AGED MAN FOUND SLAIN IN LONELY CABIN IN UPPER END OF COUNTY

Son Charged With Crime By Coroner's Jury—Marshal Stansbury Arrests James Stiffler After Breaking Down Barricade At His Home Near Manchester.

James Stiffler, who shot his father, Samuel Stiffler, and who barricaded himself in his home in Carroll county was apprehended by Carroll E. Stansbury, head of the Baltimore County Police Department.

On Sunday evening last, it is alleged, the son, who is 40, was drunk and drove his father, who was past 70, from his home at Hoffmanville, in the "upper end" of the county.

According to Frank Stiffler, a nephew of the slain man, the old man came to his home, a distance of two miles, and told of a fight with his son. Stiffler asked permission to spend the night, according to his nephew, but later returned to his lonely cabin in the woods.

P. J. Hahn, of Manchester, passed the cabin Monday morning and heard groans. A search disclosed Stiffler lying on the floor, apparently near death. Hahn declares Stiffler said his son shot him.

Hahn, after hunting in vain for a doctor, took Stiffler to the office of a physician in a nearby village. He was suffering from shotgun wounds in the head and hips. The man died shortly after reaching the home of the physician.

A jury summoned by the Coroner returned a verdict charging young Stiffler with the killing.

that the Cabinet should be remodeled in some respects forthwith," says the Courier-Citizen. "It was not the sort of Cabinet that a really discriminating statesman would have summoned and we doubt that it is one which a really discriminating statesman can longer tolerate as a continuance.

"To get rid of the men in whom no one really has much confidence is, as we see it, a duty which it would be folly to shrink from. . . The weak sisters ought to go, naturally because they are weak sisters. Suspicion that some are open to even graver objections may not be justifiable, but it certainly exists. What we want now is a thorough going process of overhauling, in order to make the Administration's official family one to be proud of, rather than one to be perpetually apologized for and extenuated."

disposal of the race committee, and Rock Hall, on the Eastern Shore.

Two planes which took first and second place in the 1923 race held at Cowes, England, will be entered by the United States Naval Air Service. It is expected that Lieuts. David Rittenhouse and Rutledge Irvine, who won first and second place last year, will defend the trophy again for the United States.

Great Britain and Italy have signified their intention to enter.

The deed of gift of the trophy allows the naton winning three times out of five consecutive years to retain the trophy, and since the Italians won in 1920 and 1921, National Aeronautic Association officials expect them to make a strong attempt to obtain permanent possession of the trophy. Great Britain and the United States have won once each in the last four years.

A silver cup will be offered as a prize for the winner of one of the races to be held Friday, Mr. Alexender announced.

Frank B. Patterson, of Dayton, O., president of the National Aeronautic Association, will leave for Europe today (Saturday) to create further interest abroad in both the Schneider and Pulitzer races, the later to be held at Dayton October 1, 2, 3 and 4.

NORMAL SCHOOL STUDENTS, 175 STRONG, APPEAL TO LEGISLATURE FOR GREATER BUDGET.

Governor Charges Propaganda In County Schools—Mistatements Alleged—Supt. Cook, Before Joint Committee, Declares His Aim Is Only To Improve Conditions.

(Continued from Page 1)

ed to correct any impression that school funds for the next three years have been cut. They have been increased, he declared. He asserted he will allow no increase that will raise the tax rate above the 27 1-5 cents recommended. He added:

"Of course, I cannot allow the propaganda which the school authorities have spread over the State to have any effect. The methods being used are such that it really ought not to have any effect.

"For example, some teachers are actually making their pupils write letters direct to me for their parents to sign, and I have good reason to believe that the parents are being told that if they do not sign them their children will be punished.

"I have no right, of course, in a matter of this importance, to let this kind of propaganda influence my final judgment as to the amount I will recommend, and I will not. The only things which will influence me are the needs of the schools and the needs of the taxpayers."

Mr. Cook told the committee that the cuts will interfere with the training of competent teachers, citing reports from county boards to prove his contention that the schools have not been allowed enough.

Mr. Cook stated to a representative of The Jeffersonian that if any teachers were forcing pupils to write letterrs, or making threats, it was done entirely without knowledge or approval of himself or the county superintendents. He added:

"I have heard that such a thing has occurrred in one case. I called the county superintendent. He knew nothing about it, and will look into the matter.

"There has been absolutely no statement from any official quarter that the school budget was cut in half for the benefit of the roads. If any teachers have said this, I know nothing about it."

"70 Years Experience"

Announcing The Appointment ... OF ... The Automotive Service Company

As distributors in this territory for the Service Motors, Inc., Wabash, Ind., manufacturers of Service Trucks.

Service Trucks are designed with a thorough understanding of truck-operating conditions. They are built to do the work you will require of them with the minimum of attention or care. They are designed for continuous service under the most exacting conditions. All the valuable features of truck design that our twelve years of specialization in truck-building have developed are embodied in the Service Trucks of today. Experimental construction is rigidly excluded until it is unquestionably perfected and proved.

Service Trucks, while not the highest priced trucks made, are not sold at a low price. If they were, they could not be good, but they are positively the lowest price and cheapest truck in the end, by reason of their long life, comparatively light upkeep expense and reasonable price on repair parts, and their ability to give the greatest ton mileage for the least cost.

MODELS:

1¼-Ton, 1½-Ton, 2-Ton, 3-Ton, 4-Ton, 5-Ton.
