Our new merchant, Mr. R. Willson, seems to be receiving a liberal share of the public patronage.

Our oyster buyers, with one or two exceptions, are still tied up in Baltimore, having freighted many cargoes during the past four months at a loss. They deem it about as wise to lay there in anticipation of a freeze as it is to continue their usual trips with the oft repeated results of a dead loss.

Mr. Samuel B. Stevens, on Friday, after a lingering illness, passed over the silent river, at the ripe age of 80 years. In his death, our community mourns the loss of one of the oldest, and most respected citizens. He was a man universally beloved in his every day life and character. He manifested the earnestness and zeal which is characteristic of the true christian. Besides the many who mourn his loss as a friend and citizen, he leaves a widow and five children as follows: Samuel B., William, John W. and Romie N. Stevens, and Lillian Downey. The funeral took place on Monday afternoon conducted by Elder S. B. Horton, of the Adventist Church, interment at M. P. Cemetery.

Olden Times

People ...ooked the importance of ...ently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system.

...arsaparilla ...ense.

...Any sarsaparilla is sarsaparilla. True... So any tea is tea. So any flour is flour. But grades differ. *You want the best.* It's so with sarsaparilla. There are grades. You want the best. If you understood sarsaparilla as well as you do tea and flour it would be easy to determine. But you don't. How should you? When you are going to buy a commodity whose value you don't know, you pick out an old established house to trade with, and trust their experience and reputation. Do so when buying sarsaparilla.

Ayer's Sarsaparilla has been on the market 50 years. Your grandfather used Ayer's. It is a reputable medicine. ***There are many Sarsaparillas—but only one Ayer's.*** It cures.

...Fruit Culture.—At the 10th
...of the Peninsula Horti-

...y last, among the most
...delivered were pre-
...ounty fruit growers.
...discussed was: "In
...ranberries growing
...wild in this locality, why would it not be
...possible to successfully cultivate them?"
A. W. Slaymaker, who has devoted six
years to growing cranberries, said that
he is convinced that they may be grown
successfully here if arrangements are per-
fected for flooding the bogs with water
at any time desired. It is not generally
known, but quite a large natural cran-
berry patch exists on a creek near the
home of Mr. James S. Harris. "What
new varieties of early pears are worthy
of culture?" was also discussed. Mr.
James S. Harris said the Losson pear has
produced scale on this Peninsula, and is
of so slow a growth that it is not worthy
of culture. Charles Wright said the
Count is a good grower and a good sel-
ler. The general opinion was that
Moore's sugar pear is the best new va-
riety. President Van Deman thought the
Koontz pear ought to be popular here.
"Is it necessary to plant other pears with
the Keifer as a fertilizer?" was discussed.
Opinions differed. Dr. W. S. Maxwell
was scheduled for an interesting paper,
but we are informed was unable to
attend.

EPWORTH LEAGUE NEWS.

Still Pond Epworth Leaguers Enjoy a Pleasant Programme.

The monthly social feature introduced
into the Still Pond Epworth League has
proven a delightful success, and during
the past fall and present winter no small
amount of pleasure has resulted to the
members and friends of the prosperous
and thoroughly wide-awake organiza-
tion. The meeting at the home of Mr.
and Mrs. William D. Pennington, on
Thursday evening was one of those ideal
occasions rarely surpassed in local
League life. In the regular order of
business William H Krusen was elected
president, to fill the vacancy caused by
the recent death of Mr. I. R. Starkey,
former president. The following com-
mittee was apointed to draft suitable reso-
lutions of respect relative to the death of
their late lamented executive officer.

Refreshments, consisting of chocolate,
coffee, fruits, cake, etc., were enjoyed,
after which a highly pleasant feature
was entered into, which might be termed
a geographical spelling bee. The names
of twenty-five American cities were
placed on a blackboard, each name being
incorrectly written. The one writing
the greatest number of these names as
they should be spelled was to have a
handsome prize.
