The Transcript.

PUBLISHED EVERY THURSDAY.

THURSDAY, JANUARY 26, 1893.

R. HARRISON COLLINS. C. COX HOPPER

COLLINS & HOPPER,

EDITORS AND PUBLISHERS.

JOHN S. WIRT is already put down as his own successor to the State Senate from Cecil county.

BOTH the Senate and the House very properly adjourned out of respect to ex-President Hayes, on the day of his burial, Friday.

SENATOR J. G. CARLISLE has resigned his position in the Senate of the United States, and it is believed that the fact of his resignation confirms the belief that he will preside as Secretary of the Treasury in Mr. Cleveland's Cabinet.

THE Baltimore *News* states that the board of county commissioners of Kent county signed "officially" a petition asking the pardon of ex-State Treasurer Stevenson Archer. Such is not the case, the members signed the petition individually but not "officially."

GOVERNOR BROWN has evidently read that clause in the Constitution requiring an examination into the condition of the State treasury, and an expert accountant has just completed an examication of the State's finances, at his request. The Lumber-King Governor, failed, and the State now shoulders a heavy deficit, and the present Governor has yards of petitions for the pardon of a defaulting treasurer.

BISHOP PHILLIPS BROOKS, the eloquent preacher, died unexpectedly at his home, Boston, Mass., at 6.30 o'clock on Monday morning, of heart failure, produced by a fit of coughing. He was born in Boston in 1835 and was in 1891, elected bishop to succeed Bishop Paddock. The Protestant Episcopal Church has undoubtedly lost one of its most brilliant and profound representatives in America, and a man whose powers for good were trancendent and limitless.

THE Baltimore *Evening News* has formally announced that "Col. W. Scott Roberts, of the Centreville *Record*, Dr. R. M. Price and John F. Godwin are ready to go to the State Senate to succeed Congressman John B. Brown. Col. Roberts, it is said, will be the one most acceptable to the managers, and will probably have the support of Mr. Brown." It is rumored that the estrangement for a time existing between the two gentlemen has been amicably adjusted. Lemuel Dunbracco, the present affable and efficient incumbent of the clerk's office, and A. R. Weedon, Esq., are reported as in the field as Clerk Dunbracco's successor.

IT IS EXPECTED that Governor Brown's assessment convention will be called together in Baltimore about the first of February. There will be not fewer than two delegates from each county, which number when added to the representatives from organizations in the city, will make about seventy-five members. In addition the Governor proposes to name twenty-five more delegates at large. This list will include many leading lawyers of the counties and the city. The delegates so far selected, it is stated, have been named without any knowledge on the part of the Governor as to their views on the question of taxation, and also without knowledge on his part as to whether or not they will consent to serve as delegates to the convention.

A NEW ROAD SYSTEM.

The county commissioners at their session on Tuesday, discussed at some length a matter of far more than ordinary importance to the tax-payers of Kent county. The enormous expense attending the keeping of the public roads in repair and the only partial success of the present system of putting out the roads to supervisors, induced the board of commissioners to investigate the matter, and it is now believed that a more economical and satisfactory system can and will be determined upon. At present a limited portion of road is given out to each supervisor, who is allowed a stipulated amount *per diem* for the work of a team or man, the work to be completed before June 20. This way, as stated above, has been found expensive and unsatisfactory, and it is now proposed to advertise for proposals to keep the roads in repair. As soon as the weather will permit the commissioners will examine the roads of the county and determine exactly what work may or may not be needed to put the roads in repair and keep them so during the year 1893. This work will be made known to the bidders and the contract will be awarded to the lowest responsible bidder. The work to be put out by districts, smaller portions, or the entire county will be given to one contractor if the bidder is thoroughly reliable and shows himself equal to the proper fulfillment of the requirements. This system has been tried with marked success in Queen Anne's, the largest award of contract there being however, one entire district to one man. The decision of the board has not been officially given in the matter, though it is known that they are most favorably impressed with the system and the change will in all probability be made. Kent county has 525 miles of road, and at present 116 road supervisors, and her roads and bridges were last year kept in repair at an expense of $26,025.34.

STATE AND PENINSULA.

Mr. S. K. Longrel, living near Ridgeley, Caroline county, about ten days ago lost a wife and three children in two days, the wife of an attack of pneumonia and the children of measles. All were buried at one time and in one grave.

Harry E. Pierson, employed in the Singerly pulp mill, near Elkton, by being caught in a belt, was hurled to death last week.

Four children and numberless dogs, a horse and a cow were bitten by rabid dogs in Baltimore county last week.

The farmers of Wicomico county are agitating the taxation of dogs. They claim that fine flocks of sheep are of more financial benefit to a county than no sheep and numbers of worthless dogs. Wool or dogs is the question.

W. S. Richardson, is building a large oyster house on the ice, on his oyster beds in Pocomoke sound. Some planters are cutting the ice and hauling the oysters to the shore.

Buzzards are reported as being ravenously hungry in Somerset county, and warm themselves on the chimneys of houses.

A buzzard last week attacked a live cat and bore it off, when a fearful battle ensued, the cat coming off victor.

THE PEOPLE OF KENT.

There has been much harsh and undeserved criticism of the people of Kent county for the part they took as spectators at the execution of Dr. Hill's murderers.

It is true that the demonstrations before the scaffold were deplorable, and on the part of some of the spectators brutal—but they were participated in by but few of the people of Kent and those few were in no sense representative citizens.

The simple facts in the case are that a few drunken loafers created a disgraceful disturbance around the gallows. The sympathy of the people was not with them; indeed, the citizens of Kent especially regret the occurence, since it has cast an undeservad reflection upon the whole community.

There is no finer county in the State than Kent, and no better class of people anywhere than its people. They are handicapped by a large negro element, ignorant, degraded and brutal, and only those who have lived under these conditions can appreciate their trials. They are determined to maintain white supremacy, but they deprecate the use of force and disapprove entirely of the riotous course pursued by the spectators of the recent execution.

It is grossly unfair to the rank and file of the people of Kent to confound them with the drunken brutes who disgraced themselves on that occasion. There are such people, unfortunately, in every community, but all who are familiar with Kent county must agree that there are as few there as in any part of Maryland. Those who were responsible for the disturbance cannot be too strongly condemned, but to hold the county accountable for the brutality of a few drunken loafers is unfairly to malign it.—*Baltimore Evening News.*

ARE PEACHES HURT?

The Concensus of Opinion is—No.

As a matter of necessity, no question at any time comes more vitally near to the financial prosperity of the Kent county farmer, and, indeed, *every* citizen of the county, than the safety of the great peach interests which extend throughout the length and breath of our fertile acres. Our fortunes, fortunately or unfortunately, are locked to a great extent within the myriads of delicate buds, which cluster on the limbs of our several millions of peach trees. That the intense cold of the recent protracted spell endangered these interests the most sanguine will not attempt to disprove, and it has been our effort, not at this time to give a long array of names, but simply to give the opinions of a few representative peach men as sufficient to throw light upon the question at its present point of development.

Mr. James S. Harris, of the first district, says: Some few of the buds are undoubtedly hurt, but of course we always have many buds to spare, and the crop in my opinion is safe to this point. Pears are of course safe, for unlike the peach, the pear does not form until the spring.

Mr. John S. Groves, of Quaker Neck, says: My faith is unshaken in a full crop of peaches so far. After the warm suns of Monday and Tuesday, an accurate idea of the injury can be formed. I have examined my buds, as also has Mr. Wilkins, and we were well satisfied with the result. A large number of buds were put in water and thawed out, and were nearly every one good. I have some fears for my Paca's Island fruit, as it has been much colder there than in Kent.

Mr. Dan Cochran, of the first district: I have examined a number of buds of a large number of varieties, and the prospect is for a full crop. Of course some buds are dead, but we have nothing to fear—the outlook is entirely satisfactory. At this point Mr. William Cacy, of the first district, came up and announced that he had made a thorough investigation of his buds and fully four-fifths are dead. The crop must be a failure, and without further damage we will not have one-fourth of a crop. Mr. Cochran backed his opinon by a wager of a new hat, which was accepted by Mr. Cacy, and thus the matter stands. Mr. Cochran, of course, has all future damage to the crop against him, but will hazzard the chances.

Mr. John Brice, an unquestioned authority, of Chestertown, was enthusiastic in declaring the crop all right. As I have all along contended, he said, the wood cured well last fall, the trees shed their leaves early, the weather was dry and the buds never went into winter quarters in better condition, so you may mark my word for it, that the crop is safe.

Mr. Thomas J. Shalleross: The buds have everything in their favor. The absence of a crop last year, the dry season and early shedding of the leaves put the buds and wood in excellent condition to withstand severe weather, and I find no signs of serious damage.

Samuel G. McCollister, owning large orchards on South East Creek, in Queen Anne's county, states that while some buds are injured, there are more to spare, and then plenty of buds for a full crop. I have examined the buds irrespective of varieties carefully, and feel satisfied that no serious damage has as yet resulted from the cold weather.

John F. Godwin, another large peach-grower of Queen Anne's, said: A number of my neighbors, expert peach men, have made a careful examination of their orchards, and pronounce the result as entirely satisfactory. The fog and heavy frost of Tuesday morning was trying on peach buds, but they are healthy and in a position to withstand severe tests.

John Bell brought us yesterday a large number of buds embracing ten varieties, and a careful examination disclosed the fact that about one-tenth of the buds were killed. The wood was in excellent condition, and Mr. Bell expressed himself as sure of a full crop of fruit, judging from present prospects.

LAUREL, Del., Jan. 19.—Last summer's drought appears to have been the salvation of the Delaware peach crop. Colonel E. L. Martin, president of the Delaware Fruit Exchange, says that for this cause the trees had so matured their new wood that even the sub-zero weather of this winter had not damaged them. Other peach growers agree with him.

THERE is more Catarrh in this section of the country than all other diseases put together and until the last few years was supposed to be incurable. For a great many years doctors pronounced it a local disease, and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requries constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address,

F. J. Cheney & Co., Toledo, O.

Sold by Druggists, 75c.

COMPTROLLER'S REPORT.

Kent's Part in the State Finances for the Year 1892.

Received into the Treasury, from all sources, during the fiscal year ended the 30th day of September, 1892, the sum of $3,006,551.18. Balance in the Treasury at the close of the previous fiscal year was $541,303.30, making the total amount in the Treasury during the fiscal year $3,547,-881.48.

Amount of receipts in the Treasury for 1892 is greater than for the fiscal year 1891 by $178,982.89.

The amount of disbursements during the fiscal year amounted in the aggregate to $3,065,833.02, being greater than the disbursements of the previous year by $112,749.09, and there remained in the Treasury at the close of the fiscal year the sum of $482,048.46.

The probable receipts into the Treasury during the current fiscal year are $2,451,-491.90, which if realized and added to the balance in the Treasury on the 30th day of September last, would make the total amount in the Treasury for the fiscal year 1893 applicable to ordinary purposes, the sum of $2,933,540.36.

The estimated disbursements during the same period are $2,295,792.30.

The receipts on account of the oyster fund during the fiscal year were $46,652.83, less than the previous fiscal year by $5,607.50. This difference is found mainly in the receipts from dredging licenses.

The disbursements were $79,665.11. This sum is in excess of the disbursements of the previous fiscal year by $6,019.30, which is more than accounted for in the considerable repairs that were needed and made on the steamer McLane and several of the sailing vessels; as well as the sum of $2500.00 paid on account of building three new schooners for the force, as directed to be built by an Act of Assembly at the last session. The balance to the credit of the oyster fund as of September 30th, 1892, was $46,708.48. For a number of years there has been a gradual decrease in the balance to the credit of this fund, and recent legislation has not tended to increase it, but it is gratifying to know that the force was never better equipped than at the present time.

The total indebtedness of the State was at the close of the fiscal year 1892, $8,684,-986.24, a decrease of $2,036,656.28 from that of the previous year.

The assessment of the real and personal property in the several counties and city of Baltimore for the fiscal year 1892, aggregates $515,137,528.00, being greater than that of 1891 by $5,134,451.00.

A comparison of the assessable basis for the past four years shows a very gratifying increase, to wit:

1889	$477,398,380.00
1890	482,184,824.00
1891	510,003,077.00
1892	515,137,528 00

This increase is due to the efforts of the tax authorities in some parts of the State to assess annually the natural increment of personal property.

The levy for State taxes for 1892 on the real and personal property of the State at 17¾ cents on each one hundred dollars, amounted to $914,368.98.

The levy for the year ending 30th September, 1892, amounted in the aggregate to $540,894.32.

The Receipts for the same period, amounted to $551,402.43, being less by $24,948.21 than of the previous year.

The disbursements of the School Tax for the fiscal year amounted to $560,512.86, being less by $46,692.37 than for the year 1891.

From dredgers licenses $44,744.73; cigarette licenses $12,092.46; high licence, Baltimore, $507,086.87; sureties, Stevenson Archer, $37,202.28; public schools, from collectors, $474,024.06. Washington College, Millington and Shrewsbury Academies received $5,675.00; Church Hill and Centreville Academies and academic fund received $1200.00. There were paid out for the oyster police force, for salaries $48,507.52.

Oyster Fund for Rations, $3,504.00; Oyster Fund for Supplies, $6,438.55; Oyster Fund for Repairs, $10,398.01; Oyster Fund for Fuel, $2,585.69; Oyster Fund for Incidental Expenses, $4,063.40; Oyster Fund for Expenses of Headquarters at Annapolis, $1,059.78; Oyster Fund for Ammunition and Arms, $525.75; Oyster Fund for Licenses Refunded, $82.41; Oyster Fund for Building Schooners, $2,500.00.

There was paid out of the free school and sinking funds, Kent county $1600.65 Stocks held for the use of the school fund of Kent county; Easton National Bank, of Easton, $3000; Mechanics' Bank of Maryland, $370: Commercial and Farmers' National Bank $1500. Assessed value of property for State levy in 1892, for Kent for public schools, $7,783,728; amount of levy for 1892 at 17¾ cents on each $100, for Kent county $13,816.11; levy on account of public school tax Kent county, $81,72.90; receipts during fiscal year $7,946.24; disbursements $12,101.93. Received of Sam'l Beck, clerk for Kent county from traders licenses $220.40; tax on civil commissions $193.80; fines and forfeitures $19.00. Samuel G. Fisher, clerk for Kent county, from traders license $2,276.68; hawkers and peddlers' license $490.84; exhibition licenses $247; tax on civil commissions $32.30.

T. Romie Strong, register of wills, paid into the treasury tax on commissions to executors and administrators, $983.77. Willard Melvin, register of wills, tax on commissions to executors and administrators, $195.13; James T. Dixon, register of wills, tax on commissions to executors and administrators, $81.45.

Balances, exclusive of interest, due by Collectors of State Taxes, as of September 30th, 1892, from 1871 to 1891: George S. Biddle late, 1885, $36.46; James T. Lamb, late, 1886, $212.56; G. O. Roeder, late, 1889, $52.43; James W. Ivens, late, 1889, $31.27; total, $3 2.73.

ASSOCIATE JUSTICE L. Q. C. LAMAR, died suddenly at the home of W. H. Virgin, in Vineville, a suburb of Macon, Georgia, at 8.50 o'clock, on Monday morning, of heart trouble. Mr. Lamar was Secretary of the Interior in President Cleveland's Cabinet and was born in the year 1825. President Harrison can send the nomination of a successor to Justice Lamar, to the Senate, but the Democratic members may be able to postpone a confirmation of his nominee.

FOR SALE.

15 *TONS GOOD MIXED HAY*, nicely cured and under cover.

Albert Godwin, Plaintiff,

vs.

Ellen Spry, Samuel M. Ford, Eliza J. Ford, George W. Spry, Charles H. B. Spry, Walter M. Spry, James A. Spry, Walter M. Spry, James A. Spry, Vermadilla S. Massey, Robert B. M. Massey, Lena Ireland, Jonathan J. Hurlock, Araminta Hurlock, George A. Ireland, Mary Ireland, Thomas G. Jarman, Elizabeth Jarman, Lillie Wiggins, Charles Wiggins, William Jarman, Samuel Boyd, Martha Boyd, Hannah Gooding, Perry Ruth, Sarah Ruth, Peter Brinsfield, Mattie Brinsfield, G. W. S. Medders, Andrew Medders, John Medders, Charles T. Westcott, trustee of C. Wright Spry.

In the Circuit Court for Kent County in Equity, No. 1,019.

THE object of this bill is to obtain a decree appointing a trustee to collect certain annual rent charges due the estate of Martha Jane Walmsley, formerly Martha Jane Mann, due her under deed from Caleb W. Spry to Thomas J. Mann and Martha Jane Mann, his wife, and to distribute the same to the heirs at law of the said Martha Jane Mann, deceased.

The bill states that heretofore Martha J. Walmsley, late of Kent county, deceased, formerly Martha J. Mann, was entitled to a certain annuity or rent charge out of a certain farm situated at or near Spry's gate, in Kent county, Maryland, as will appear by a certain deed filed in this cause, marked Exhibit No. 1, which deed was made to Thomas J. Mann and Martha J. Mann, who, after the death of Thomas J. Mann, intermarried with a certain J. B. Walmsley, who is now dead.

The bill further states that the said Martha Jane Walmsley, formerly Martha Jane Mann, was empowered by the before-mentioned deed, to dispose of the aforesaid annuity or rent charges by her last will and testament or appointment executed in the presence of two or three witnesses, but failed to do so, as will be seen by a copy of the last will and testament of the said Martha J. Walmsley, filed in this cause and marked plaintiff's Exhibit No. 2.

The bill further states that the said Martha J. Walmsley left the following heirs at law, namely, a sister, S. Ellen Spry, one of these defendants, another sister, Sarah Welch, who has since died, leaving an only child, Martha Godwin, formerly Martha Welch, who intermarried with Thomas Godwin, both of whom died, leaving two children, Wm. E. Godwin, who is now dead, and Albert Godwin, the complainant in this cause.

The said Martha J. Walmsley also left a brother, Wm. T. Spry, who has since died, leaving the following heirs at law, namely:

Eliza J. Spry, who intermarried with Sam'l M. Ford, George W. Spry, Charles H. B. Spry, Walter M. Spry, James A. Spry, Vermadilla S. Spry, who intermarried with Robert B. M. Massey, Araminta Spry, who intermarried with Jonathan J. Hurlock, Mary Spry, who intermarried with George A. Ireland, and Susan Spry, who intermarried with Joseph P. Ireland, both of whom are now dead, leaving a daughter, Lena Ireland, Elizabeth Spry, who intermarried with Thomas G. Jarman, and died, leaving the following children: Elizabeth Jarman, Lillie Jarman, who intermarried with Charles Wiggins and William Jarman.

And the said Martha J. Walmsley had also another sister, namely, Araminta Medders, wife of George Medders, both of whom are dead, leaving the following children and heirs at law; namely, Martha Medders, who intermarried with Samuel Boyd, who resides in the State of Delaware: Hannah Medders, who intermarried with Eugene Gooding, and lives in the city of Baltimore: Sarah Ruth, who intermarried with Perry Ruth, who also lives in the city of Baltimore: Mattie Medders, who intermarried with Peter Brinsfield, and resides in Queen Anne's county, C. W. S. Medders, of Baltimore city, Andrew Medders, of Queen Anne's county, and John Medders, all of whom are heirs at law of the said Martha J. Walmsley.

The bill further states, that the said Caleb W. Spry has departed this life, leaving a last will and testament, under which the aforesaid lands passed to his son, Caleb W. Spry, Jr., subject to the before mentioned rent charge of $150.00 per annum, as will be seen by a copy of the said will filed in this cause and marked plaintiff Exhibit No. 3. and that the said Caleb W. Spry, Jr., in his life time executed a deed of trust unto Charles T. Westcott, as will appear by copy of said deed filed, marked Exhibit No. 4, and afterward departed this life intestate.

The bill further states, that the complainant is advised, and verily believes, that for many years the rents from this farm have been paid unto the aforesaid trustee, but the trustee being uncertain of his duty in the premises has never accounted for the said rents to the heirs at law of the said Martha J. Walmsley.

And the bill prays, that an account may be taken under the direction of the court of what money may be now due and owing to the heirs at law of the said Martha J. Walmsley in respect to the said annuity or rent charge, and that the land may be sold if necessary to pay such arrears of rent due to said heirs at law, and that a good and sufficient title may be given to the purchaser or purchasers of any land so sold, and that the complainant may have such other and furtner relief as his case may require.

It is thereupon this 28th day of December, 1892, ordered that the complainant, Albert Godwin, by causing a copy of this order to be inserted in some newspaper published in Kent county, Maryland, once in each of four successive weeks before the 28th day of January next, give notice to Walter M. Spry, Lillie Wiggins, Charles Wiggins, Samuel Boyd and Martha Boyd and all other resident or non-resident defendants, of the object and substance of this bill, and warning them to appear in this court in person or by solicitor, on or before the 15th day of February next, to show cause, if any they have, why a decree ought not to pass as prayed.
