AUGUST SALE

REDUCTIONS IN LOW SHOES FOR MEN, WOMEN & CHILDREN

Although prices of shoes have doubled in the last few months, and are still climbing higher, with no relief in sight, yet we have been compelled to mark our prices down for quick selling, in order to make room for our fall shoes which are coming in right along.

Our store room is small, our space is limited, and as we bought our fall shoes early to escape the high prices, we have to receive them early, and need the shelf space quickly.

The difference between the advanced price of all high shoes, and our reduced price of low shoes, will enable you to buy two pair for the price of one pair. As spats will be worn a great deal this fall, you will be right in line to save considerably and escape the high cost of fall shoes. BUY NOW WHILE SIZES AND ASSORTMENTS ARE GOOD.

SALE ENDS AUG. 30.

SACHS' SHOE STORE

MILLINGTON FLOODED WHEN BIG DAM BURSTED

Part Of Kent County Town Under Six Feet Of Water Last Week

Some time Thursday morning of last week the big Millington pond overflowed through a break in the dam and South Millington was under about six feet of water for several hours. Residents of that section were either forced to desert their homes or move to the upper stories and in a number of instances citizens were compelled to resort to row-boats to get from one place to another. A horse belonging to Herman Hendrix was drowned.

Five heifers belonging to F. S. Bottomley were drowned in the flood. The electric plant, owned by H. Steinke, was seriously damaged and the concrete foundations were swept away, inflicting a $2,000 damage.

John E. Higman, owner of the Millington Roller Mills, had a narrow escape from death by drowning, when he was thrown into the whirlpool of the rushing waters at the mill-gate, and was rescued after considerable difficulty. Several logs had drifted against the mill-gate and Mr. Higman, with several assistants, was trying to remove them. Suddenly one of the logs swung about and knocked him overboard. He instantly was submerged in the whirling waters, and friends nearly tore off all his clothing in the effort to effect a rescue. He was not injured.

The new concrete bridge between Kent and Queen Anne's counties is intact, but the water cut deep gullies on each side, making the road there impassable. The railroad bridge at the head of the river was badly damaged and travel by railroad suspended for several days.

South Millington was a sorry sight for several days. This section is very low and the water is kept from it by the dam, which in the past has always been strong enough to resist the strongest tides and the heaviest gales. Some of the oldest residents assert they never saw such a downpour, and when the waters began to rise it soon became apparent that damage must result.

While the damage to property was considerable, there was no loss of life in the town.

Queen Anne's Politics.—Over the Chester River in Queen Anne's county there promises to be a hot fight in the coming primaries. The following are candidates to date: House of Delegates, C. W. Butler, Thomas Massey; Treasurer, F. M. Hunter, W. C. Hall; Register of Wills, I. M. Anthony; W. T. Bishop; Orphans Court, W. H .Gibson, W. H. Welch, Harry Clark, J. P. Roe, W. A. Wallace, C. E. Cannon, J. R. Benton, S. S. Goodhand; State's Attorney, E. H. Brown, Jr., J. T. Earle; County Commissioners, R. B. Massey, R. J. Smith, W. J. Connolly, C. E. Shawn; Sheriff, J. D. White, J. W. Yeates, J. P .Williamson, J. H. Walls.

The League Of Nations

The political situation in Washington with reference to the Peace Treaty and the Covenant of Nations is reaching an interesting stage. The scene changes from day to day. Senators Borah and Johnson seem to be bent upon defeating the entire Treaty if possible, and to this end are using the provision with regard to Shantung, which has no connection, however, with the League of Nations, nor is it a situation for which this country or the President are in any way responsible. In view of the fact, however, that about twenty Republican Senators are opposed to the defeat of the Treaty and are working for its ratification in such form as not to jeopardize it, Senators Borah and Johnson will not be able to defeat it even if they should receive the reluctant assistance of Senators Knox and Lodge.

The Covenant has been strengthened by the fact that it became known when the President submitted his original draft to the Senate that the Covenant as adopted was not the English, French or Italian draft, but was in substance and very often in language the draft as proposed by the American Commissioners, with only such changes as were necessary to meet the situation in Europe as well as the demands of the people of the United States.

All amendments to the Treaty will certainly be defeated by a majority vote, and then the Treaty will be ratified by a two-thirds vote, although possibly with some reservations.

That the people of Maryland are in favor of the Treaty is evidenced by their action. This week petitions from several thousand citizens representatives of all parties and all sections of the State will be presented to the Senate by the Vice-President of the United States, as well as resolutions adopted at various meetings.

A large public meeting will be held at Ocean City, Md., on Sunday evening, the 24th inst, which will be addressed by Senator J. F. Nugent, of Idaho, and Dr. Talcott Williams, of Columbia University, N. Y. In view of the distinction of these speakers, being among the best known and most distinguished speakers of the country, the meeting should be a great event, and it should attract not only the residents of Ocean City but persons from all over the State.

Deer Seen Near Church Hill.—Every once in a while a deer is supposed to be seen in this section. One day last week a well grown deer was seen feeding in a field on the farm of Mr. G. V. Hollingsworth, on the road from Church Hill to Barclay. This is supposed to be the same animal that escaped from a show two years ago and was seen in Klinefelter's Wood, near Chestertown.

Camp Meade To Go.—After two years or more of active life, Camp Meade, where many Kent boys spent months of time in training, is likely to live in memory within a few months. The old landmarks are gradually passing away, officers and men are leaving daily, no new troops are coming in, and the old camp is dying fast.

Is it Possible to Legislate Life and Brains?

Swift & Company is primarily an organization of men, not a collection of brick, mortar, and machinery.

Packing Plants, their equipment and usefulness are only outward symbols of the intelligence, life-long experience, and right purpose of the men who compose the organization and of those who direct it.

Will not Government direction of the packing industry, now contemplated by Congress, take over the empty husk of physical property and equipment and sacrifice the initiative, experience and devotion of these men, which is the life itself of the industry?

What legislation, what political adroitness could replace such life and brains, once driven out?

Let us send you a Swift "Dollar."
It will interest you.
