NOTICE TO HOLDERS OF BURIAL LOTS IN CHESTER CEMETERY.

The Chester Cemetery Company by recent action of its Board is now prepared to enter into a contract with its lot owners to keep their lots in first-class order perpetually. This guarantees the owner that his lot will be taken care of, not only after his death but even after the death of all the family.

There is no sadder sight in a cemetery than to see the lot of a one time prosperous owner in weeds, briars, overgrown bushes, &c., and for reason that the family have either all died, removed or else forgotten their duty to the remains of their ancestors.

Those who secure a contract as above will have no apprehensions of this fate to their lots. For terms apply to

AN ACT

To Provide for the Appointment of Seven Game Wardens of Kent County.

The following bill has been sent to Annapolis from Kent county for passage by the Legislature:

Sec. 1—Be it enacted by the General Assembly of Maryland, that the Governor of this State shall, immediately upon the passage of this act, and thereafter on the first day of April in the year 1906, and every two years thereafter, appoint seven Game Wardens for Kent county, one from each of the seven election districts of said county. Each Warden shall have the power to appoint two deputies, whose term of office shall be two years, or until their successors be appointed. The said Game Wardens and deputies shall each receive a salary of twenty dollars per annum, to be paid from the funds realized from licenses paid by persons gunning or shooting in Kent county.

Sec. 2—That immediately after the appointment of the said Game Wardens, they shall meet and elect from their number a treasurer and such other officers as may be considered necessary, and that the treasurer so elected shall give a bond in the penalty of one thousand dollars to the State of Maryland, conditioned upon the faithful performance of the duties imposed upon him by this act, and that his salary as treasurer shall be fifty dollars per annum in addition to his salary as Game Warden to be paid from the funds realized from the licenses paid by persons gunning or shooting in Kent county.

Sec. 3—That the treasurer of the Game Wardens shall receive the funds realized by persons gunning or shooting in Kent county from the Clerk of the Court and shall apply the same, under the directions of the Game Wardens of Kent county, to all proper expenses incident to the protection of game and fish within the limits of Kent county, including the salaries of the Game Wardens and treasurer, and shall apply the remainder of the said fund to the purchase and the propagation of game within the limits of Kent county.

Sec. 4—That the Game Wardens of Kent county shall have all the powers within the limits of Kent county conferred upon the Deputy Game Wardens for the State of Maryland by the Acts of Assembly passed in the year eighteen and ninety-six, chapter 293 and the amendments thereto.

Sec. 5—That this act is not intended to repeal or supersede the Acts of Assembly passed in the year 1896, Chapter 293 and the amendments thereto, except in so far as the same may be inconsistent therewith.

Sec. 6—And be it enacted that this Act shall take effect from the date of its passage.

In The Case Of Miss Willie Wickes.

We recently stated that Miss Willie Wickes after protracted litigations which have been pending for a number of years over the farm in Eastern Neck Island, endeavored to get the court to allow her lawyers, Chas. J. Bonaparte and Wm. Pinkney White, Esqs., fees for services rendered her. The court filed an opinion on March 17th that Miss Willie Wickes did not seek to sustain but to break down the title claimed by all the heirs, she therefore must pay her lawyers fees and charges just as any other plaintiff would have to do.

Mr. Frederick W. Story appeared at the argument for Mr. Jas. W. Stevens the purchaser, and asked that Mr. Stevens should not be compelled to pay interest, on the ground that he had suffered much anxiety and loss on account of not knowing who would eventually get the farm. But the court in its opinion decided that Mr. Stevens by his conduct in taking possession of the farm, making arrangements to till it by putting on the farm his own tenant, placed himself in such a position that he must comply with the terms of sale which were that all unpaid purchase money should bear interest from the date of sale. It is believed that this will be the roundup of the litigations in this now famous case. Mr. Chas. J. Bonaparte argued the case for the fee for himself and Hon. Wm. Pinkney White. Mr. Frederick W. Story argued the case in the interest of Mr. Stevens the purchaser, and Mr. Jas. P. Gorter appeared for all the heirs except Miss Willie Wickes, and resisted the claim of Mr. Stevens. The argument took place at Elkton, on March 7th last.

TWO YOUNG MEN KILLED.

A sad affair occurred at Middletown, Del., on Saturday afternoon, in which two young men lost their lives. The correspondent of the Morning News gives the following account of the occurrence.

In attempting to save the life of his friend, William Maxwell, of Baltimore who had become insane, and who had jumped in front of a freight train, Frank D. Suydam, a young man of Middletown, was crushed to death in the full view of a score of spectators at the Middletown depot Saturday afternoon. Maxwell also was killed.

Maxwell had been employed at Middletown and on Friday night suddenly became insane. Suydam and three other fellow workmen were preparing to take their companinon to his home in Baltimore. They were at the railroad station waiting for their train, when suddenly Maxwell sprang in front of an approaching freight train.

Suydam, who was nearest to Maxwell, sprang after his companion, hoping to drag him from the tracks but it was too late. Both were knocked to the tracks and their bodies ground to a pulp. A cry of horror arose from the spectators who were forced to turn their heads from the sickening sight.

The body of Maxwell was taken to the undertaking establishment of Undertaker William J. Wilson, while Suydam's body was taken to the home of his father, J. A. Suydam. Both young men were about twenty-five years of age and were popular in Middletown.

AN INTERESTING REPORT.

The Twelfth Annual Report of the Bureau of Statistics and Information, prepared by Hon. Thomas A. Smith, chief, has been received. The report covers a large number of very important matters relating to labor, strikes and lockouts, labor organizations, child labor, etc. Much valuable information concerning the State and the natural advantages and manufactures of the various counties is given. The historical information concerning the settlement of Kent connty and the founding of Chestertown is very interesting. In 1648 Kent county had a population of 135 persons. Today the population is nearly 18,000. The following very interesting statistics are given concerning Kent county:

Agriculture.—Number of farms, 956; average acreage, 179 acres; value of farms is from $25 to $60; number of farm hands will average 4 to a farm.

Crabs, Fish and Oysters.—No oyster or fish packing factories in the county. 1000 persons engaged in this industry, besides 160 persons employed in transporting vessels, of which there are 48. The oyster catch is estimated at 800,000 bushels.

Needs of the County.—The county's roads need a master hand, but until these are divorced from politics there is little hope of improvement. The roads in Kent cost about $60 per mile every year.

Manufactures—The manufactures of Kent county are numerous, if not exceptionally large, and are of a diversified character. Canning of fruits and vegetables is the main industry of the county.

Canned Goods—Number of employees, 785; total value of product, $180,500; capital invested, $35,000; amount paid annually in wages, $48,250.

Fertilizers—Number of employes, 9; value of total product, $50,000; capital invested, $30,500; amount paid annually in wages, $6,000.

Carriages and Wagons—No. of employees, 15; Value of total product, $75,000; capital invested, $20,000; amount paid annually in wages, $9,000.

Baskets, Crates, etc.—No. employes, 84; value of total product, $90,000; capital invested, $30,000; amount paid annually in wages, $14,000.

Flour and Meal—No. of employees, 9; value of total product, $48,500; capital invested $15,000; amount paid annually in wages, $6,500.

The total capital invested in manufactures is estimated to be $281,950; total value of product, $671,200; total amount paid in wages, $128,275.
