Harrison W. Vickers, Esq.,

AND

Henry W. Catlin, Esq.,

will address the Democratic and Free Silver voters of the Sixth district, in Fairlee hall on SATURDAY evening October 24th, at 7.30 o'clock. All who are interested in the success of Bryan and Sewall, and the great cause which they represent are invited to be present.

A. S. Goldsborough, Esq.,

the young silver-tongued orator of the Queen Anne bar, will address the Worton Bryan and Sewall Free Silver Club, in Worton Hall, Worton Station, on MONDAY evening next, October 19.

THE QUESTION before the country today is shall this country be governed by money or manhood?

THE CAMPAIGN of coercion inaugurated by Republican employers and their mongrel allies, promises to be a dismal failure. It is rather remarkable that the gentlemen who are such sticklers for honest money, should abandon all ideas of honesty in the exercise of the ballot and along other lines.

WHY IS IT THAT the borrower of money from the honest dollar fraternity is compelled to obligate himself to pay principal and interest in *gold* but is *refused gold* in the amount borrowed? The supreme honesty of these gentlemen when put to a crucial test is shown to be the profound *dishonesty* of the money-shark and the oppressor of the poor.

DEMAND HAS BEEN made upon the National banks of some of the Eastern Shore counties that they contribute to the campaign fund raised to defeat the election of Mr. Bryan. It is conceded that the political hat in this section will be comparatively empty when returned for the political blessings of the high-priests in charge of the opposition.

QUEEN ANNE is credited with having fifteen Democrats who, more supremely honest than their political associates, and more intelligent in the profound discriminating quality of their minds in reaching sound conclusions, want an *honest* dollar. How supremely lonely these morally sensitive gentlemen must feel in the present campaign.

QUEEN ANNE IS expected to give one of her old-time Democratic majorities in November. Factional differences have been relegated to the rear and the Queen Anne leaders in the face of the common foe are giving words of counsel and cheer from the same rostrum. A Queen Anne Republican several days ago refused to accept a bet of ten to five that the county will give nine hundred for Bryan and Free Silver.

THE POLITICAL salvation army who repudiate the Chicago convention as anarchistic and as threatening national honor, should not forget to show the consistency of their rebellion to the campaign support which Herr Most, the inspiring genius of the Hay Market Riots of Chicago, and Robert G. Ingorsoll, the calumniator of religion and all things most sacred to a religious, God-fearing and law-abiding nation.

MR. HADDAWAY ROWLENSON, whose political prophecy published recently created no small degree of criticism among the Hannacrats of the State, several days ago said, in substance; the statement may be called a "prophecy" or by any other name which the individual critic may prefer, but the truth of my assertions will be shown on November the third. The dictatorship set up by the railroads and other corporations, will entirely miscarry in the present campaign. The American laborer has reached a point when the arbitrary dictation from the employer as to his right of an untrammeled exercise of the right of suffrage is no less an insult than the offer to purchase his vote by a specified sum of money.

THE TRAVESTY upon common honesty and common sense indulged in by the gentlemen who issued the call to "Democrats" for a meeting last night in Stam's Hall, was a dismal failure. The speakers, Messrs. Ralph Robinson, of Baltimore, and R. A. Kelley, of New York, landed in town and were left to their own recources for entertainment until they naturally drifted into the hands of a few Republicans, in the interests of whose party they were sent to Chestertown, and in whose interest they harrangued their scant audience. Had these gentlemen come to Kent for the purpose of discussing the financial question with Democrats, the Democracy of the town and county would have given them respectful audience, but since such was not the case, Democrats refused to lend the leaven of their presence to the occasion. The miserable subterfuge used by the gentlemen who are masking before the people of Maryland as Democrats, is a thing which the manhood and honesty of the voters of Kent county refuses to countenance in any way, shape or form.

JUDGE RUSSUM, in his charge to the grand jurors at the opening of the present session of the circuit court for Caroline co. gave expression to the following pertinent and healthful utterance:

"My attention has been called to the frequent and flagrant violations of the law in relation to the sale of cigarettes to minors. I invite your special attention to the investigation of these cases because, in view of the poisonous character of this class of merchandise, their sale to minors ought to be broken up. They poison the system and cause insanity and death. The person who puts in the hands of a boy this poisonous compound commits an offence greater than the person who puts intoxicants to the lips of an armless man."

A PROMINENT visiting Republican to Kent, said last week: "How can you Democrats expect to win? We have the money, the great corporations, the trusts, the metropolitan press—but!—*but!!* I believe the people are back of the Bryan campaign, but the people don't *always* count." The key to the situation resolves itself down to the simple proposition of whether or not the great laboring masses will become subservient to the professional purchasers of voters or the arrogance of monied employers. It is not believed that the brawn and sinew which compose the aristocracy of honest toil will bow without a ringing protest in humble submission to the dictatorship of the monied classes. National honor rests upon the rock-ribbed foundation of American manhood as represented by the American wage-earner and is not a purchasable commodity.

IT IS SURPRISING that the corporations and individuals who are to-day so zealously laboring for the maintaining of high wage standards, are and have been responsible for strikes, riots and bloodshed for fifty years past. Was it Cornegie's protection of labor which precipitated the Homestead riot and loss of life? Was it Pullman's shortening of hours and increase of wages which resulted in the rebellion of labor at Pullman, Illinois? Was the Demagogue Cowan at Washington pleading in behalf of the American wage-earner when the insolvent corporation which he now represents forced into open revolt thousands of its oppressed employes? When the streets of Brooklyn were bathed in blood and riot held high carnival, and armed officials escorted the property of Mark Hanna's campaign-fund contributors through the streets of the city, were these blatant hypocrits then calling for shorter hours and higher wages for the American laborer? The record of these men should condemn them before the great masses of intelligent voters of the country.

CHESTERTOWN FROM A SANITARY STANDPOINT.

"Prof. W. B. D. Penniman, chemist to the Maryland State Board of Health, on Thursday of last week made a report in regard to Chestertown. The report says, that the general sanitary condition of Chestertown is something so bad that words can hardly give an idea of the condition prevailing, 'The public water supply,' he said, 'comes from two springs, one at the head and the other at the end of a long valley with marshy bottom. On one side of the valley are quite a number of houses, many of which are in very bad condition from a sanitary standpoint. There are a large number of open closets, pigpens, open drains, and at least one slaughter house, in bad condition. All of this offal drains into the valley, the lower part of which is merely an open sewer full of filthy matter. As might be expected, this supply shows marked signs of contamination, which can only be remedied by proper precautions. A number of pump wells were also examined, and found in an undesirable condition.'

"A resolution by Mr. Henry Brauns was adopted to the effect that the secretary was directed to correspond with the local health officers in regard to the matter and to make a personal inspection, and, with the assistance of the health officer, take such action as may be necessary."

[COMMUNICATED.]

MR. KEENE TO THE FARMERS OF KENT.

EDITORS OF THE TRANSCRIPT:—A subscriber of your journal, who was one of the audience whom the writer had the honor recently to address at Chestertown, requests that the writer will give through your columns some of the financial facts which ought to appeal to the common sense of the farmer, be he Republican, Prohibitionist, Populist or Gold Bug. The sagacious writer opportunely enough says in his interesting letter, that matters are come to such a pass that the farmer must think for himself.

As he says, "party don't butter parsnips." The best explanation the writer can afford of the appreciation of gold (he means its higher valuation than commodities of all character, even embracing wages,) is the indisputable economic law, that if either metal, gold or silver, becomes dead by demonetization, which is the case of silver, the fall of prices of all products displays the measure of the mischief of the change of the standard. Gold has appreciated because the money character has been placed in it exclusively, and the demand for it thereby increased. Silver has depreciated because the money character has been taken from it, and demand for it is thereby diminished. The height at which gold stands as the one money metal above the point where it would have rested if the silver equivalency had been maintained, marks the extent of the wrong inflicted upon the farmer, wage earner, manufacturer and industrial producer by meddling with the money measures of silver and gold.

In proof of this I take the Census Bureau statement. The farmers can carry to the debit side of their ledger twelve billions of losses by reason of falling prices in the last twenty years.

Ascertained loss on cotton $5,179,000,000
" " wheat 2,589,000,000
" " wool 950,000,000
" " corn 1,772,000,000
" " oats 510,000,000
" " rye 37,000,000
" " live stock 1,384,000,000

There are five and a-half millions of farmers in the United States. Divide the loss amongst them and that would make $2,400 loss to each, of five and a-half million in twenty-five years. Suppose $12,646,000,000 had been divided fairly, distributed amongst farmers, and hence laborers, clerks and tradesmen, instead of having been by the act of 1873 legislated into the castles of the money grabbers, what a grand measure of prosperity would have been brought into the country.

Let the Republican who votes to continue the reign of plutocracy think of it. In 1850 one-half of values of the United States was in farms. From 1850 to 1890 it has fallen from 46 to 20 per cent. Think of it, in 40 years one and one-half billions of farm values have grown only two and one-half billions, whilst other values, (by trusts and gold) have grown to 19 billions. Why should *farm* values fall 620 millions? This is the result of the law making work. Do you farmers, after your toil from 1870 to 1890, and see your losses are $620,000,000, while on the other hand the money-grabbing fellows, Republicans and Democrats (like Belmont, Morgan, Whitney and Hill) have piled up gains of $6,500,0000,000. What a chump old Republican hayseed is and how easy it is to fool the silly old Republican partisan fool, and yet farmers, clerks and workingmen can vote together and make the times prosperous. To think of farm values under the demonetization of silver, falling in twenty years $415,000,000, and other values rising $545,000,000. This cannot be right. There must be something wrong in conditions that produce these diseased results. It is the work of the money power dethroning the industries of the people. Why may not producers, dealers, clerks, laborers, wage earners one and all put aside issues and parties and strive to win only on the important issues, money, monopoly, legitimate industry versus illegitimate monopoly?

Let me tell you the producer, merchant, manufacturer, laborer, wholesaler and retailer must go down sooner or later, and American agriculture; yet every mother son of them, merchant, clothier, tailor, grocer, wager, furniture dealer, carpenter, lumberman, oysterman, berry picker, plasterer, painter, blacksmith, must be depressed as long as the farmer must pay all to the tax-gatherer and the usurer. Twelve billions of wealth held by four thousand millionaires with an income of four hundred and eighty millions a year, don't keep the workers.

Political parrot croaking don't help the farmer. The Republican fable dealers will talk their rot until doomsday. I think it is in second Timothy: "For the time will come when they will not endure sound doctrine; but after their own lusts shall they heap to themselves teachers, having itching ears; and they shall turn away their ears from the truth, and shall be turned unto fables" (about what the farmers are under the gold standard.) "Because they received not the love of the truth that they might be saved; and for this cause God shall send them strong delusion, that they should believe a lie." Ah! my brethren, is not the Scripture fulfilled, so far as the gold standard is concerned, with its *alias* of "sound money," *alias* "hard dollar," *alias* international intervention for bimetallism, and *alias* anything, everything but the truth, under a variety of names, to hold aloft the worst enemy mankind has ever known—THE GOLD STANDARD.

Do You Use It?

It's the best thing for the hair under all circumstances. Just as no man by taking thought can add an inch to his stature, so no preparation can make hair. The utmost that can be done is to promote conditions favorable to growth. This is done by Ayer's Hair Vigor. It removes dandruff, cleanses the scalp, nourishes the soil in which the hair grows, and, just as a desert will blossom under rain, so bald heads grow hair, when the roots are nourished. But the roots must be there. If you wish your hair to retain its normal color, or if you wish to restore the lost tint of gray or faded hair use

Ayer's Hair Vigor.

REAL ESTATE.

BY VIRTUE of a writ of fieri facias issued out of the Circuit Court for Kent County, Md., and to me directed, at the suit of W. S. Smith, Lewis Kalling and William S. Maslin against the goods and chattels, land and tenements of Earl R. Strong, I have seized, levied upon and taken in execution all of the interest of the said Earl R. Strong, in and to all that

Tract or Parcel of Land,

lately occupied and owned by Thomas A. Strong, deceased,

CONTAINING 192 ACRES,

more or less, together with the improvements thereon, situated in the Fifth Election District of Kent county, Md., between the villages of Edesville and Rock Hall, and adjoining the lands of William Wagner, Walter Hadaway, George L. Maslin, deceased, and others, being the same tract of land which was bequeathed to Catharine A. Strong, his mother, by her grandfather, James Eagle, by will dated the 29th day of May, 1854, and duly recorded in Wills Liber No. 11, folios 314, etc., one of the Land Record Books for Kent county, Md.

And I hereby give notice, that on

TUESDAY, the 20th day of October, 1896,

between the hours of 11 A. M. and 12 o'clock noon, at the Court House Door, in Chestertown, Md., I will sell the above-named property so seized and taken in execution, to the highest bidder for cash, to pay and satisfy the above writ, with costs and interest due and to become due thereon.
