CASTORIA

for Infants and Children.

MOTHERS, Do You Know that Paregoric, Bateman's Drops, Godfrey's Cordial, many so-called Soothing Syrups, and most remedies for children are composed of opium or morphine?

Do You Know that opium and morphine are stupefying narcotic poisons?

Do You Know that in most countries druggists are not permitted to sell narcotics without labeling them poisons?

Do You Know that you should not permit any medicine to be given your child unless you or your physician know of what it is composed?

Do You Know that Castoria is a purely vegetable preparation, and that a list of its ingredients is published with every bottle?

Do You Know that Castoria is the prescription of the famous Dr. Samuel Pitcher. That it has been in use for nearly thirty years, and that more Castoria is now sold than of all other remedies for children combined?

Do You Know that the Patent Office Department of the United States, and of other countries, have issued exclusive right to Dr. Pitcher and his assigns to use the word **"Castoria"** and its formula, and that to imitate them is a state prison offense?

Do You Know that one of the reasons for granting this government protection was because Castoria had been proven to be **absolutely harmless?**

Do You Know that **35 average** doses of Castoria are furnished for **35 cents,** or one cent a dose?

Do You Know that when possessed of this perfect preparation, your children may be kept well, and that you may have unbroken rest?

Well, these things are worth knowing. They are facts.

The fac-simile signature of Chas. H. Fletcher is on every wrapper.

THE COMING ELECTION.

Now that sufficient time has elapsed since the nomination of the Democratic State ticket to enable the people of Maryland to form a correct judgment as to the CHARACTER of our candidates, it appears to me that it would be well to discuss the question of their election from a somewhat higher plane than that which has been adopted by many Democrats who are in opposition to us.

It is much to be regretted that certain reverend gentlemen, whose profession should call upon them rather to allay the bitterness of partisan disputes, have thought proper, by their vigorous language, to add fuel to the flame. During the excitement of our late civil war it will be distinctly remembered that the passionate appeals from many of the Northern pulpits were a source of discredit to more than one reverend advocate of the Union cause, and the people of Maryland were particularly loud in their condemnation of those who urged the prosecution of the war as a duty consistent with the high precepts of religion.

There are two highly important questions to be considered in the discussion of the pending election.

First—Are we to be turned from the support of those whose nomination was in every sense "fit to be made" by the single fact (even if conceded) that such election was influenced by two leading men called "*Bosses*," whose dictation in the State it was very desirable to destroy?

Second—In refusing our support to the ticket are we willing to admit that the executive, judicial, legislative and financial powers of Maryland should be transferred to the hands of the Republican party *as we know it in this State?*

In reference to the first suggestion it ought to be very clear that no strict party man can refuse his support to a candidate who is absolutely unexceptionable merely because he was nominated through the influence of those whose conduct is displeasing to him. The cry of every party seeking reform for years past has been to place before the people candidates whose lives and character will be a guarantee of security to the State, and it does seem to be correct reasoning that the men who can bring about such nominations have done good service to the public.

Candidates who are selected without the semblance of fraud are entitled to the support of the party, and it would be ruinous to any organzation if the doctrine were once established that the members could reject the nominees because of their great dislike to their leading political friends. To adopt any other principle might bring about the sacrifice of a faithful and honorable man for the purpose of humiliating an incompetent and worthless public servant, and in most cases would result in a lasting injury to the innocent and inflict no penalty whatever upon the guilty.

When Pattison was elected by the aid of the Republicans in Pennsylvania because of their distrust of Senator Quay as a "Boss," the power of the "Boss" was not overthrown by the election of Pattison, the Democrat, for during the last month he has shown and exercised the most absolute political control over his party. And it is here, let me say, that the boasted love of Americans for fair play comes in; that no upright, fair-minded man should be held responsible for the supposed offenses or shortcomings of another.

Assuming, therefore, that the qualities of Mr. Hurst as a candidate for Governor measure up to the full standard of excellence, is it not at least dangerous advice to give to our fellow-Democrats that they can discard the ticket at their pleasure and turn their support to that party which they have for thirty years denounced as unfit to hold the political power of the State?

We now come to the discussion of the second proposition, as stated above.

I am quite sure it can be safely said that there is not an intelligent Democrat among us who is not willing to admit that the rule of the Republican party in Maryland from 1860 to 1867 was the most odious and tyrannical government which has ever held power here since the days of the Revolution.

It is a fact of history that our Treasury was plundered, taxes largely increased, the public debt more than doubled, and the political freedom of our people hampered by test oaths which deprived a very large majority of the right of suffrage.

There can be no question of the fact that the same system of destruction by which the Southern States were robbed of $300,000,000 was set on foot here by the allies of carpetbag Republicans, and the whole machinery of government would soon have been in the hands of men whose vindictive hatred was only equaled by their flagrant dishonesty.

Fortunately, we were rescued in time to save us from the impending ruin, and by a happy accident in 1867 the faithless band of brigands were driven from every office in the State.

Since that day our government has been so administered that the debt, which was then $15,000,000, is not now over $3,000,000; the yearly interest, which then was $750,000, is now less than $150,000; State taxes are reduced to a minimum and everywhere the evidences of prosperity are shown by the happiness and contentment of the people.

It seems, therefore, almost incredible that intelligent men can seriously ask us to change all this and place ourselves once more in the hands of that party which so eagerly sought our destruction.

It is quite possible that the public may be impressed with the belief that it would be rather a high price to demand for the possible removal of a "Boss" that we break down the system of good government which has prevailed for thirty years, and place our homes, our property, our public schools, our courts and our whole future at the mercy of that party which has discredited every Southern State in which they ever held control.

It is hopeless to talk of the ease with which Maryland can be restored again to Democratic rule. So great would be the triumph in the Republican camp that every artifice known to those skilled in the use of political machinery would be brought into play to keep us in line for the Presidential election of 1896.

Such, then, is the plain, unvarnished statement of the facts bearing on the coming election of November 5.

The people must take their choice—Lowndes or Hurst must be elected Governor. The latter represents the honest government to which our people have been long accustomed.

The former bears on his shoulders the record of the prosecution of every Southern State, and the condemnation of a large majority of their citizens.

"I hear a lion in the lobby roar.
I say: Mr. Speaker, shall I shut the door and keep him out?
Or shall I let him in, and then see if I can get him out again?"

I am for shutting the door and keeping him out—now and forever!!

JOHN LEE CARROLL.

The Mount Lebanon Shakers recently performed a great deed of charety, although it was not designed as a charity, being nothing more nor less than an advertising scheme. It however resulted in great good just the same. They gave away 1,000 bottles of their Digestive Cordial to those suffering from stomach derangements.

It was so effective in curing those who used the remedy that they were loud in their praises of it, and in consequence a large demand for the cordial was at once created.

The druggists of this town have little books that tell all about it. Digestive Cordial creates an appetite, aids digestion and brings about a rapid increase in flesh and strength.
