LOCAL MATTERS.

Weather Forecast.

Hicks, the weather prophet, makes the following forecast of the weather for the coming week: From 14 to 19 regular storm period covered by a mercury equinox central on 16, and aggravated by the moon in opposition on 18. During this period look for very warm weather, with many violent displays of lightning, with heavy local rain and wind storms. Reactionary storms of rain, hail and lightning, centrally due on 20th and 21st. Much cooler weather throughout the whole country due on the 26th and 27st. 25th to 30th marked storm period.

MOON'S PHASES: New moon, June 3; first quarter 10; full moon 18; last quarter 26.

—Master Frank McWhorter has inaugurated the novel method of delivering his papers on a bicycle. Frank is a hustler.

—It is stated that at least one-half of the plant of tomato vines in the upper section of Queen Anne's were cut off by the cutworm, and had to be planted over again.

—The vast number of logs which came down with the floods from Williamsport, and other Pennsylvania booms, were sold at public auction at Williamsport yesterday.

—A prominent farmer of Kent Island said on Tuesday, that if any man would pay the expenses of his wheat crop he would give him the crop, and he considers he has a good crop.—*Queenstown News.*

—Annie Brock, the nine-year-old daughter of John and Nellie Brock, while at play at the home of Mr. Jesse Morris, at Goose Hill, on Sunday, fell in the front door and broke both bones of the forearm. Dr. W. S. Maxwell rendered medical attention.

—The contest for the postoffice at Centreville, Md., has not yet been brought to a conclusion, although the term of the incumbent, Mr. Michael Keating, expired March 29. The contestants are keeping up the fight, and more papers are being filed in the case.

—Orphans' court, Tuesday, June 12, '94. Present, Judges Harris, Moffett, Burgess. C. Howard Quail, administrator of Robert R. Quail, filed inventory of said deceased. Letters of administration on the personal estate of Elizabeth Johnson were granted to Maggie F. Niles.

—Some farmers are preparing to use wood as fuel in threshing their wheat, fearing a scarcity of coal, because of the strikes at the mines. Chestertown coal dealers are making every possible effort to meet the demands of their trade, but it is feared that a serious shortage will be felt during the threshing season.

—The work of tearing away the cap timbers of the Chester draw, commenced on Monday. The heavy timbers for the superstructure are already in place, but as yet the piles have not been received. The work, according to contract, is to commence on June 15. Due notice of any interruptions to travel will be given.

—Mr. Spencer Comegys, formerly of Kent, but at present living near Centreville, lost a valuable horse in Centreville recently. Mr. Comegys' horse was hitched near the Arlington Hotel, when a horse driven by a colored man, and owned by Hon. Thomas J. Keating, became unmanageable and collided with Mr. Comegys' team. The shaft was driven several inches into the horse, causing death in a short time.

—On Thursday last, Sheriff Bryan read the death warrant to William Jackson, the murderer of George J. Leager. The warrant fixes the day of execution on July 6. Jackson listened patiently to the reading of the fatal paper, but uttered no word. At the end of the reading, he asked the sheriff if he could do anything to secure for him a respite of the sentence. The sheriff answered: "No; but I will send your counsel to you."

—A meeting of farmers, carriers of grain, and owners of wheat threshing outfits has been called to take place at Still Pond, at 2 o'clock on Saturday. Because of some misunderstanding the meeting called for last Saturday was poorly attended. It is proposed, if possible, to come to some mutual agreement for a reduction in rates for carrying grain and for threshing wheat. Threshermen and freighters are therefore asked to meet the farmers for a general discussion of the matter.

—Chester Alliance, the only alliance organization in Kent which has withstood the assaults of time, the opposition of middle-men and depressed times, has elected the following officers to manage its affairs for the ensuing year: President, John Bell; vice-president, Geo. S. Biddle; secretary, Harrison I. Parsons; chaplain, Enoch N. Roland; lecturer, Walter T. Morris; assistant, Daniel McKee; doorkeeper, Wm. Vansant; assistant, J. Elwood Morris; sergeant-at-arms, Josiah Massey.

—Farmers in Kent have been loud in their complaints against the depredations of the English sparrows this year. Fruit, vegetables and the wheat crop have been subject to their raids. Dr. C. Heart Merriman, the ornithologist of the Agricultural Department, advocates the annihilation of the sparrows, and says the best plan is to destroy their nests and young. It rears about six broods every year, and although it seems a cruel thing to do, the interests of the country demand it. The sparrow until late years has confined its abode to the Eastern and Southern States, but is now in the fruit-growing sections of California, so the fruit is in peril, and if the rapid augmentation is not checked it will cause a heavy tax to be levied on the State.

—The champion thief has certainly struck Chestertown. Mrs. Kimble, living on Washington avenue, last week arranged a splendid dinner for her boarders and family. After putting a six-pound roast of beef, vegetables, etc., on the table, and while waiting for the diners, Mrs. Kimble went up stairs for a moment to arrange her toilet, but to her astonishment, when she returned, the beef, the vegetables and all of the and-so-forth were gone. So her poor boarders got none. An earthquake would scarcely have occasioned greater surprise. No one had been seen on the premises; all was serene and quiet, but an unknown guest had come, had seen and had conquered. The great fight had been fought and won. Now we challenge any town on the shore to beat Kent for Solomanic dogs and electrified thieves.

Hot! Hotter!! Hottest!!!

Monday was the champion hot day of the season, and the Chestertown housewife who had not completed tormenting her husband to death with the annual visitation of spring house-cleaning, has postponed the operation until fall. The thermometer registered [illegible] in the shade, and the heat would have been oppressive but for a pleasant breeze which prevailed.

The thermometer at Baltimore registered 90° in the shade. While the weather was hot and dry in Baltimore, it was hotter at points North and West. In New York the maximum temperature was 90°. Philadelphia, Milwaukee and Albany, N. Y., sweltered under 92°. At Washington, D. C., and at Sandusky, O., the maximum temperature was the same as at Baltimore.

ANOTHER SEVERE STORM.

Damage to Crops and other Property.

Another severe rain and hail storm passed over Chestertown and other sections of the county, at shortly after five o'clock on Tuesday afternoon. The wind blew a gale and for a time rain fell in torrents. Lightning struck a large shade tree in the yard of Mr. W. T. Sutton, Cannon street, slightly injuring it. The bolt then passed to the meat-house about ten feet away in the yard of Postmaster James A. Shaw. The weather-boarding on one end was broken into kindling wood. The house was not otherwise damaged.

Lightning also struck the dwelling belonging to Clinton Waters, col'd, tenanted by Rosa White, in Lynchburg, in the upper section of Chestertown. The bolt struck a tree, doing scarcely no damage. It then ran off to the combing of the house, where the current divided. One part passed into a bed room, split the post of a bed-stead, shattered the plastering in the corner of the room, passed down into the parlor, burst the back of an organ and shattered a looking glass. The other current tore out the casing of one window, skipping one, it then passed to a third window and tore the casing out and broke off the shutters. There was no one in the house at the time.

Operator Wm. M. Culp, at Chestertown station, says that when the Waters house was struck, there was an explosion in the telegraph office which sounded like the firing of a cannon.

The storm struck the Emma Ford when off the mouth of Queenstown Creek. The wind blew, rain fell in torrents, and it became so thick that Captain McConner deemed it advisable to wait until the storm abated before making Queenstown wharf.

Mr. William E. DeFord, of Queen Anne's, reports that he will commence harvesting to-day. The only damage from the storm was to his wheat, which was badly beaten down, and will never rise. Mr. Slagle, Mr. DeFord's neighbor, also expects to commence harvesting to-day.

Mr. John Morris, living near Chestertown, reports his corn considerably cut by hail, and his wheat badly down.

Mr. William Clough, on the Carvill farm of H. W. Vickers, Esq., states that his wheat is badly beaten down; so much so that it will necessitate his cutting it from only one way, causing much trouble and loss of time.

Mr. I. R. Leaverton says: "My corn is not seriously cut by hail, but wheat is badly down."

The limb of a large shade tree blew across the roof of the home of Mr. Jesse Usilton. The roof was not broken in and no serious damage was done.

The marriage has been formally announced, of Mr. William McKenney, of Centreville, and Miss Madge Meeteer, of Chestertown, at Emmanuel Protestant Episcopal Church, Chestertown, on Wednesday, June 27. Meeteer, and is one of the most popular of Chestertown's host of popular young ladies. Mr. and Mrs. Constable will reside on the Constable homestead, near Lankford. They returned from a delightful wedding trip on Saturday. The presents were numerous and extremely handsome. Solid silver, hand-painted china, bric-a-brac, and articles both useful and ornamental made up the magnificent display of bridal gifts.

INTERESTING COLLEGE NOTES.

Personal and Other Happenings in Season.

Prof. W. J. Humphrey's, of Crozet, Va., (A.B. and C. E., Washington and Lee University, 1887 and 1888,) has been awarded an honorary scholarship at Johns Hopkins University. Professor Humphreys has, during the past year, most acceptably filled the chair of science at Washington College. This appointment to the Hopkins will of course necessitate a change in Prof. Humphrey's department at the College.

The graduating class of this year will be: Kent county—H. N. Perkins, Chestertown; C. C. Brown, Pomona; J. T. Morris, Chestertown; Somerset county, E. B. Polk, Princess Anne; Dorchester county, U. L. Gordy, Galestown.

Messrs. Polk, Brown, Gordy and Douglass, at the close of the commencement exercises, will start on a tramping tour of the Peninsula, covering about 175 miles.

The Hopkins team of Saturday reached Chestertown under difficulties. In the first place, their tug broke down, necessitating the putting into Tolchester instead of coming up to Chestertown on the tug. After reaching Tolchester the players hired a team from a boy to bring them to Chestertown, but when about half of the twelve miles had been covered, the owner of the team was met, and at once ordered the strangers to dismount, declaring that the boy had no right to hire the team. Fortunately some one came along and took the wanderers up and brought them to Chestertown in time for a defeat.

CEREAL AND FRUIT CROPS.

An Improvement Since Last Month in the Condition of Winter Wheat.

The report of June 1, consolidated from the returns of the correspondents of the Agricultural Department, makes the acreage of winter wheat sown, compared with that which was harvested last year, 99 per cent., being a decrease of one point. There is an increase of acreage, as compared with 1893, in but 10 States, the principal part of which was made in the States of Kansas and Illinois.

The percentage of winter wheat acreage of the principal States are; Ohio, 95; Michigan 85; Indiana, 91; Illinois, 122; Kansas, 126, and California, 103. The percentage of spring wheat area for the whole country is 87.8 per cent, being a reduction from last year's average of 12.2 points. The percentages of spring wheat acreage of the principal States are: Minnesota, 87; Nebraska, 81; South Dakota, 85; North Dakota, 90. The average percentage of acreage for both spring and winter wheat for the whole country is 95.3, making a total area in round numbers of 33,000,000 acres.

The condition of winter wheat has improved since last report a little less than two points, being 83.2 per cent., against 81.4 on May 1. The percentages of the principal States are as follows: Ohio, 96; Michigan, 89; Indiana, 93; Illinois, 84; Missouri, 82; Kansas, 57; California, 60. The condition of spring wheat presents an average for the entire country of 88 per cent., and for the principal spring wheat States as follows: Wisconsin, 96; Minnesota, 99; Iowa, 90; Nebraska, 44; South Dakota, 79; North Dakota, 97; Washington, 89; Oregon, 96.

The preliminary report places the acreage of oats at nearly one point less than last year. The general average for the whole country is 99.1. The returns show the condition to be 87 against 88.9 last June. The preliminary returns of acreage makes the breadth devoted to barley 98.5 per cent. of that of last year.

From Bridgeville, Delaware, the following was sent to the Wilmington *Every Evening*: "A few papers have stated that there will be many peaches shipped from off this Peninsula this season. A week ago there were many trees that contained a half crop of fruit, but the June drop hadn't then begun. It is on now, and the result is very apparent to growers who expected a few hundred baskets; but 50 or less will now reach their expectation, while the droppings will not be over until the 20th of the month."

Mr. Ellis Porter, of near Price's, Queen Anne's, was in town on Monday, and reported the peach crop in the interior of Queen Anne's almost a total failure. He stated that the June drop had about cleared up the limited crop which was at one time promised. Along the water courses he said that some peaches were reported as still hanging on.

A fifth district gentleman stated on Tuesday that the June drop is over, so far as his orchard is concerned, and at the lowest calculation he is safe for a crop of four thousand baskets of peaches.

The Chestertown Cycle Club enjoyed a royal hospitality at the home of Mr. L. C. Justis, Jr., on Friday afternoon. Early in the afternoon the following representatives of the C. C. C. under the command of Captain Smith, filed out of Chestertown bound for the home of their host: Charles S. Smith, Wm. R. Aldridge, Harry Rickey, W. W. Chapman, F. M. Miller, Wm. E. Moody, Fred G. The Chestertown wheelmen were joined before they reached Kennedyville, by Messrs. Wattie McKnett and brother, Tull, Greenwood and Sanders, of the Kennedyville club.

After a pleasant run the place of the feast was reached. Before partaking of sandwitches and coffee, memories of which to this day make the Chestertown cyclists distressingly hungry, the visitors inspected Mr. Justis' farm, and were lost in admiration of his magnificent herd of 93 Holstein cattle. After the delicious sandwitches and coffee, amateur sports were enjoyed. W. H. Steward, Jr., and Wattie McKnett contested for honors in Graeco-Roman wrestling, two best in three, Mr. Stewart winning. Messrs. Massey, Stewart, Tull, H. Simpers and W. B. Usilton, Jr., gave a spirited contest in jumping. Mr. Massey won. Ice cream, berries and a jolly good time followed the athletic sports. Mr. Justis extended a splendid hospitality and a royal good time was enjoyed. The toast of the guests were: "Long live Justis, may the fair Goddess of matrimonial bliss woo him from his self-imposed loneliness, and the political Queen of love and beauty nurture the tender shoot of political aspirations until it grow into fair blossoms and full fruitage."

In response to a cordial invitation from Dr. J. K. H. Jacobs, the wheelmen partook of ice cream and strawberries at the K. of P. festival at Kennedyville, thus delightfully closing the annual run to the home of L. C. Justis, Jr.
