### A Vicious Fellow.

James Jackson, colored, was arrested by Deputy Sheriff Gill last Thursday on the charge of viciously assaulting Mr. Edw. Lusby, at his residence near town. The fellow followed Mr. Lusby into his house and the latter promptly put him out; the negro then dared Mr. Lusby out, but finally went off after making threats of burning, etc. There was no cause whatever for the fellow's vicious attack. Justice Wilkins gave him six months in the House of Correction.

### Hands Wanted !

The managers of the Unicorn Woolen Mills, near Millington, have decided to alter their plans in reference to the manufacture of woolen articles and will make *cotton* goods. The old machinery is being replaced with looms and preparations made to employ about seventy-five hands instead of fifty. In another column will be found an advertisement for hands by Superintendent E. E. Gambrill. Women from 12 to 40 years of age and boys aged 12 and 15 are desired. The houses near the mill rent for $2.50 to $4.50 per month. Under the old management this mill paid over $2,000 per month to employes and much of the money was spent in Millington.

# BENEFACTORS !

## HOW IS IT

Mr. M——, that you can sell goods so much cheaper than they are sold in the city? This question was asked by a man who traded in Balto., before he found us out—we were trying a coat on him at the time this question was asked, with several others waiting to be served so we briefly explained.— we buy from manufacturers just as the clothing stores in cities do, and buy as cheap, for the cash, and in a great many instances they don't; hence we buy even cheaper than some, then our expenses are not one-tenth, again we serve the same people season after season and must and do treat them right. Think of these few logical facts.

## AND COME

examine the line of MEN, BOYS' and CHILDREN'S SUITS and OVERCOATS that are being daily and largely closed out at our ESTABLISHMENT at REDUCED PRICES in order to make room for our large Spring and Summer Lines that are being made for us.

## WE ARE

Selling plenty Suits so low that it would be money saved to even the SMALLER DEALERS TO INVEST, for our large output enables us to buy in such quantities that we can supply them at a satisfactory margin.

## MARK YOU

there is a great percentage of the trade who seem to appreciate our low quotations on RELIABLE WEARABLES. Yet there are some who have never tested us. To these we are talking, for 'tis a foregone conclusion that those who have been customers for a number of years know our methods and have not found us wanting. Hence we adopt the press, open and above board (characteristic of our inside dealings) to let the public know what we are doing, and to show the consumer the RIGHT ROAD to the PROPER PLACE to BUY CLOTHING.

## DOES IT PAY

Well it does pay us, or we should not use the papers as we do. Perhaps the secret lies in the fact that people have such confidence in this firm, that when they see our announcements they KNOW they will find them JUST AS REPRESENTED and it is on this line we conduct our advertising. TELLING FACTS, OFFERING NO BOUQUETS.

## BUT

Justifying everything we claim by a fulfilment of every promise. Hence our announcements are respected. If you have never tried us, investigate this Reduction Sale. SO THEN we are not only benefactors but exemplifiers as well, by setting up a *Correct Standard.*
