DEMOCRATS ORGANIZING.

Pursuant to the call for organization issued by William Jennings Bryan and Adlai E. Stevenson and published in the TRANSCRIPT last week, Kent county democrats have commenced the work of perfecting organizations. At a meeting held at the office of H. W. Vickers, Esq. last week a preleminary organization was effected, since which time the roll has swelled to one hundred and eighty members.

A meeting for the permanent organization will be held in the hall over the TRANSCRIPT office at 7.30 o'clock tonight. A general invitation is issued to those interested in the present campaign, to join.

A club will be organized at Kennedyville to-night the meeting to be held at 8 o'clock. The democracy of this district are fully alive to the paramount issues of the campaign and propose to form an active club for work.

The democrats of Galena held a preliminary meeting last week when Dr. J. W. Latimer was made chairman and William Hicks secretary. Mr. Haywood Wallis, an enthusiastic supporter of the ticket, made a ringing speech in stating the object of the meeting. Galena democrats will meet for formal organization on September 6.

CHESTERTOWN'S WATER SUPPLY.

TO THE EDITORS OF THE CHESTERTOWN TRANSCRIPT.

Gentlemen:—The question of the water supply of Chestertown is a serious problem. The prevalence of typhoid and like fevers now and their constant recurrence call our attention sharply to its solution. It seems that the wells supplying the water works are impure, and no analysis made by the best laboratories has ever shown that the water is pure or fit for drinking purposes. The only way to secure pure water for our people is to start a new water company. If the water furnished be impure then no one wishes to use the water of the present company, nor would they give anything for the plant. The proper, indeed, the only course for the people of Chestertown to pursue is to organize a new water company, drive an artesian well until a free and full supply of pure water shown by chemical analysis, is secured. $15,000 would form such a company on a paying basis and at the same time secure an absolutely new plant. An agreement could be made with the town providing for the purchase at the end of 10 years on a 6 per cent. basis. I have heard several gentlemen of the town speak of it, and I have no doubt the requisite capital would be forthcoming if the company were organized. One gentleman of the town who is both able and willing to do so, says he will take $2,500 of the capital stock. Let us hear from others. If necessary let a town meeting be had, or else let a paper be circulated soliciting subscriptions to the stock of such a company. If the mains of the new company were laid with a flow of pure water hardly one house-holder in ten but would ask immediate connection. A stand-ripe on College Hill could afford adequate fire protection, something we never have had, and at the same time give what we are in immediate need of, a supply of pure water.

Yours respectfully,
PURE WATER.

Have you a sense of fullness in the region of your stomach after eating? If so you will be benefited by using Chamberlain's Stomach and Liver Tablets. They also cure Belching and sour stomach. They regulate the bowels too. Price, 25 cents. Sold by M. A. Toulson, druggist.

Mr. WILBUR ELIASON was invited by the management of the Easton fair to be present on "politicians day," Thursday.

THE SUBJECT of regulating the use of Chester bridge by foot passengers, was discussed by the board of county commissioners on Tuesday. It is claimed that of an evening the proper use of the bridge is seriously interfered with by persons who repair to the bridge to escape the heat. Some persons have gone so far as to carry chairs on the bridge Stringent rules will be necessary should persons using the bridge fail to observe proper precautions.

THE GROWTH OF TREES.

MESSRS. EDITORS:—The young tree growing in front of my office led to the declaration on the part of one of our Chestertown farmers, that the branch of a tree never got any further from the ground and that to increase the length of the body it must be trimmed up. Meeting with Mr. R. G. Nicholson, the experienced nurseryman, I asked him about it and he said that was correct. Being a new idea to me and not entirely satisfied as to the correctness of the theory, I wrote to Prof. Johnson, the State Entomologist, and for the benefit of others who may be as uninformed as myself, I give Prof. Johnson's reply:

MR. EBEN F. PERKINS, CHESTERTOWN, MD., *Dear Sir*:—Upon my return from the fruit belt of the N, West, I find your query relative to the growth of trees.

In reply would say, that the statement by your nurseryman (Mr. R. G. Nicholson,) "that the branches of a small tree are never a greater distance from the surface of the ground or the base of the tree, than the point from which the branch arises," is practically correct. It is a well-known fact, that plant growth with trees takes place laterally. The trunk and branches increase in size (diameter) by cellular growth laterally. The height of tree or length of limb depends on terminal growth. The length of trunk must therefore depend upon the cutting out of branches as the tree increases in heighth and forms new head. Trusting this will answer your query, I remain very truly yours,

W. G. JOHNSON.

Cured of Chronic Diarrhoea after Thirty Years of Suffering.

"I suffered for thirty years with diarrhoea and thought I was past being cured," says John S. Halloway, of French Camp, Miss. "I had spent so much time and money and suffered so much that I had given up all hopes of recovery. I was so feeble from the effects of the diarrhoea that I could do no kind of labor could not even travel, but by accident I was permitted to find a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy, and after taking several bottles I am entirely cured of that trouble. I am so pleased with the result that I am anxious that it be in the reach of all who suffer as I have." For sale by M. A. Toulson, druggist.
