Democratic Ticket

FOR PRESIDENT:

WM. JENNINGS BRYAN,

of Nebraska.

FOR VICE-PRESIDENT:

ARTHUR SEWALL,

of Maine.

ELECTORS-AT-LARGE:

RANDOLPH BARTON, Baltimore city.
GEO. W. PURNELL, Worcester county.

DISTRICT ELECTORS:

WILLIAM M. SLAY, Kent county.
GEO. W. ALBAUGH, Carroll county.
JOHN HUBERT, Baltimore city.
EDWARD RAINE, Baltimore city.
THOMAS H. BOND, St. Mary's county.
WILLIAM R. GETTY, Garrett county.

Election, Tuesday, November 3d, 1896.

SENATOR GRAY, of Delaware, denies the statement that he will support the Chicago ticket.

THE silver Republicans in the Idaho State Convention were in the ascendency and the McKinleyites bolted.

SOCKLESS JERRY SIMPSON has been nominated by the Democrats and Populists of Kansas for Congress.

A MAN OF THE MASSES, from the masses and to be elected by the masses in November, is a crystalized description of William Jennings Bryan.

CANDIDATE BRYAN has swept the country from Nebraska to the Eastern Gibralta of gold (New York city) with a whirlwind of enthusiasm.

A DELAWARE Single Taxer made discussion animated and interesting at the Voshell House one night last week. The Single Taxer alone possesses the key to the great financial issue.

MARYLANDERS will be given an opportunity to see and hear Bryan. He will visit Baltimore, and doubtless the citizenship of the Oriole State will find it convenient to visit Baltimore and extend greeting.

THE SOUND-MONEY Democrats will pit Bourke Cockran against the great speech of William J. Bryan, delivered at Madison Square Garden last night. Mr. Cockran will deliver his speech in answer to Mr. Bryan to-morrow night.

GOOD VIEWS of the McKinley eclipse, which will take place on November the third next, may be had from nearly every State in the Union. No postponement because of rain or cloudy weather. The obscuration will go on in any event just the same.

BROTHER AKER, of the Queenstown *News*, about sums up the situation in his community as follows: "One gold man in a county, like one mosquito in a large room, can make a great deal of noise and lead some people to think that, instead of being an individual, he is a great crowd."

CANDIDATE BRYAN has been invited to make several speeches in Baltimore city, and the probabilities are that Maryland silverites and their gold bug traducers will enjoy an opportunity to hear the "boy orator of the Platte" discuss the national issue of the masses against the classes.

IT IS SIGNIFICANT that "not a single labor paper in the United States is for William McKinley." An analysis of the class of Democratic papers which espouse the cause of this protege of Wall Street and the Bankers' Exchange, is not only interesting but instructive for the suffering toiling millions.

THE New York *World*, finding that it cannot stem the tide of public approval which is greeting the free silver candidate for the Presidency, is seeking admittance to the Bryan ranks and prepared a series of questions for Mr. Bryan to answer in his great speech in Madison Square Garden last night.

THE Middletown, Delaware, *New Era* last week reproduced in full the excellent letter which appeared in the TRANSCRIPT several weeks ago from "Silver B," discussing the financial issue. The two communications from this converted "gold bug" have been received with great favor and have been commented upon most favorably by a great number of readers. On the front page of this issue will be found a discussion of the money question by "A Working Man." This article treats of the subject in a practical but interesting way and should be generally read.

THE TRANSCRIPT, during the present campaign, will be found to contain in each week's issue, interesting discussions of the great financial issue involved in the presidential contest, and should be in the home of every farmer in Kent county. This is, to a great extent, a farmers' battle against the men and methods at whose door rests the responsibility for the blighting depression which has introduced fifty-cent-wheat, thirty-cent-corn, eight-cent-cotton and the wide-spread depression which rests like a deadly pall upon the homes of nearly seventy millions of people.

"SOUND MONEY!" "An honest dollar!" are expressions which force the country editor to ask: Is that sound or desirable money that forces the richest and one of the most powerful nations of the earth to borrow money in a time of profound peace? That subjects that nation to the tender mercies of a gold syndicate; that has actually forced the proudest nation on the earth to ask a gold syndicate to protect its treasury; that has paralyzed the business of that nation; that has already converted 3,000,000 of prosperous, industrious laborers into that many homeless, idle tramps? To all this we have come under "sound money," and while spending the "honest dollar." It has brought upon us all these ills and the end is not yet—the bottom has not yet been reached. Will our people longer submit to such infamous rule? We hope not.

How's This!

We offer One Hundred Dollars reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure.

F. J. CHENEY & CO., Toledo, O.

We, the undersigned have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions and financially able to carry out any obligations made by their firm.

A CONVENTION to nominate a candidate for president and vice-president has been called by the "sound-money Democrats" to meet in Indianapolis on September second. The avowed and only purpose of the people back of this move is the defeat of the Democratic nominee, William J. Bryan and the election of William McKinley. These disruptionists who would figure as martyrs to conscience, now place themselves in the position of disgruntled politicians and demagogues. For years these conscience-stricken gentlemen have emphasized the trite expression that unjust taxation as impersonated by William McKinley is robbery and that in Democracy alone lay the salvation of America and American institutions. That was when national conventions bowed to New York and the East; when the sacredness of the will of the majority swung toward the composed conscience of Wall Street and the money lords, who could at their own wills, force a corner in the gold market, compel the government to borrow money from England to pay its outstanding obligations, and speculate in bonds. After a failure to buy their way through the Chicago convention, this salvation army of New York capitalists find in William McKinley their beau ideal, and strangest of all, they discover in this rank Republican high-chief of protection, the salvation of the country and the Democratic party. The Democracy of Kent county has, since last fall, been receiving object lessons in Republican salvation and will not be likely to be caught napping by the second ticket this fall. Some of the samples of Kent county Democracy have been bad, very bad in the past, but has been many degrees better than the best Kent county management so far dealt out to her by reform Republicans. The Democracy, while not idealic, is better than anything Republicanism, so far given here.

MR. MILES' POSITION.

The position of Congressman Joshua Miles, relative to the financial issue, has been, and even with his public statement, will continue a matter of no little interest throughout the First Congressional district. Mr. Miles in his most recent published utterance under his own name, and date of August third, says:

"It seems perfectly right that some expression of my individual views in the present extraordinary condition of affairs should be made.

"During the whole of my career I have thought it absolutely requisite for the public welfare that the country should secure and maintain a currency system in which gold and silver may circulate freely, at a parity, among the people. The only real question has been how can this be accomplished? To me it seemed that the concurrence of the principal nations of the world was necessary.

"I shared the opinion with many of the ablest members of the Democratic party; and I have labored within the ranks of that party to secure the widest consideration of the subject, and for the establishment, as a party measure, of the opinions I entertained.

"The fight I have thus made has been within the party; the party has definitely acted upon it, though the decision has been adverse to my view. Can I do less than yield to the clear decision that has been made? Can I longer contend for internationalism? I must acquiesce in the decision; and I do so not only because it is the action of my party, made after years of deliberate discussion, but because, upon a subject which is, after all, a mere opinion as to the expediency of consulting foreign nations in the matter of establishing a system of home finance. I dare not oppose my own views to those which have received the endorsement not only of ninety per cent. of my own party, but also of so many worthy persons in whose judgment I have been in the habit of placing much importance.

"I shall vote for Bryan and Sewall and if I am nominated for Congress and elected, I shall carry out the wishes of my people and represent them to the best of my ability."—JOSHUA W. MILES, Princess Anne, Md.

REPUBLICANS AND THE SCHOOL BOARDS.

The desperate effort made by the Republicans to obtain control of the School Boards has been generally noticed and commented upon. In direct violation of their campaign pledges, they no sooner got into power than they sought by every possible means to throw the entire public school system of the State into the depths of partisan politics.

Those appointed as School Commissioners were chosen more with a view to advance the interests of certain politicians, apparently, than to maintain the present excellent condition of the public school system of the State.

Wherever these men have obtained seats in school boards they have proceeded to unsettle the existing conditions so far as they have been able, to advance the interests of the Republican party in general and the faction to which they belonged in particular, to the manifest injury of the school system.

A striking illustration of this is given in our neighbor county of Kent. There the Republicans obtained full control of the School Board. Their first act was to remove Mr. Eben Perkins, who for nearly thirty years has filled the position of School Examiner. Mr. Perkins was conceded to be one of the ablest school men in the State and throughout his long period of service not one charge has ever been against him. His fitness for the position was generally recognized, and the fact that he discharged his duties without regard to politics or religion should have suggested his retention. He was removed to make room for a Republican, and presumably a politician.

In Cecil they did not fare quite so well, but it was not their fault. Their plan was to have the Governor make the regular appointment to which they were legally entitled, and which would have made two Republicans and one Democrat, and then—as the sitting Republican did not fraternize with the dominant faction—they proposed to have the Governor remove him for "cause" and appoint a henchman of their own in his place. They could then secure the coveted place of Examiner. The little game, however, did not work. The Governor named the wrong man and the Senate failed to confirm him, and the Democratic incumbent held over. On Tuesday last the Board met and organized according to law and elected George Biddle secretary, treasurer and examiner for the ensuing term of two years.

We congratulate the people of Cecil county upon this defeat of a scheme of politicians to drag the school system of the county into politics by removing from office the present Examiner. We know that we express the opinion of every fair-minded citizen in the county, without regard to politics when we say that Mr. Biddle is the right man in the right place. Like Mr. Perkins, of Kent, he is peculiarly fitted for the important position he occupies.—*Cecil Democrat.*

Some years ago when suffering with an uncommonly severe attack of diarrhoea, Mr. W. B. Guinnip, of Atco, Pa. received through the mail a sample bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. He says: "I found it to be one of the most effective remedies I ever used. It gave me almost immediate relief. It has no superior and I think no equal. No bad effects follow the use of this remedy. It is pleasant to take when reduced with water and sweetened. Children like it. It never fails. It is the [illegible] remedy ever [illegible] For sa[illegible]

PERTINENT QUERIES.

MESSRS. EDITORS OF TRANSCRIPT:—Can you tell us why there is some one sick in nearly every third house in Chestertown? Why do we have these fevers, etc.? Has the hog-pen in our midst, under our noses and at our front doors anything to do with it? Dr. Hines says a hog-pen is a nuisance, that it cannot be kept clean. He was our former health officer and forced its abatement some years ago. Hagerstown is now doing all it can to do away with them. Is it possible that politics will prevent our commissioners acting when our health is in such danger? They say it was worse to have the pens bunched in one locality on the suburbs of the town, than to have sixty hog-pens dotted and spotted all over the entire town, reeking with filth and bad odors. Our commissioners say they are not in this filthy condition, because their ordinance says: "The pens must be kept clean!" Who ever heard of a clean hog-pen? How can filth be clean? Walk around this town these August nights and smell the foul odors, and by day look at these sties and see for yourselves what such cleanliness is! Will not some gentleman or gentlemen interest themselves and do something to stop this nuisance? Or will it be left to the women to take some action?

The "Eureka" Iron

is a miniature stove, with a polished surface, and used in the same manner as a common Flat Iron, and equally convenient. It is cheap and durable, and possesses many advantages over the common Flat Iron, which must insure its success with every economizing and practical housekeeper, who may give it a fair trial. It is a household necessity.

The Iron is heated with charcoal, but live coals from a common wood fire are equal to the very best charcoal, if made of good solid wood-hickory, dogwood, elm, black ash, sugar tree or maple, and black walnut. Stove coal cannot be used in this Iron. Price, $2.50 and $3.75.

Full directions given with each Iron.

IN THE HIGHLANDS.

Western Maryland College,

Westminster, Md.

Thirtieth Year begins September 15, 1896. Buildings all brick; heated by steam; lighted by electricity; hot and cold baths. All rooms furnished with single beds.

The unexampled success of this College has been a steady growth based on thorough work, conscientious care and righteous discipline. There has never been any rowdyism at the College, and parents know it is a *safe place* to send their boys and girls.

Both sexes received, but trained in separate departments; the ideal educational arrangement modelled on the home. We began it thirty years ago, and its success is demonstrated.

Our students are our references. You are sure to find some of them in your county. Send for a Catalogue to T. H. Lewis, President.
