No matter what you're driving now→→THIS YEAR TRY FORD!

AMONG all low-price cars for 1940... the Ford has the longest springbase, the biggest hydraulic brakes, the greatest rear-seat knee-room!

It is the *only* car at the price with *full* Torque-Tube Drive, and the semi-centrifugal type clutch used on high-priced cars to give easy pedal action!

It is the *only* low-price car with 8 cylinders instead of just six . . . yet it proved its gas mileage *better than any* standard-equipped "six" at its price in the official 1940 Gilmore-Yosemite run!

It also gives you the *most equipment* of any low-price car *without extra charge* . . . including finger-tip gearshift of the easy-acting fine-car type, and a new front-window ventilation control that turns the air downward, away from passengers' faces and necks.

Before you choose your new car this year . . . try a Ford. No matter what you ask of a car, we believe you'll find that this one gives you *most* . . . by far!

FORD V-8 WE'RE GIVING BETTER DEALS NOW THAN EVER BEFORE . . . COME IN TODAY!
