Tickets $10—Halves $5—Quarters $2.50.

Purchase of Ten Tickets ending with the consecutive numbers 1 2 3 4 5 6 7 8 9 0, and you will draw back four-tenths of the amount paid for the Tickets, besides the chances of obtaining capitals: Patrons will find it to their interest to buy Certificates of Ten Tickets, ending consecutively with 1 2 3 4 5 6 7 8 9 0. By this plan they forfeit the Prize ending with the same number as the Capital, and get four more chances in every ten to gain the Capitals.

Certificates of Packages of Ten Tickets. are sold at the following rates, which is the risk:

10 Whole Tickets	$60 00
10 Half Tickets	30 00
10 Quarter Tickets	15 00

It will be perceived, by this plan, that for $60 the purchaser has a certificate of ten tickets, when if he buys tickets, he would only get for that sum six wholes. Thus, by buying certificates, he has four more chances for larger prizes—halves and quarter packages in proportion.

☞ Bank Notes of sound Banks taken at par. Checks on New York remitted for Prizes.

☞ Address Orders for Tickets or Certificates of Packages of Tickets to

$50 Reward.

RANAWAY from the subscriber, living near the village of Nottingham, Prince George's County, Maryland, on Saturday, the tenth day of February, eighteen hundred and fifty-six, negro man JOHN, who calls himself

JOHN JOHNSON.

He is about sixty years of age—has gray hair—is crippled in the left leg—his fingers frost bitten—has a scar on one hand, but which one not recollected—is of black complexion—about five feet five inches high. His clothing not recollected.

He has relations at Dr. Benjamin Lee's and Mrs. Mary Beall's, in the Forest of Prince George's County; has a sister at Clement Hill's, Esq., near Upper Marlborough, and also a sister at Judge Tuck's, in Anne Arundel County.

He was caught the last time he went away upon the plantation of the late Mrs. Mary Beall, and he may be somewhere in that neighborhood now.

I will give a reward of Fifty Dollars for his apprehension—no matter where taken—provided he is brought home or secured in jail, so that I get him again.

Order of Ratification.

In the Matter of the Sale of the Real Estate of Zephaniah Taylor.

IN THE ORPHANS' COURT FOR PRINCE GEORGE'S COUNTY, THIS THIRD DAY OF FEBRUARY, EIGHTEEN HUNDRED AND FIFTY-SEVEN.

ORDERED BY THE ORPHANS' COURT THIS THIRD DAY OF FEBRUARY, EIGHTEEN HUNDRED AND FIFTY-SEVEN, That the sale of the real estate of the late ZEPHANIAH TAYLOR, made by SAMUEL H. BERRY, Executor, on the twenty-second day of December, eighteen hundred and fifty-six, and reported by him to this court, be ratified and confirmed on the third Tuesday in April next, unless cause to the contrary be shown on or before that day: Provided a copy of this order be published in some newspaper printed in Prince George's County once a week, for three successive weeks, before the third Tuesday in April next.

The Executor reports that he sold the Tavern Stand, with the improvements thereon and fifteen acres of land attached, to William A. Murray, for the sum of three thousand and one hundred dollars, he being the highest bidder.

In the next place, he sold the wood land, containing thirty-nine acres and a quarter, to William A. Murray, for the sum of eight dollars and twelve and a half cents per acre, he being the highest bidder.

He then sold another lot of wood land, containing sixty-four acres, to George R. H. Marshall, for the sum of seven dollars per acre, he being the highest bidder.

He then sold a lot of arable land, containing sixty-six acres and a quarter, to Richard H. Beall, for the sum of eleven dollars and thirty cents per acre, he being the highest bidder.

And lastly, he sold a lot of arable land, containing one hundred and nine acres, to William H. Gwynn, for the sum of seven dollars and fifty five cents per acre, he being the highest bidder.

Willard's Patent Planter and Sower.

THIS is an ingenious machine, for which letters patent were granted to Mr. HOZRA WILLARD in May last. It was exhibited during the last season at several State Fairs, always commanding universal admiration. Large quantities are now being manufactured for use during the coming spring, and it is believed that a machine that accomplishes so great a saving of labor, must at once come into general use. It is especially adapted for the South, and our enterprising planters will find it worthy of their attention. The machine is of about the size of an ordinary cart. The following description is from a late number of the *United States Journal:*

"To the agriculturist this is, undoubtedly, the most valuable patent that has been issued for many years.—It is intended for sowing broadcast, covering and harrowing at the same time, for sowing in drills and also for planting in hills, and will accomplish either object as well as could possibly be done by hand. The grain is placed in cylinders, which are made to revolve with the motion of the wheels of the cart. As the holders rotate the grain passes out through the screens to the ground. The seeds are evenly distributed and the machine may be regulated to sow any given amount to the acre with perfect accuracy. The grain is covered by the revolving harrow, which receives its motion from the cart wheels. This harrow revolves with great rapidity in the opposite direction from its forward motion, thus harrowing up the ground instead of matting it down, and tearing to pieces any stubble, sods and manure, and leaving them behind instead of drawing them together in bunches as with the common harrow. The holders can easily be taken off, and the revolving harrow used for mellowing and preparing the ground, which can be accomplished with it much more rapidly and efficiently than with a horrow constructed on any other plan.

"For sowing in drills the harrow is taken off and the guides, as seen in the engraving on the inclined board, are changed so as to make the seeds drop into the drills prepared by furrows, attached just ahead of the board. A coverer for each furrow is attached just behind, constructed so as to hoe the light dirt on to the furrow, and compressing it upon the seeds.

"The arrangement is the same for planting in hills, excepting that the guides are changed so as to drop the seeds into hills. It can be regulated to drop any number of grains in each hill, to make the hills any distance apart, and to cover to any depth that may be required. The attachment for planting and covering is very simple, and so ingeniously arranged as to prevent the lumps and stones from being thrown upon the grain, while it compresses the dirt upon the seeds much better than could be done with eiter hoe or roller.

"Another very valuable feature about this machine is an attachment for preparing cotton seed, consisting of an extra cylinder in which the seed is placed, made to revolve by the motion of the wheels in the same manner as the other. By this arrangement the seed is prepared at the same time it is being dropped from the other cylinder and can be planted with this machine without rubbing or any other previous preparation, as well as other kinds of grain.

"The whole machine is extremely simple in its construction, is no more liable to get out of order, and is as easily worked as any ordinary agricultural implement. Although entirely new, it is no doubtful experiment, as it has been thoroughly tried for all purposes, and its practical operation exhibited during the last season at various State Fairs, commanding in all cases the universal admiration of the whole agricultural community."

The machines are now being manufactured and sold by J. M. EMERSON & CO., No. 1 Spruce Street, New York, at the following

Prices with Right to Use in County:

Machine complete	$100 00
Machine complete without the extra attachments for preparing Cotton seed	80 00
Machine for sowing broad cast, and harrowing only	70 00

$100 Reward.

RANAWAY from the subscriber, living near the Brick Church, in the Forest of Prince George's County, Maryland, on Tuesday, the 16th of September, 1856, negro man BEN, commonly called

BENJAMIN DUCKETT.

I purchased him from Mr. Edmund B. Duvall. His father and mother belongs to Mr. Marcus Du Val, near Buena Vista Post Office, in this county; and he, no doubt, may be found in that neighborhood.

Ben is of a dark ginger color, about twenty-five years of age, five feet ten or eleven inches high; has an impediment in his speech, and when spoken to has a down look and puts his left foot. His clothing not recollected, as he has various kinds.

I will give the above reward for his apprehension—no matter where taken—provided he is brought home or secured in jail, so that I get him again.
