is pending is even more patent. The Democracy of Kent is an integral part of that the greatest political organization of the world to-day, the undaunted Democracy, which, after Tuesday next, we predict will be a Triumphant Democracy throughout the Union. Remembering a Democratic past, with its magnificent achievements, and its dark background of Republican mismanagement, let each and every Democrat of the county be at his post. The opposition is thoroughly drilled, and in a quiet way a most desperate effort is being made to wrest the county from its political moorings. Don't think that our Republican friends are dead, they are not even sleeping, and it behooves every Democratic voter to be at his post and vote the straight ticket for his party's supremacy.

The Washington College team won the toss and selected the east goal, thus gaining the advantage of a strong wind blowing toward the enemy's territory. The game commenced with the wedge, M. A. C., being in possession of the ball. A fair gain of five yards was made, but was beautifully tackled by Meriken; the visitors fumbled the ball which was captured by Brice and by a magnificent run he made the first touch-down in two minutes; goal kicked by Polk. Ball taken to centre of field and M. A. C., made three successful rushes carrying the ball to W. C's 25-yard line, but failed at last and the ball went to the home team. Brice, who was always the right man in the right place, by a splendid run carried the coveted sphere nearly back to the centre of the field. Stewart, who was also equal to any emergency, bucked the centre with no gain and the irrepressible Brice ran the gauntlet and took the ball well into M. A. C.'s territory, when by magnificent interference, Brice circled the end and made a second touch-down, Polk successfully kicking goal. The ball was then brought to the centre; M. A. C. started with the V, but the weighty McKenney broke through and prevented any gain whatever, and after two more rushes with no gain, the object of contention went to the home team. The ball was put in play, but a foul by the visitors gave W. C. five yards. Massey, who was always where the enemy least wanted or expected to find him, then took the ball, and by beautiful interference by end rushes, Parker, Brice and Stewart, the ball was taken within ten yards of M. A. C's goal. Brice by a long and beautiful run, circled the right end and Stewart went through the centre for the third touch-down; goal kicked by Polk. The ball then went to centre, but the M. A. C. men were again unable to advance it, and by beautiful runs by Massey and Stewart, the ball was landed near the M. A. C. goal, when by the exceptional interference of Polk, and the magnificent tackle of Meriken, McKenney was enabled to score the fourth touch-down; failure at goal. The ball was started, but the visitors made no gain, and just as Brice had placed the ball at the enemy's twenty five-yard line, time was called; the first half standing, W.C., 22; M. A. C., 0.

After a rest of ten minutes, play was resumed, W. C. starting the ball with a V; Stewart took the ball, and with beautiful rushing by Centre Rush Gould and Guards McKenney and Butler, a gain of eight yards was scored. Massey then made a spirited dash of 20 yards; Brice rounded the right end and placed the ball within five yards of the enemy's line, and Stewart rushed it over for the fifth touch down; Polk kicking goal. Ball taken to centre. M. A. C. starts with a kick; ball caught by Massey near W. C.'s goal, and carried out for a gain of 20 yards. By good rushing by Brice, Stewart and Massey, ball carried to M.A.C.'s twenty-five-yard line, then passed to Polk, who, by masterly warding off and a magnificent run, carried it through the goal posts, from which goal was kicked. Ball again carried to centre and kicked off, but was caught by Burris, who made a gain of 10 yards. By the good running of Brice and Stewart, the ball again carried well into the visitors' territory; McKenney then bucked the line for several short gains, and scored a touch-down; failed at kick-out, and ball went to centre. The strangers still pursuing their tactics of the second half, kicked the ball off, but it was secured by Brice, who after a run of thirty-five yards, was viciously tackled by Strickler, who was injured, and replaced by Rollison. Game was in a few minutes called, the score standing Washington College, 38; Maryland Agricultural College, 0; referee, E. J. Clarke; umpire, Bannon.

The home team throughout the game, showed decided superiority in the running of its backs, and the splendid interference of the entire team. The contest was spirited and interesting throughout.

COMMENTS.

Butler played his first game, and gives promise of being a valuable acquisition to the team; his work was eminently satisfactory.

Gould played a beautiful game in the second half, but labored under some disadvantages during the first half.

Hanna played a fine game and held his man at every move.

Parker and Burris both played good games.

The exceptionally fine work of Brice, Stewart, Massey, McKenney, Polk and Meriken needs no further comment.

The visitors were a gentlemanly, elegant set of fellows, and though defeated, acquitted themselves like men in each and every respect. Professors Spencer and Strickler are gentlemen whom it will always be a pleasure to welcome with their team.

Beware of Ointments for Catarrh that Contain Mercury,

as mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces, such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is ten fold to the good you can possibly derive from them. OFFICE OF THE

Local Board of Health.

October 24th, 1892.

Within the past few weeks several cases of small pox have appered in Baltimore city.

The proximity of our section to that city, and the painful experience through which we passed when last the disease visited us, make it necessary to be vigilant and careful. To that end we quote sections 11 and 12 of article 25, Revised Code, 1878, etc.:

Section 11. It shall be the duty of every parent and guardian to have his or her child vaccinated within twelve months from birth if it shall be in proper condition, or as soon thereafter as practicable; and if such person or guardian shall have any other person under his or her control or care, not DULY vaccinated, he or she shall cause such person or persons to be vaccinated.

Section 12. No teacher in any school shall receive into such school any person as a scholar until such person shall produce the certificate of some regular practicing physician, that such applicant for admission to the school has been DULY vaccinated. Any teacher so offending, shall, on conviction thereof forfeit and pay a fine of ten dollars for each offence, and no public school trustee or commissioners shall grant a permit to any child to enter any public school without such a certificate under the same penalty.

It has been brought to the notice of the Secretary of this board that in many instances this law has been and is being disregarded, especially in some of the colored schools

It is hoped that this notice may be the means of calling the atentition of teachers and trustees to such cases.

The Chestertown Branch

OF THE BALTIMORE

Building and Loan Association.

This branch of the association, though only established a short while ago, has made wonderful progress. It offers good inducements for investments, and its reliability cannot be questioned, as it is composed of some of our best citizens and business men. The Mercantile and Financial Times, of New York city, a paper devoted to the interest of money institutions, in an editorial dated June 8, 1892, strongly recommends this institution as one of the strongest and best managed in the country. Parties having small amounts to invest monthly, can do no better than subscribe to this stock. If you are dissatisfied you can have your money refunded at any time, together with six per cent. interest, by giving the secretary thirty days notice.

H. W. VICKERS, President; H. L. BOYD, Secretary;
LEWIN W. WICKES, Treasurer.

BOARD OF DIRECTORS:

R. D. HYNSON, R. F. PARKS,
