Church Chautauqua Big Success

The Church Chautauqua, which was held in the Chestertown M. E. Church on Monday, Tuesday, Wednesday and Thursday evenings, and which was secured through the efforts of the progressive pastor of the M. E. Church, Dr. George T. Alderson, was a big success. Good crowds attended all the lectures, which were well worth hearing. Miss Mabel Toulson presided at the pipe organ throughout the series in a manner that added much pleasure to each evening's entertainment.

On Monday evening, the first evening of the Chautauqua, Miss Helen Rouse sang a sweet solo, after which Ex-Judge Pearce, in a short address, introduced the speaker of the evening, Dr. S. N. Mitchell, president of Delaware College, who delivered a fine lecture on that ever-interesting subject, "The Peace Treaty and the League of Nations." Those who attended enjoyed the lecture. Dr. Mitchell gave his hearers a somewhat new view of this much discussed subject and gave it his hearty and enthusiastic endorsement.

On Tuesday evening, after a sweet solo by Mrs. David B. Ford, Dr. Robert Watt, of Wilmington, Del., a former District Superintendent of this District and well and favorably known here, was introduced by Mr. J. Waters Russell. Dr. Watt delivered his lecture entitled "The Church on the Job." Dr. Watt's lecture was interesting, humorous and instructive and he had the attention of an appreciative audience at all times.

A few months ago, in the M. E. Church here, a moving picture was shown in the interest of the Centenary Movement, the greatest movement of its kind in the history of Methodism, regarding missions in far-off lands and what the church proposed to do. Those who saw the pictures were much interested by what religion proposed to do in countries where the inhabitants had never had a chance. Captain Howard Davis, chaplain of the 59th Pioneers, which did such good work in France, in the late war, is now engaged in promoting this work. He was at the M. E. Church Wednesday night and gave an illustrated lecture entitled, "The Mass Movement in India,' which showed how the Centenary Movement was working out in that country.

On Thursday evening Dr. E. L. Hubbard, of Baltimore, lectured on "Borrowing." His lecture, like those that preceded it, was very interesting and was enjoyed by the audience.

—With the turning back of the clocks of the land one hour Sunday morning last the people of the United States are again living by normal time. For two years the clocks were moved forward one hour in the spring and moved back one hour in the fall, but from now on the time-pieces will remain on the old-time basis, as the daylight savings law was repealed by the present Congress.

—The Y. M. C. A. of Washington College cordially invites the public to attend a discussion Sunday evening, Nov. 2, at 6.30. Dr. A. S. Hall will be the speaker. His subject will be: "Evolution and What It Means." Dr. Hall is the head of the department of science at Washington College and will no doubt present the subject in a highly interesting and instructive manner. There will be special music.

—Mr. Clarence M. Newcomb and family will move to the Hubbard property on Front street, recently vacated by Mr. and Mrs. Wm. Faulkner. Mr. Harry Fowler will occupy the residence which Mr. Newcomb and family ed.

Enoch Latham, shoemaker, High St., Chestertown, says: "Whenever I caught cold, it seemed to settle on my kidneys and I suffered untold pain. When I straightened up it seemed as though I were stabbed. My kidneys acted too frequently and I had to get up several times at night to pass the kidney secretions. I had dizzy spells and on different occasions my eyes gave me trouble, a mist seemed before them. I learned of Doan's Kidney Pills and began using them. I purchased them from M. A. Toulson's Drug Store and they gave me great relief."

Four Complete Operations Every Trip Over the Field

Now that farm labor is scarce, it is to your advantage to do your work in the quickest and easiest way, especially when that method will bring even bigger crops than the old.

The planting season is always a busy one, but you will find that the work is accomplished a lot easier if you use a John Deere-Van Brunt Fertilizer Drill. This drill makes horse power and man power available for other purposes. In one trip over the field it pulverizes the soil, makes the seed furrows; plants and covers the seed and the fertilizer. And besides, it increases the crop yield because it does better seeding.

Come in and ask us to show you the *patented* adjustable gate force feed used on Van Brunt Grain Drills. This force feed is the construction that insures even seeding over the entire field. No seed is wasted and there are no bare spots in the field. The "Van Brunt" does first-class work in any soil capable of being seeded. It does not choke up in mud, gumbo, sticky or trashy soil.

Save extra labor and seed and increase your crop yield by buying a Van Brunt Fertilizer Drill from us.
