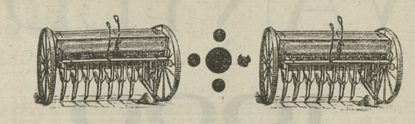
A Wonderful Record !



Last Spring we gave you some poetry ; later, some history ; and now we wish to call your attention to some solid facts, which we want to drill into you. Some fellow might say :

Hyland Sold A Thousand Drills Last Season.

But if we should say that it would be false, but while our drill trade was quite good last season we hope to increase it this, and think by the popularity of the "Empire" we will be able to do so. Then the same fellow might say :

And All the Wheat Seeded With His Drills Grew 100 Bushels Per Acre.

Should we say that it would reflect upon our reputation for truthfulness, but we can verily say that every acre seeded with our Drills was done in the most satisfactory manner, and the best results possible was obtained therefrom.

Because It Is A Positive Force, Feed And Sow Just What You Want It To.

It is the only Drill made that will sow a bushel of wheat, and a bushel of oats from the same box on the same space without any changes to the machinery. This, the Empire will do, which proves that.

It Will Measure The Grain Irrespective Of Weight Just As Correctly AS A Standard Measure, And The Acre As True As The Surveyor's Chain.

This is a record which it established at the World's Fair, and is a wonderful one. This is also very satisfactory because you know just what you are doing and can calculate on the results. The phosphate Attachment is quite as accurate and sows precisely what the directions state. Then our friend refered to above might say :

A Pair Of Rabbits Can Haul Our Largest Drill With Ease.

Well the Empire does not run so light as that, but we guarantee them to run from 10 to 25 per cent. lighter than any other Drill on the market. One of the main reasons for this is the wheels run on taper axles, and have the same gather and swing that a wagon wheel has. Would any intelligent man buy a wagon with a sold axle running through, and the wheels made fast thereto? No. Then why buy a Drill made that way when it should be built on the same principal as a wagon if you wish to obtain light draft. We will have a full stock of :

EMPIRE DRILL REPAIRS—And can furnish them to our customers on the shortest notice. You have to prepare your ground to receive the grain, and we are prepared to prepare you to prepare the ground.

For we have in stock a line of **BUFFALO PITTS SPRING TOOTH** and **BUFFALO PITTS DISC HARROWS** which have the best reputation of any Harrow now before the public, and can be recommended by the leading farmers in every locality.

We also build the **HYLAND LAND ROLLER**, which is everywhere recognized as the best Roller on the market.

Then we also build an excellent **FARM WAGON AND DEARBORN,** which we can furnish at a very low price and guarantee every part of them.

Constantly in stock you will find **GENUINE CHILLED PLOWS and CHILLED PLOW CASTINGS** of the leading and most popular makes at surprisingly low prices.

OUR REPAIR SHOP is in constant operation and ready to accommodate the public. We thank you sincerely for your patronage in the past and hope to be favored with a continuance of the same. Respectfully,

W. A. HYLAND, Galena, Maryland.

PROCLAMATION

WHEREAS, at a session of the General Assembly of Maryland begun and held in the City of Annapolis on the fifth day of January, 1898, a bill was passed proposing an Amendment to the Constitution to the State by adding a new section to Article four thereof, to be known as section 31 A, which said Bill and Amendment are in the words following, to-wit :

CHAPTER 193.

AN ACT to amend the Constitution of Maryland, by adding a new Section to Article Four.

SECTION 1. *Be it Enacted by the General Assembly of Maryland,* (three-fifths of all the members of both houses concurring,) that the following section be and the same is hereby proposed as an amendment to the Constitution of the State of Maryland, and if adopted by the legal and qualified voters thereof, as hereinafter provided, the same shall stand as an additional section to Article 4 of said Constitution, to follow section 31 and to be known as Section 31 A.

31 A. In addition to the sum of five hundred dollars, which by the preceding section the Mayor and the City Council of Baltimore is authorized to pay to each of the Judges of the Supreme Bench of Baltimore City, the said Mayor and City Council of Baltimore is further authorized to pay to each of said Judges annually, a sum not exceeding fifteen hundred dollars; provided that the same or any part thereof, being once granted, shall not be diminished during the continuance of said Judges in office.

SECTION 2. *And Be it Further Enacted,* by the authority aforesaid, that the said foregoing section hereby proposed as an amendment to the Constitution shall be, at the next general election to be held in this State, submitted to the legal and qualified voters thereof, for their adoption or rejection, in pursuance of the directions contained in Article 14 of the Constitution of this State ; and at the said general election the vote on said proposed amendment to the Constitution shall be by ballot, and upon each ballot, there shall be written or printed the words, 'For the Constitutional Amendment," and "Against the Constitutional Amendment," so that the voter may elect; and immediately after said election due return shall be made to the Governor of the vote for and against said proposed amendment, as directed by the said fourteenth Article of the Constitution.

Approved April 9th, 1898.

NOW, THEREFORE, I, LLOYD LOWNDES, Governor of the State of Maryland, in pursuance of the provisions of Section one of the Article fourteen of the Constitution of the State, do hereby order and direct that a copy of said Bill proposing said Constitutional Amendment be published in at least two newspapers in each county, where so many may be published and where not more than one be published, then in that newspayer, and in three newspapers in the City of Baltimore, one of which shall be in the German language, once a week for at least three months preceding the next ensuing general election, (which said general election will be held on Tuesday, the Seventh day of November, eighteen hundred and ninety-nine,) at which election the said proposed amendment shall be submitted, in the form and manner prescribed by the General Assembly, to the qualified voters of the State for adoption or rejection.

THE GREAT SEAL OF MARYLAND.

Given under my hand and the Great Seal of Maryland. Done at the City of Annapolis on the 13th day of July, in the year of our Lord eighteen hundred and ninety-nine.

LLOYD LOWNDES,
Governor of Maryland.

By order of the Governor,
GEORGE E. LOWEREE,
Secretary of State.

W. S. WALKER. H. M. BROWN.

BECK, WALKER & BROWN,

Fertilizer Manufacturers,

offer to the farmers of Kent county their well-known brands of WHEAT FERTILIZERS. During the past seven years nearly one-fourth of the total wheat raised in Kent county was grown with the following brands of Fertilizers. A number of the largest crops and best wheat yields have been from these goods. These facts should be a sufficient recommendation of their reliability,

TRUSTWORTHY—

An absolutely Pure Bone Phospate. Any one wishing to use an absolutely Pure Bone Goods, cannot do better than to use this brand. We have sold large quantities of it, and it has given universal satisfaction.

PROPAGATOR—

A Pure Bone and Mineral phosphate, testing high in Ammonia, Phosphoric Acid and Potash. We have found this brand very popular with those wishing to use a High Grade complete Fertilizer, but unwilling to pay the price of pure bone goods. We can confidently recommend this brand.

TRY ME—

A COMPLETE FERTILIZER.

We introduced this brand six years ago to meet the low price of wheat. It is a mixture of the very best Phosphates and High grade Sulphate of Potash, tests very high in both soluble and insoluble phosphoric acid and potash. It contains sufficient ammonia to give the crop a good start, is absolutely free from anything that can sour or injure the land. It is more durable than any cheap phosphate and will not give out before the crop matures. During the past six years more wheat has been grown with these goods in Kent county than with any brand of goods ever used here. Every one who has used these goods acknowledge that they drill better and more satisfactorily than anything they have ever tried.

We are also prepared to put up SPECIAL MIXTURES with highest grade of goods at lowest possible prices.

We do an entirely local trade, confined to Kent and Queen Anne's counties, employ no agents or traveling salesmen, but deal direct with the farmer, thereby saving considerable expense to the consumer. It is therefore as much to our interest as it is to theirs for us to give our customers first-class goods and full value for their money. Our goods are compounded on the latest scientific principles and are manufactured under the personal supervision of Mr. P. B. Hollis, who is well known as an experienced agricultural chemist. Their mechanical condition is as near perfect as possible, and we guarantee all our goods to be in perfect drilling order.

We sell at the lowest possible price, and solicit the patronge of our friends and the public generally. We are now ready to book orders for goods. Our place of business is in the KENT NEWS BUILDING, where we will be pleased to see any who may call.

BECK, WALKER & BROWN,
CHESTERTOWN, MD.

FORECAST FOR OCTOBER.

Until after the middle of October numerous astronomical causes exist, which indicate many storm and weather perturbations ; but if warm and open weather prevails the first week or ten days in October, such will be the case to a great extent far into November.

From about the 2nd to 4th look for a warm wave to pass eastwardly over the country, with a fluctuating, falling barometer, ending progressively in rain, wind and thunder storms, with early snow to west and north probable, and high northwesterly gales bringing up the rear and causing very sharp and sudden change to colder. Heavy sleet is probable during the first two storm periods of the month in northern and central sections.

The second regular storm period for October is from 8th to 12th ; this period will break up, after low barometer, high temperature and storms of rain, wind and thunder, with cold, sweeping gales from the northwest. A decided change to warmer about 15th. The barometer will fall rapidly at same time, resulting first in electrical storms then changing to cold rains with probable sleet and snow northward from 16th to 18th. A sharp cold wave with frost and freezing will bring up rear of these disturbances.

About 20th to 23rd a chang to warmer with general return to storm conditions will pass from west to east over the country. Change to colder about 23rd to 26th. A reactionary disturbance on 26th to 27th is central. This will bring higher temperature, falling barometer and more rain or snow. These disturbances will likely be protracted until 29th, on and about which date, thunder storms will occur ending suddenly in sweeping winds from northwest, high barometer and cold wave.

Continued from 6th page.

ON TO WASHINGTON.

Tacoma was the best place to terminate its road, with the view of building a great city which would help the State and road. The panic of 1878 came soon after, and Tacoma's progress was slow for years. The second panic came and again arrested her growth in some respects, but she has now entered on an era of prosperity which will undoubtedly prove to be lasting.

The Tacoma of to day, is a city built upon a bluff, terraced from the water to about 300 feet high. Then comes a level country for miles, which is as beautiful a natural park as one could desire. With its beautiful lakes, small evergreens, growing in most graceful shapes, giving it the appearance of having been planted there by some wealthy man, with its setting of mountain range and deep blue water.

There is no street in Tacoma that is less than 80 feet wide. Its alleys are 40 feet wide. It has noble avenues 100 feet wide. In the centre of the city is a beautiful park of some 35 acres, which though only a few years old, shows evidence of great care and is adorned with statuary. Five miles from the centre of city, is one of noblest parks of the world, of nearly 1,000 acres. It is situated on shores of the Sound, at an elevation of about 200 feet, and is covered by a forest of primeval giants, many of them piercing the sky to an elevation of 250 feet. This park is being intelligently treated to retain all its natural beauty possible. The city of 50,000 people have only 45 policemen and they do not average one arrest per week !

There are seventeen school houses, besides private schools and academies, they have seventy-one churches, which testifies to moral character of the city.
