MANY QUESTIONS ASKED ON NEW AUTO LAW

"A great many questions have come into the Department concerning the new Financial Responsibility Law, effective on January 1, 1946," states W. Lee Elgin, Commissioner of Motor Vehicles. In order to clarify several different points, the Commissioner has compiled a group of questions and answers which may serve to satisfy a question in your mind.

1. Q.—Should I report an automobile accident that I may have outside of Maryland to the Department of Motor Vehicles here in Maryland?

A.—No, but you will probably find that the State in which you had the accident will have a similar requirement for reporting accidents and that their state will work reciprocally with Maryland and subsequently the Maryland law will be brought to bear on you.

2. Q.—Do I have to report an accident where the damage involved is only to my automobile or to the car I am driving, but is in excess of $50.00?

A.—Such an accident would have to be reported. However, if the damage is all to your own property or to the automobile you are driving, you will not be requested to post any security.

3. Q.—If I have an accident which is not my fault involving $500.00 damage to another car, must I post $500.00 cash with the Commissioner? If I am unable to do so, what happens?

A.—You must post your $500.00 with the Commissioner. If you do not, your license will be suspended within 60 days from the date of the accident.

4. Q.—Do you mean that under this law I could be driving my car at a normal rate of speed and in a proper manner and some other driver could pass a boulevard stop sign, go through a red light, be exceeding the speed limit and be intoxicated, hit my car and damage his own to the extent of $350.00 and then if I can't post the $350.00, I would lose my right to drive? Isn't this terrible hardship to work on an innocent party?

A.—Under such circumstances you would lose your right to drive unless the other driver agreed to settle your damages, or you post the necessary security. This law does not give the Commissioner the right to judge who is wrong; all he does is require each party to put up security for the other's damages. This may seem a hardship, but you could have very easily protected yourself by purchasing Liability and Property Insurance. If you elect to operate your automobil ewithout protection for the public, then this law will work against you severely, but you have the choice before an accident occurs to comply with the intent of this new statute.

5. Q.—If my license is suspended and my automobile tags suspended would it be all right to sell the car to my wife and then let her get the tags in her name and operate the car for me?

A.—The Maryland Law reads that a person transferring or selling a motor vehicle after suspension of registration for the purpose of defeating the intent of the law shall, on conviction, be fined not less than $100.00 nor more than $1000.00.

Big Game

No state in the union is entirely without some big game, although the white-tail deer population of Kansas is only 15 and Delaware has only 19. The white-tail population of Pennsylvania is estimated at 750,000.

Air Clothing

Clothing tucked away in dresser drawers should be brought out for a few hours of sunning, drying, and airing, once or twice during the summer, and especially after a rainy spell.

Oven Racks

Always place oven racks in position before pre-heating the oven. They're easier to handle when cold and it's wasteful of heat to leave the oven door open while adjusting hot oven racks.
