Democratic Primary Meetings.

The Democratic voters of Kent county, are hereby notified to assemble in primary meeting in the several districts, at the usual places of holding primary elections, on

SATURDAY, the 26th day of May,

1900, for the purpose of choosing delegates from each district to assemble in County Convention, on

TUESDAY, the 29th day of May,

and elect six delegates with a half vote each, to the State Convention to be held in Baltimore on June 5th, the duty of which convention is to elect four delegates from the State at Large and two delegates from each Congressional District to the National Democratic Convention to be held at Kansas City on July 4th, to nominate a candidate for President and a candidate for Vice President of the United States, and also to choose two electors from the State at Large and one elector from each Congressional District, favorable to the election of the candidates for President and Vice-President nominated by the said convention at Kansas City.

The County Convention, hereby called, is also required to choose delegates from Kent county to the Congressional Convention to be held at Ocean City on August 15th, for the purpose of nominating a candidate to represent the First Congressional District of Maryland in the 57th Congress of the United States, and also a candidate to fill the unexpired term of Hon. John Walter Smith in the 56th Congress.

By order of the State Central Committee for Kent county.

RICHARD D. HYNSON,
TILGHMAN SHAFER,
WILLIAM E. KEYSER.

THURSDAY was the eighty-first anniversary of the birth of Her Majesty, Queen Victoria

WILLIAM D. OLDHAM, of Nebraska, has been selected to place William Jennings Bryan in nomination at the Kansas City convention.

SENATOR WELLINGTON may be correct in declaring that he is not a democrat, but he is certainly far out of plumb as an administration republican.

DR. J. H. W. G. WEEDON, of Church Hill, remains in the Congressional fight in Queen Anne, and has stated that he will run a delegation in his home district in to-day's primaries.

POOR CUBA IS NOW ENJOYING some of the republican blessings which were so lavishly visited upon the south during the palmy days of reconstruction. Official rottenness in high places is now rampant in the island.

WITH HIS SOUL in his calling, all things being properly weighed and balanced, the man who plants should in this year, 1900, be happy and contented.—*Balto. Herald.*

As a rule, both the soul and body of the "man who plants" goes into the financial wallet of the trust and the millionaire.

THE ROAD BILLS as passed by the Kent county commissioners are furnishing "some mighty interestin readin," declared an old democrat several days ago. Continuing, he said,—"I don't exactly know what they means, but I reckon the next local 'lection will clare the atmosphere a leetle."

CAROLINE COUNTY DEMOCRATS have instructed their delegates to the State convention to vote only for Bryan and Chicago platform delegates. Somerset county elected delegates which are to vote for Bryan, and adopted resolutions denouncing imperialism, and endorsing the administration of Governor Smith and the leadership of Joshua W. Miles.

JAMES R. KEENE, the millionaire New York broker who poured his wealth into the McKinley campaign fund in 1896, put a quietus upon a McKinley inflationist several days ago by offering to bet $7,500 to $10,000, that William J. Bryan will defeat McKinley this fall. Faith in Bryan is being backed by money in a way to terrify the bluffers of Mr. Hanna's campaign.

THE UNITED STATES SUPREME COURT on Monday decided that John C. W. Beckham," the democratic contestant, was Governor of the State of Kentucky. This ends one of the most notable political contests in American history. The court, however, was not unanimous in regard to the question of interfering in behalf of Taylor, the republican, who was inaugurated governor in January of this year.

DEMOCRATIC PRIMARIES will be held throughout Kent county this afternoon, commencing at 2 o'clock. Kent will have no congressional candidate, but this fact does not relieve the voters of a grave responsibility to their party and State. Kent should, and doubtless will send delegates to the respective conventions who will have the best interests of the whole people very much at heart.

THE WASHINGTON COUNTY peach belt is set down for two hundred and fifty thousand bushels of peaches this season. The Eastern Shore grower has learned from bitter experience that it is not a safe thing to measure peaches while they are in blossom. The crop of one Washington county grower is placed at sixty thousand bushels.

EMPLOYES OF THE UNITED ELECTRIC LIGHT AND POWER COMPANY, are on a strike, and Baltimore has been left in darkness. Mr. Meeteer Wallis, who has spent several days of this week in the city says many of the streets were very dark. During services at Emmanuel P. E. Church, on Thursday evening, because of some mishap at the Chestertown electric light station, the congregation was left in total darkness.

THERE IS A GREAT WAR among some of Kent Island's politicians. A Kent countian who visited "Little Britain" this week, declares that affairs are, as the boys express it,—"red hot and still a-heatin'." The *Observer* says: "The bitter contest being waged on Kent Island between the Democratic factions, is about the most amusing exhibition of silliness that local politics has evolved for many a day. With nothing in prospect but 'local prestige, or a desire to 'down somebody,' our Kent Island friends are making a sorry exhibition of themselves."

THE BOARD OF PUBLIC WORKS is being literally flooded with applications for appointments to positions in the oyster navy. The commandership of the Anna B. Smith is the only plum which will come to Kent. The police boat has been a white elephant on the hands of both parties for years past, and both democratic and republican leaders would gladly welcome some permanent solution of the knotty problem of dealing with the police boat appointments. The appointments must be made before June 1, though no date for the meeting of the Board of Public Works has as yet been set.

IN DISCUSSING republican politics on the Eastern Shore, the Baltimore correspondent of the Philadelphia *Record*, has discovered an undercurrent of dissatisfaction and mistrust of republican leaders. A slumbering volcano, it is claimed, exists which may break out in open eruption at a most inopportune time for republican success on this side the Chesapeake. The real fight, it is insisted, did not come out in the State convention, but may appear later. McComas, the republican chief of the Western Maryland clans, threw the weight of his influence with Goldsborough, and he won. The only votes cast for Jackson were from Wicomico, Talbot and Kent, with one vote from Caroline. Kent, it is claimed, "was sore because of the treatment its candidate for district delegate received, who was thrown down at Salisbury, partly, it is said, through the instrumentality of Goldsborough."

WHETHER OR NOT the action of Baltimore and Caroline counties in sending "instructed" delegations for Bryan have a tendency to foreshadow what the State convention may do, remains to be seen. The probabilities are, however, that Maryland's delegation to the Kansas City convention will *not* be "instructed" for the Nebraskan. Those members of the democratic party who are insisting that the issue of free silver be relegated to the rear in the approaching campaign, though it be necessary to force Mr. Bryan from the national ticket by defeating him at Kansas City, should first settle the question from the standpoint of party expediency, as to whether or not the defeat of Mr. Bryan would not cost the party a greater number of votes than any other candidate could draw from the ranks of the gold democrats. With the great national shame of imperialism and trusts as represented by the Hanna-McKinley administration confronting the American people, the most pertinent issue is democratic success. After conceding that every evil which the enemies of Mr. Bryan claimed would follow his election, would have inevitably taken place, the people would have been the gainer both in life and treasurer. No financial condition which Mr. Bryan could have possibly brought about as president, could have been more than transitory. We are a great people and the work of correcting existing evils and re establishing "national honor," would have been speedily accomplished. On the contrary, the evils which have followed in the wake of the McKinley policy of territorial outlawry and trust-making, have brought the American people face to face with national scandals and embarrassing complications which promise to be far more enduring than our once boasted "free institutions." As between Bryanism and McKinleyism, no democrat need feel any degree of embarrassment as to how he should vote. The issue as joined is, the people and American free institutions on the one side, as against imperialism, trusts and centralization of power, on the other.

An Epidemic of Whooping Cough.

Last winter during an epidemic of whooping cough my children contracted the disease, having severe coughing spells. We had used Chamberlain's Cough Remedy very successfully for croup and naturally turned to it at that time and found it relieved the cough and effected a complete cure,—John E. Clifford, Proprietor Norwood House, Norwood, N. Y. This remedy is for sale by M. A. Toulson, druggist, Chestertown, Md.

NEW PAVEMENT ASKED FOR.

A number of citizens and tax-payers of Chestertown are desirous that the town commissioners extend the pavement at the east end of the TRANSCRIPT Building, along the end of the square to the walk crossing the square diagonally and ending in front of the store of Wm. Maull. At the end of the pavement it is desired that a crossing be placed leading to the pavement on the south side of High street. The walk now extending across the square ends in the middle of the public driveway, in a sink, which is filled with water or mud during a wet season and ankle-deep dust during the spring, summer or fall. This change would not only add greatly to the convenience of persons frequenting this business centre of the town but would add greatly to the improvements already completed. This request is highly reasonable and would not entail an expense of such a nature as to call forth the objections of the tax-payers, since the tax-payers of this section are extensive and uncomplaining contributors to improvements in every other section of the town.

HURRY THE WORK.

TO THE EDITORS OF THE CHESTERTOWN TRANSCRIP—*Gentlemen* :— A word of suggestion to the committee, which was appointed by the Legislature for the erection of a public school building in Chestertown, may not be amiss. Would it not be well for this committee to place itself in immediate consultation with some responsible architect, have plans prepared, and determine what is to be done? The very best part of the year is passing by for building operations. Unless something be done immediately we will have the plastering and finishing work done in freezing weather, and the result will be cracked walls, a bad job of plastering, and a school building probably unfinished until next Spring. This is merely a suggestion. I have heard several citizens say they would gladly advance the necessary funds for the employment of an architect, and for the expenses of the committee in determining all preliminary questions, including the condemnation of land, etc. (if no suitable site can be purchased,) and then the committee could reimburse such advances after the bonds have been finally sold. What is the use of waiting until the bonds be sold before taking the necessary preliminary steps? It will take nearly two months to prepare plans, advertise for bids and give builders an opportunity to make intelligent bids. Why then not begin and save valuable time? The committee has the power to proceed. CITIZEN.
