WM. S. GORDY, JR., of Salisbury, the newly elected Comptroller, took the oath of office Monday and became Comptroller of the State, succeeding Comtroller E. Brooke Lee. The oath was administered by Governor Ritchie in his sick chamber at the Executive Mansion, the Governor being too sick to leave his room.

A MERITED RECOGNITION

The election of Mr. W. B. Copper to the presidency of The Third National Bank of Chestertown by the directors of that institution last week is but a well-deserved recognition of his ability as a banker and the confidence in which he is held by those who have long been associated with him in the bank. He was the first cashier and has ably and satisfactorily filled that position until his election to the presidency. He gave the very best years of his life to its interests and its advancement shows the results of his faithful services and good business judgment. He is a man of a pleasing manner and courteous treatment, accommodating and ever ready to do a friendly act, and we believe the bank, under his guidance, will prosper in the future as in the past. Mr. Copper's prominence in the banking circles of the state has been demonstrated by his having been elected president of the Bankers' Convention of this state and a delegate to the National Bankers' Convention. His friends number many of the most prominent bankers and business men of this state.

THE LEGISLATURE

What Is Going On At Annapolis, Maryland

Bills and constitutional amendments to redeem the important platforms, and promises of the Democratic party were introduced in the two houses on Tuesday night as follows:

Reorganization of the State Government.

Increase of Baltimore's representation in the General Assembly.

Reduction of the number of elections in Maryland.

Two bills and one constitutional amendment removing all political disabilities which now operate against women.

State Superintendent Cooks' School Bill.

Budget Bill.

State Militia Reorganization Bill.

Among a large number of other measures introduced was the Soldiers' Bonus Bill. This measure has a referendum feature attached and specifies sources by which the needed revenue would be raised. It provides for payment of $10 for each month's service, with a 25 per cent increase for combat service.

The Fewer Elections Bill has been drafted and it provides among other things the shortening of the terms of the present office holders one year and the reduction of expenses of many of the present commissions.

THE WOODROW WILSON FOUNDATION FUND

Drive Now Being Made In This Country To Raise $1,000,000 To Perpetuate The Ideals Of The War President

It is a well-known fact that a drive is now on to raise $1,000,000 to establish what is to be known as the Woodrow Wilson Foundation Fund.

Dr. Samuel T. Elliott explains that the purposes of this Fund are twofold: "First, to establish certain awards for conspicuous service to common good, and thereby to perpetuate the ideals we identify with Mr. Wilson's name; and second, to honor in his life-time a great American. He pointed us to a splendid vision, and we do not propose to let that vision altogether escape the light of common day."

The Fund will be administered by fifteen eminent trustees and is planned to emulate the Nobel prizes, by annual awards to those who have performed great public services.

Mr. Hamilton Holt, in his speech at the time the movement was inaugurated, in reviewing Mr. Wilson's public life, says of him: "He has made a great ex-president. He has signed no round robin. Like the great Apostle, he fought a good fight, he kept the faith. Let's stand up with him, and be counted."

Theer are those of us in Kent who wish to be counted as admirers of this greatest living martyr of the World War. We make our contribution to this Fund as a means of expressing an admiration of which we are not ashamed, but of which we are exceedingly proud.

There are those of us in Kent who would like to contribute, and by so doing so honor the greatest American citizen of this age. Mrs. W. W. Hubbard has been named to take charge of the fund in this county.

When the League of Nations was before our people, not less than six hundred persons signified to me that they were heartily in favor of it. That was one of our great President's ideals. It failed to be sanctioned by the national vote, but out of its failure grew the present Conference for Limitation of Armaments. We sincerely hope it may succeed. We are not jealous of any person, party or means by which the possibility of war may be eliminated. With whatever measure of success the conclusions arrived at by the nations now in consultation at Washington may meet, Woodrow Wilson "blazed the way."

S. S. HEPBURN.

In connection with this service the pastor will receive a class of preparatory members. He received a class of twenty preparatory members last Sunday morning. Nearly fifty persons have thus far professed conversion. At the Synod Meeting of the Third Department of the P. E. Church, which embraces the Dioceses in the states of Pennsylvania, Maryland, Virginia and West Virginia and the District of Columbia, it was determined to form an association of laymen who would be active in all branches of church work; also to use every effort to promote work with other Christian bodies in the interest of unity with them. Bishop Davenport has appointed Mr. Thomas W. Perkins to represent the Diocese of Easton. He was present at a largely attended meeting in Philadelphia last week.

Senator Frick, of Baltimore, has introduced a bill to give to women the same privilege in the P. E. Church that is accorded to men. A similar bill was introduced in the last legislature but was defeated.

How to strengthen the churches financially and increase the Methodist Protestant congregations of the Delmarvia Peninsula is being threshed out by the leaders of that denomination in Delaware and the Eastern Shore of Maryland. In discussing the problem, Rev. Dr. James H. Straughn, of Baltimore, president of the Maryland Annual Conference, states that the salaries of the pastors are so inadequate that few young men are entering into the ministry and that it is becoming necessary to build up the weak churches, so that a sufficient sum may be paid to warrant the ministers on the circuits assuming charge of them. In some sections of the Conference, it is stated, there are rural churches which only pay toward the pastor's support about $300 a year. At the last session of the Conference, in April, a resolution was adopted making the minimum salary of any pastor $1200. If there are deficiencies, or if a church is unable to raise that amount, the remainder comes from the funds of the Conference.

To Each of Our Subscribers You Are One of Our Customers

WE would like you to be a partner in the telephone business.

If you become an owner of one or more shares of the American Telephone and Telegraph Company you become a partner in the Bell Telephone System.

An investment in the stock of the American Telephone and Telegraph Company does not depend solely upon the earnings of any one Company in any one State. A stockholder in that Company becomes a part owner in the Nation's telephone service.

The number of shareholders is now over 175,000; an increase of more than 35,000 since January 1, 1921. More than 75,000 of our employees are now making payments for stock purchased by them on an easy payment plan and over 23,000 of these hold shares already paid for.

It would be to the interest of all concerned if every telephone user and every employee also were a shareholder in the American Telephone and Telegraph Company.

We believe that there is no stock issued by any corporation which, considering safety and the return on the money, is a more attractive investment than American Telephone and Telegraph Company shares.

The stock can be bought, at the prevailing market price, through any bank or banker in the country. Each share has a par value of $100, a property value of more than $185, can be purchased for about $115 and pays a dividend of $9.00 each year, payable quarterly.

If you can pay for the stock only gradually we are prepared to make arrangements by which you can, through a reliable bank or banker, pay in installments.

We shall be glad to send you, upon application, the full details as to the management, financial position, earnings, and history of the American Telephone and Telegraph Company, and the details of the means to be taken by you to purchase the stock, either outright or in installments.
