DEMOCRATIC PRIMARY MEETINGS!

The Democratic voters of Kent county are requested to meet on SATURDAY, AUG. 20, 1898, at 2 o'clock P. M., for the purpose of selecting delegates to meet in Chestertown, on TUESDAY, AUGUST 23, at 11 o'clock A. M., to select delegates to the Congressional Convention for the First Congressional District, which is called to meet at Ocean City, August 25. The primary meetings will be held in the districts and precincts as laid down in the new election law, and Five Delegates will be chosen from each district, namely:

First District—Millington Precinct, five delegates, one-half vote each.
" " —Galena precinct, five delegates, one-half vote each.
Second " —Kennedyville.
Third " —Worton.
Fourth " —Court House, Chestertown.
Fifth " —Rock Hall.
Sixth " —Fairlee.
Seventh " —Pomona.

By order,

RICHARD D. HYNSON,
TILGHMAN SHAFER,
WILLIAM E. KEYSER,
State Central Committee for Kent County.

SPAIN, it is generally believed, has discovered that her national honor is satisfied and it is believed that the Hispano—American war is at an end.

ARRANGEMENTS are being made to allow New York's volunteer soldiers to vote in the elections this fall. The men will of course be compelled to vote during active service, in the field.

THE SUPREME COURT of New Jersey in a recent damage suit for the death of a child, gravely declared that one dollar would be nearer the value of a child than five thousand dollars which several jurors desired to award.

SOMERSET IS TO TRY Kent's experiment of introducing politics into her public school system, and as a result Robert F. Duer, Esq., is slated as the republican examiner to succeed Examiner Dashiell, democrat. Mr. Duer was a graduate of Washington College in 1891, and was very popular in Chestertown.

STEVENSON ARCHER, ex-Secretary of the State of Maryland, broken in health, dejected and poor, but respected and loved by a vast number of persons, died at the City Hospital, Baltimore, on Tuesday. Faithfulness to friends was a characteristic of rare beauty in the life of this peculiarly unfortunate man.

EDITOR DOWNHAM repudiates the charge that politics is playing an important part in the trials of United States Senator Kenney and others charged with complicity in the looting of the Dover bank by William N. Boggs. The Middletown editor then proceeds to make the following political analysis of the cases; in the case of Senator Kenny the jury which was discharge stood five for conviction and seven for acquittal. Of those voting for acquitial five were democrats and two republicans. Of those voting for conviction four were republicans and one democrat. Does this explanation explain to any great extent? Still it is to be sincerely hoped that the fine Italian hand of the irrepressible Addicks may at no time appear in these cases.

AN OFFICIAL CIRCULAR issued by State Entomologist W. G. Johnson, gives the average yield of wheat per acre for the entire State as a fraction more than twelve bushels. The circular says: This in comparison with the average yield for ten years past, is about three-fourths of a crop. The average for the entire northern tier of counties, including Montgomery, is 14 4-10 bushels per acre, while that of Washington, Frederick, Carroll and Montgomery alone is 16 bushels.

"On the Eastern Shore, Cecil, Kent, Queen Anne and Talbot together yield 16½ bushels. In the five counties south of Talbot the yield is slightly more than 8½ bushels, while the four southern counties on this side of the bay average 8 1-10 bushels. The average yield by counties is as follows: Washington leading with 17 8-10 bushels; Garrett, 12; Allegany, 13; Frederick, 16 2-16; Carroll, 13; Harford, 13 5-10; Baltimore, 14½; Montgomery, 17; Howard, 12; Prince George, 10; Anne Arundel, 8; Charles, 7 5-10; St. Mary's 7; Calvert, 8; Cecil, 17; Kent, 16, 4-10; Queen Anne, 16; Talbot, 16 6-10, Dorchester, 9 3-10; Wicomico, 7 3-10; Worcester, 10; Somerset, 7; Caroline, 9.

"The shortage of the crop is due to the Hessian fly, which was very abundant and destructive to the early sown wheat; secondly, to the wet spring, accompanied with unusual cold weather in April; thirdly, to the drought, which prevailed during the latter part of May and June and fourthly, to the attack of several fungus diseases, prominent among which were rust, smut and a new disorder known as septoria."

FRUIT NOTES.

Peach Crop Less Than One-Fourth of an Average.

The large peach orchards in the Cumberland valley and South Mountain peach belts have been visited by experts in the last few days, and they say that this season's crop will be about one-fourth of last year's crop. The orchard of the Carlisle Peach Land Company, at Huntsdale, contains 11,000 trees, which will, it is estimated, produce only about 5,000 bushels. The peaches are of the St. John's variety. It is estimated that the peach crop in the orchards along South Mountain from Shippensburg to the Susquehanna will be about 30,000 bushels, just about one-fourth of last season. It is claimed that the frost in the latter part of May did considerable damage, and ruined the prospects for the early-bearing trees. The fruit to be marketed in the next few weeks will be of a superior quality.

The investigation of orchard pests being pursued by Prof. Johnson and Prof Townsend, in Washington county, so far shows the worst outbreak of the San Jose Scale in the orchard of B. F. Winder, at Fairplay. Out of 9000 trees 3000 are practically worthless and about 2000 other trees are infested. Other orchards in that section are fairly well protected. About Cherry Run they found an extremely bad condition of affairs. The orchards of J. R. Gilmore, of Chambersburg, containing 13,000 trees, is badly infected with the scale.

IMPRESSIONS ABROAD.

Hurried Pencilings by a Chestertown Tourist in Europe.

Miss Mary Hurtt, whose pleasant wanderings in Europe have several times been referred to in the TRANSCRIPT, has written most charmingly in several personal letters to friends at home. With apologies to the delighted tourist for a breach of strict confidence, the following interesting letter is printed:

FLORENCE, ITALY, July 15, '98.

* * *—There is so much in my head and so many things to tell, I scarcely know where to begin. It seems strange, indeed, that I am way down here in Italy. We left Venice, beautiful, lovely Venice yesterday at 9 A.M., and reached Florence at 6. I cannot half tell you about Venice. It is more than one could imagine, and the grand old palaces, cathedrals and everything; well, they are indescribable. Venice looks as though it had been dropped from the heavens into the sea, and it is absolutely surrounded by water and planted on hundreds of little islands. One does not walk there at all; always in gondolas from place to place. We went through the Royal Palace, across the "Bridge of Sighs" (about which Byron wrote so beautifully) into the awful, most dreadful of prisons. Saw the guilotine on which so many hundreds were beheaded, and I got so nervous I had to come out. It was so dark and oppressively close, I almost fainted. Such a sight! I shall never forget it. It seems so queer, I am treading on the same ground, seeing the same things which so many illustrious, celebrated men have gone and have lived to see. Vienna, too, was most beautiful. We spent four days there. Met the Consul and he was as courteous and kind as possible. He is from Dover, and knows lots of my friends. He called to see me at our Pension (hotel), and took us out to see the sights. Florence is so beautiful. I am quite tired now after having spent all the morning in the Art Galleries and Royal Palaces. The famous pictures that people travel so far to see, are certainly worth a year's journey. To think of standing in front of Ruben's "Madonna" and Titian's "Assumption of Mary," and hundreds of others, from which we see so many copies, is hard to realize. Expenses are terrific. The cab fees are so much, and one does not dare drink water here, hence wine bills are very large. We leave here tomorrow (Saturday) for Rome. Stay there until Tuesday then to Genoa, rare Geneva, Berne, Lucerne, up the Rhine to Rome, Cologne, then to Paris, London, back to Holland and to Bremen on 24th of August. I sail for America on 25th on "Dresden." I will be glad to see dear old America again. It is best of all and I have never appreciated my country and my home as I do now. I see a great many Americans and feel that I know them intimately. I simply hate Italians as a nation and am afraid of them. They are so hungry for money and try their best to cheat one. A young lady from Baltimore (Miss Morris) is my roommate and we go together every place. I am longing to get to Rome.

PULPIT AND PEW.

The following is the unique invitation to a preparatory meeting, received by Mr. Chas. H. Hurlock:

We meet at the parsonage Saturday night
At just a quarter of eight.
We'd like to have your presence there,
(Be sure you don't come late.)

And if your buggy is large enough
To carry more than one,
We would be very glad indeed,
If you'd bring your eldest son.

Do you know our object in meeting?
Well, it is our intention
To prepare some suitable music
For the Christian Endeavor Convention.

Now consider this invitation,
And both of you come in trim
To sing for every cent you're worth
In each and every hymn.

Over twelve hundred persons visited the colored camp being held in Klinefelter's woods, on Sunday. Over 900 five cent admissions were taken in at the gates. The camp is in charge of Rev J. D. Ridout of Janes M. E. Church.

$100 REWARD, $100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional treatment Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, therefore destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of Testimonials.

The Rev. W. B. Costley, of Stockbridge, Ga., while attending to his pastoral duties at Ellenwood, that State, was attacked by cholera morbus. He says: "By chance I happened to get hold of a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and I think it was the means of saving my life. It relieved me at once." For sale by M. A. This is one of the most beautifully located farms in Kent or Queen Anne's counties. It lies on a high bluff commanding a beautiful view of Chester River within full sight of Chestertown, and opposite the fine farm and residences which at this point line the shores of Chester River. It offers an ideal spot to one desiring a proper location for the erection of a country residence. The soil is a rich medium loam, is excellently adapted to truck-ing, small fruits, peaches, pears, etc. The waters of Chester River at this point abound in fish, crabs, oysters, and in winter one of the points offords one of the best blinds for ducks and wild fowl on the river. It has for years been the subject of comment of the citizens of Chestertown that, owing to the peculiarly favorable soil of this farm, anyone who owned the place and tilled it properly, had his choice in his hands in growing truck, &c., for the Chestertown market, which has world-wide fame as being one of the most expensive of markets for vegetables, fruits, &c., and therefore a most desirable one for the growers of same.
