LOCAL MATTERS.

The Almshouse Farm.—The Almshouse farm was not rented as expected at Thursday's meeting of the trustees. The fine property will be rented at the next meeting of the board.

Supervisors Meet.—The Supervisors of Election will meet in Chestertown on Tuesday June 18, for the purpose of appointing registers of voters for the present year. This is one of the most important matters with which the board will have to deal.

The Flag Received.—The flag presented by Mrs. Thomas Hill, of Baltimore, to the town, has been received, and is said to be unusually handsome. As announced last week, the flag will be unfurled on May 14, with appropriate ex exercises. The rummage sale which had been arranged for the afternoon of the same day has been abandoned.

A Financial Success.—The strawberry and ice cream festival for the benefit of the town improvement was held on the court house green. It was both a social and financial success. Besides a very enjoyable evening, the Association realized about fifty dollars. The ladies feel much gratified and encouraged by the sympathy and cheerful co-operation of the towns-folk generally.

Big Wheat.—Big wheat is a rule and not the exception in Kent this year. Mr. Bartus Trew brought stalks of wheat to town Saturday which measured 64 inches. Another gentleman of Quaker Neck has a field the stalks of wheat in which will brush his chin as he walks through them. He is 5 feet 8 inches in height.

May Weather.—Contrary to general impression the rainfall of May was not up to the average. The records of the Weather Bureau at Baltimore show that there were nineteen rainy days in May, and while the normal rainfall based on observations of 25 years has been 3.78 inches the rainfall for the month just past was but 3.67. The rainfall of April was 5.53 inches.

Everett in Trouble.—Frank Everett, of Kent county, was arrested on Monday by Shereiff Price, and is now in Elkton jail. He got mixed up with John Barleycorn during the day and is said to have gotten very quarrelsome. At Warwick he made an assault upon Joshua Register and John Baker with a knife. Everett will be given a hearing before Magistrate Groves at Elkton, to-day, Saturday.

War Upon Carp.—Many Kent county fishermen have sworn eternal war against the carp. During the present spring months these voracious fish have been playing havoc with the small fry of the more valuable varieties of food fishes. The carp forces the small fish into the small inlets and then proceeds to work his way up the tiny stream devouring everything before him. Armed with a pitchfork fishermen have caught a number of the larger sized carp and speared or forked them before they could escape into broader channels.

A Nervy Fish Hawk.—On the road from Chestertown to Kennedyville, just beyond the White House farm, is an exhibition of feathered nerve, rarely if ever surpassed. A fish-hawk has deliberately built his nest on the top of a telephone pole which stands on the roadside. The birds have done their work with consummate skill. Large sticks are laid acros the telephone wires, and with these as a basis a great pile of sticks and other material used by the fish-hawk in the construction of their nest, has been placed and the super structure carefully reared. The nest is on the very edge of the roadway and could be reached with a carriage whip in the hand of someone in a very high vehicle. This is an unusual case of presumption.

Southern Methodist Day.—Nearly one thousand representatives of the churches of Southern Methodism of Baltimore took possession of the grounds at Tolchester on Wednesday. This was the annual excursion on what is known as Southern Methodist Day. The weather was delightful and nothing happened to mar the pleasure of the day. Rev. W. H. Best, pastor of Fredrick Avenue congregation was master of the field sports, and had arranged for a baseball contest, and potato, shoe and foot races. The Fredrick avenue team won the ball game against St. Paul, the score being 10 to 3. The pototo race was won by Carroll Hammen; the shoe race by Gordon Savage; the foot race by Walter Frizzell, and a prize for throwing a twelve pound ball the greatest distance was awarded Thomas Taylor. There is always a sharp rivalry among the congregations of the Southern Methodism as to which one is to carry most of its members to Tolchester. Emmanuel, Rev. J.O.Knott, pastor took the lead, carring 173; Trinity, Rev. C.M.Hawkins, next, with 116; St. Paul, Rev. C.D. Bolla, carried 111; Fredrick Avenue, Rev. W. H. Best, pastor carried 112; Central, Rev. H. M. Canter, pastor carried 93. The other churches had smaller representations.

Property Conveyed.—Information was received at Chestertown yesterday that the trustees of Mr. Isaac Robinson have reconveyed all the property formerly owned by him back to him and he has conveyed it to the Isaac Robinson Company. This looks as though the Isaac Robinson busines at Chestertown will be continued.

These Had Big Names.—The Centreville *Observer* says: One of the enumerators of Queen Anne in his rounds came across two names that will take the cake for length, namely: Emily Henritta Matilda Mary Susan Elizabeth Margaret Rowena Clara Catherine Maria Frampton Lucas, and John Charles Henry Denny William Nicholas Hayward Bell Frampton.

Crane, Hynson and Valliant.—Since the dissolution of the old firm of Crane and Trenchard Bros; a reorganization has taken place and the firm will be known in the future as Crane, Hynson and Valliant. The business will be conducted along the same lines which have resulted in building up the enterprise to its present important proportions. Mr. Crane, the head of the new firm, possesses a thorough knowledge of the details of the business and is a successful business man. R. D. Hynson, Esq, one of the new members is the popular Chestertown attorney, who will give added strength and popularity to an already popular firm. Mr. William E. Valliant the third member of the firm is young and aggressive and a successful business man. He is in every sense a hustler. It is understood that the Messrs. Trenchard will leave Chestertown and locate nearer the seat of their extensive lumber interests in the South.

And Still He Comes.—Col. Scott Roberts, of the Centreville *Record*, is still in the ring. The gracefully waving fields of wheat ripening unto the harvest, hang pictures of beauty upon the calcamined walls of Col. Roberts' intellect, and in his moment of ecstasy he issues challenges of defience to all comers. Hear him ye men with big wheat, when he says: Mr. George B. Chilcutt, residing on the Valentine Clements farm, belonging to Mr. William J. Price and situated in Piney Neck, this county, on Tuesday brought to the *Record* office the tallest wheat we have seen this season. It was 74 inches and is still on exhibition at our office. Mr. Chilcutt says the rain has beaten his entire field down. Can Kent beat this? A correspondent writes as follows: "You have been talking about large wheat. Mr. Frederick Hall has an average of five feet all over his field, and he has a field of nearly 100 acres. This sample came off his stubble and is not his best wheat."

HAIR HELP

So many persons have hair that is stubborn and dull. It won't grow. What's the reason? Hair needs help just as anything else does at times. The roots require feeding. When hair stops growing it loses its luster. It looks dead.

Ayer's Hair Vigor

acts almost instantly on such hair. It awakens new life in the hair bulbs. The effect is astonishing. Your hair grows, becomes thicker, and all dandruff is removed.

And the original color of early life is restored to faded or gray hair. This is always the case.

$1.00 a bottle. All druggists.

"I have used Ayer's Hair Vigor, and am really astonished at the good it has done in keeping my hair from coming out. It is the best tonic I have tried, and I shall continue to recommend it to my friends."
MATTIE HOLT,
Sept. 24, 1898. Burlington, N. C.

If you do not obtain all the benefits you expected from the use of the Hair Vigor, write the Doctor about it.
