MILLINGTON TOOK LEAD IN RAINFALL DURING MAY

May, 1940, was about normal in temperature in Maryland and below normal in Delaware, while the precipitation was above normal in both States. The number of days with rainfall was the highest of record for the month of May.

In Maryland, 50 stations reporting to date, the average rainfall was 4.35 inches, or 0.85 inch, above normal and 124% of normal. The greatest amount was 6.38 inches at Millingto nand the least 2.74 inches at Silver Spring. The greatest 24-hour amount was 3.62 inches at Bell on the 20th. There was a trace of snow during the afternoon and night of the 3rd in the Alleghany Mountain region. The average temperature was 63.0 degrees, o r0.4 degrees above normal. The highest average was 65.5 degrees at Crisfield and the lowest 54.4 degrees at Sines. The highest temperature was 93 degrees at Dundalk on the 14th and the lowest 23 degrees at Oakland on the 12th.

In Delaware the average temperature was 61.7 degrees, or 1.4 degrees below normal. The highest average was 62.6 degrees at Milford and the lowest 59.3 degrees at Delaware, Breakwater. The highest temperature was 91 degrees at Millsboro on the 14th and the lowest 33 degrees at Millsboro on the 11th. The average rainfall was 5.23 inches, or 1.78 inches above normal and 152% of normal. The greatest amount was 6.05 inches at Dove rand the least 2.63 inches at Delaware Breakwater. The greatest 24-hour amount was 2.62 inches at Milford on the 16th to 17th.

National Guard

A member of the national guard draws the same pay as a member of the regular army for each time he drills. A member of the national guard drills 48 times each year and goes to camp for 15 days. While in camp he also receives the same pay as that paid the regular army.

Mrs. Susie Manning spent last week with her son, James Manning in Coatesville, Pa.

HEARING SET FOR WAGE-HOUR HEARING

Congressman David J. Ward has received the followni communication from the office of Col. Philip B. Fleming, Administrator, Wage and Hour Division, U. S. Department of Labor, entitled, "Applications for Seasonal Exemptions from Canners and Packers will be considered":

The Wage and Hour Division will entertain applications for an additional seasonal exemption of the canning, packing, etc., of fresh fruits and vegetables.

Colonel Fleming stated that on March 18 he began an investigation of the effect which the definition of area of production has had upon the fruit and vegetable industries—canning or packing. The first step was a series of informal conferences in the actual scene of operations in the field. This has been followed by formal hearings held in Washington. Analysis of the records and a decision on redefinition of area of production will take some further time. However, it has already been reported to Colonel Fleming that many members of the industries state that their urgent need is for an additional 14 workweeks overtime exemption beyond the 14 workweeks overtime exemption allowed by Section 7 (c) of the Act.

It appears, therefore,that the seasonal problem is closely related to the area of production problem. In view of this, Colonel Fleming expressed his willingness to receive applications from the fresh fruit and vegetable industries for classificatoin as industries of a seasonal nature, under Section 7 (b) (3) of the Act. If such applications are received, they will be promptly set down for hearing and the decision will be made on the evidence adduced at the hearing.

Colonel Fleming further explained that if the evidence at such a hearing shows that the packing or canning of fresh fruits and vegetables is of a seasonal nature, then the industries will have, in addition to the 14 workweeks exemption they now enjoy, a second 14 workweek exemption with freedom from overtime during the latter period up to 12 hours per day and 56 hours per week. This does not affect the requirement to pay at least 30 cents an hour.

When a good salad is the featured course of a luncheon or supper, a superb beer such as NATIONAL PREMIUM is a most acceptable accompanying drink. This outstanding example of the fine art of brewing is another Maryland contribution to the fine art of pleasant living. Costly but worth it. Available thruout the U.S.

THE TRUTH SIMPLY TOLD
Today's popularity of *Doan's Pills*, after many years of world-wide use, surely must be accepted as evidence of *satisfactory* use. And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions. These physicians, too, approve every word of advertising you read, the objective of which is only to recommend *Doan's Pills* as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes.
If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.
Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.
Use *Doan's Pills*. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. *Ask your neighbor!*
DOAN'S PILLS
