THE NEWS THAT'S TOO BIG FOR THE BILLBOARDS!

This month—on billboards throughout this territory—the Gulf poster below is on display. Because the news it tells is important to all motorists, we have taken this opportunity to give you the *full* facts.

ONE GLANCE AT THIS POSTER has probably told you that both Good Gulf and Gulf No-Nox gasolines have been stepped up. But what the billboard couldn't explain is that this is not a symbolic picture *but an accurately drawn graph!*

This chart shows you the relative boosts in anti-knock value—shows *by direct comparison,* how much these two great fuels have been improved. What's more, these improvements are tangible . . . step ups that can make a real difference in your car!

The step up in regular-priced Good Gulf gives it an extra performance "plus." The improvement in Gulf No-Nox—which was already knockproof under *all* normal operating conditions—makes it tower above its old remarkable high. NO REGULAR GASOLINE—NOT ONE—CAN COMPARE WITH GULF NO-NOX!

FREE "21 Ways to Save Money." This helpful booklet is yours for the asking at your Good Gulf dealer's. Get your copy right away, at the Sign of the Gulf Orange Disc.
