Maryland Russell, 9751.

HANDSOME BAY STALLION,

16 Hands High. Trial Record of 2.40.

Will travel in Kent during the season of 1900.

Service for season, $10; payable during or at end of season by cash or note; $15 to insure. Season mares not proving with foal will have this fall's chance free.

MARYLAND RUSSELL, No. 9751, with a trotting trial of 2.40, is the best-bred big horse in this section. His colts are all good size, are good looking, fine dispositioned; the kind that bring good prices without the expense and risk of training, while those that have had the advantages of track work have been speedy and finely gaited. His sire is one of the greatest trotting progenitors, while his dam is already the dam of Ollie, 2.24, and two others with trials better than 2.40, with very little training, which all goes to show that Maryland Russell not only has speed, but the ability to transmit it.

For the last year of the old century "THE NEW LIPPINCOTT" promises two features of especial importance. The first of these is a series of papers by

Stephen Crane

author of "The Red Badge of Courage" on the

GREAT BATTLES OF THE WORLD.

Since his first book, Mr. Crane has not until now, returned to the subject that made him famous. He alone among authors to day, can adequately describe the

GREAT BATTLES OF THE WORLD.

The second of the striking features of the "New Lippincott" for 1900, is a series of

SHORT STORIES OF MORMON LIFE

BY MRS. J, K. HUDSON.

These are made timely by the new Mormon issue in Congress, but they owe their deep interest not so much to this as to the pathetic, often tragic, revelation of woman's heroic suffering under an odious tyranny.

Mrs. Hudson writes from inner facts, but drapes them in a cloak of glowing fiction.

Farmers, Don't Waste Money!

It strikes us that when a farmer is about to buy his fertilizers that he should think, and if he thinks, he cannot help but know that T. R. HUBBARD & SON are in a better position to give him more for the money than anybody else.

TRADE MARK

1st.—This season closes their 49th season in business. This is a long time in any business, and then to be that long and do more all the time, certainly speaks well for the goods.

2d—After all these years in business they have greater capital to purchase and buy everything for cash, which enables them to buy to the best possible advantage.

3d—Doing business in four States with a greater home trade each year, as well, gives them an increased sale of over a thousand tons more business in last 15 months, which enables them to buy materials in a very large way.

4th—Thus the cost of manufacturing is not as much as other people's, especially city manufacturers, who pay large ground rents, large office rents, more to labor and all sorts of employees, and have no better factory and are no more capable of manufacturing in any particular. We can actually demonstrate a difference of $1.00 per ton in this item alone.

5th—We are not in the Trust, are not dictated to as to what we shall and shall not do, are opposed to trust methods and are opposed to boycott. We have not advanced prices $2 50 per ton as they have done.

6th—We never had more and never had better materials than we have now on hand. We never had contracts for future supplies made longer ahead. We never were in better position to sell you in competion with other people than now.

7th—We never had greater facilities to expedite business. We never had a greater corps of helpers for service. We never had greater success for guidance. We never had greater faith for inspiration. We start out this year searching for business, and it will pay a farmer to look in our direction. Therefore

GREEN PEA LOUSE.

Appearance of the Pest on the Vines and Clover in Frederick

The green pea louse, which has been the dread of the farmers and pea growers in Frederick county, has made its appearance on the early vines. Harry B. Witter, who is a large grower of peas, found a number of the pests on his vines. In going over a two-acre lot of early clover he found that the insects had practically destroyed it. The pea louse made its first appearance in Frederick county last season, and so great were its depredations on the growing crops that one grower plowed under 50 acres with the hope of destroying the bug. Prof. Willis G. Johnson, State Entomologist, says the insect has been known to science less than a year, and only received its scientific name in February last, "nectarophora destroyer. It is one of the most important pests and is already commanding the close attention of growers of peas all over the country. The female produces living young, which reach maturity in 10 to 15 days, and less time in hot weather. The rate of reproduction is enormous, and Professor Johnson says the death of one mother insect is equivalent to the death of 1,777,480 in four weeks.

MASCULINE LAWYER DONS SKIRTS.

Disturbed the Dignity of the Court but Won his Case.

Charles T. Caldwell, one of the best-known members of the West Virginia bar, created a sensation in the circuit court of Parkersburg a few weeks ago by appearing in skirts, says the Argonaut.

His reason for assuming female attire was that he desired to impress upon a jury trying the damage suit of a female client against the electric railway company how easy it was for a woman's skirts to catch upon the car brake, and how the brake-dog would twist the skirt in such a manner as to put her violently forward instead of tripping her feet from under her.

Mr. Caldwell, who is a very large man and weighs in the neighborhood of 300 pounds, wore a dress much too small for him, and his appearance totally disrupted the dignity of the court. The trick won, however, and his client was awarded substantial damages.

A SCRAP OF PAPER.

The Play Finely Presented Before a Large Audience at Church Hill.

The play, "A Scrap of Paper," so successfully presented in Stam's Hall by the Athletic Association of Washington College on Friday, May 4th, was taken to Church Hill last Saturday evening and given for the benefit of the Ladies' Aid Society of St Luke's P. E. Church. The college students left here in carriages about 4.30 P. M., and arrived in Church Hill in time to partake of a splendid supper which had been prepared for them by the ladies of the society. The curtain rose on the entertainment about 8 p. M., in the presence of a larger audience than had greeted a play there for many a day. The young amateurs, in the opinion of those who saw both renditions, acquitted themselves better than in their first attempt, and received the congratulations of every one in the hall. Refreshments were served to the caste after the play. The party left about 10.30 and arrived in Chestertown about 11.30, well pleased with the trip.

COAL AT THREE DOLLARS PER POUND.

It Was Like Shoveling Silver Dollars in the Fire.

Did you ever see coal that was worth three dollars a pound? asks a writer in Power. There was some burned in Washington a short time ago under circumstances which made it worth just this amount. The Government contracted with the Barr Pumping Engine Company for a pumping plant for the city of Washington, and agreed to furnish a certain amount of coal to run the acceptance test. For ten days the engine was run, delivering a certain amount of water against the given head, and for every twenty five pounds of coal remaining after the test was finished the pump company received seventy-five dollars. The engine earned a handsome bonus, but every time the man threw a scoopful of coal into the fire it was just like throwing in fifty silver dollars.

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and procured a bottle of this remedy. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. LYNCH, Dorr, W. Va. This remedy is sold by M. A. Toulson, druggist.
