PRESSURE TESTS OF WATER MADE AT CATONSVILLE.

With a view to abandoning the Patapsco river as a source of water supply, pressure tests were made at Catonsville by V. Bernard Siems, Water Engineer. The plans include the building of a reservoir in the Catonsville section in connection with a Water Department yard. Laying of mains for the new service is under way.

The test was for the purpose of determining whether Catonsville can be supplied with water from the Ingleside standpipe. If so, the pressure will be increased and Catonsville given a supply comparable with that of Baltimore, Mr. Siems said.

The new plan contemplates water for Catonsville and Relay from Lake Ashburton, fed from the Gunpowder River. Catonsville now is supplied from the Patapsco river. To meet immediate demands at Catonsville an additional "booster" station will be built to supply water from the Pikesville reservoir.

On Monday (Labor Day) Shiloh Lodge of Odd Fellows will hold a tournament at Granite.

HORSE CAUSES MAN TO FRACTURE WRIST.

While attending his horse, Mr. Samuel Parker of My Lady's Manor, was knocked against the wall of the stable, sustaining a fractured wrist.

BEFORE TWINS WERE BORN

Was Very Miserable. Felt Lots Better After Taking Lydia E. Pinkham's Vegetable Compound

Wyocena, Wisconsin.—"I took Lydia E. Pinkham's Vegetable Compound before my twins were born because my sister used it and recommended it to me. I was so I could scarcely go about my daily work I was in such misery. But after I began taking the second bottle I was feeling lots better. I took three bottles and a half before I was confined and finished the bottle while I was in bed. I got up feeling fine and have taken care of the twins alone ever since. I recommend the Vegetable Compound highly and will sing its praises in the future."—Mrs. Ida Gerbitz, Wyocena, Wis.

It is remarkable how many cases have been reported similar to this one. Many mothers are left in a weakened and run-down condition after child-birth, and for such mothers the care of the baby is well-nigh impossible. Not only is it hard for the mother, but the child itself will indirectly suffer.

Lydia E. Pinkham's Vegetable Compound is an excellent tonic for the mother both before and after child-birth. It is prepared from medicinal roots and herbs, and does not contain any harmful drugs. It can be taken in safety by nursing mothers
