AN exchange says that a railroad contractor recently advertised for 300 sleepers. By return mail he received a letter from a neighboring clergyman offering him the whole congregation and choir on reasonable terms.

"UNCLE ZEKE" says we are going to have a cold snowy winter. Nature has told him so and he declares that Nature never tells a lie. Corn husks are thick and the silk heavy, the woodchucks are going to sleep while the clover is still green about their holes; the feathers pull hard from the wild ducks and the goose bone is white from the tip.

A JOKE is being told on one of our citizens whose daughter is away attending school. She wrote home about her studies and her new associates, and wound up by saying she was completely in love with ping-pong. After reading the last part a couple of times the father remarked that no Chinaman could marry into his family.

NEGROES SOLD IN KENTUCKY.

Man, Bound Out for a Year, Brings Only $7 at Auction.

LANCASTER, KY., Nov. 28.—Sheriff Lawson attracted a large crowd before the courthouse door by the sale of three negroes, two women and a man.

The bids were lively but small Chas. Anderson, sold for 12 months, brought $7. Belle Griffin and Emma Reed, sold for one and three years, respectively, brought $5 each. The three were convicted of vagrancy and ordered sold to the highest bidder.

FLURRY IN CORN ON 'CHANGE.

Prices Decline Sharply, Owing to Delay in Delivery.

There was considerable excitement on the floor of the Chamber of Commerce Saturday morning over the corn market because of it being settling day on sales made for November delivery.

The railroads being congested with freight, corn on the way could not be gotten here in time for delivery under contracts made. As a result there was lively dealing and prices dropped off rather heavily. On Friday Southern corn sold at 64 cents a bushel, while on Saturday it brought only 56 cents. Rejected sold on Friday at 52 and Saturday at 47 cents.

During the excitement 694,200 bushels of November corn changed hands. Deliveries on spot and contracts are fixed by rules of the Chamber of Commerce.

14 KILLED ON GRIDIRON.

Fatalities of Football Field Exceed Those of Any Previous Years.

Since the first football team lined up this year, about September 10, 14 men have been killed and hundreds injured more or less seriously. An average of about one lad a day dead or maimed is the record of the game for the season of 1902.

The vast majority of the dead and injured were members of minor teams who by reason of their untrained condition were more susceptable to injury than the men of the big universities.

But members of the big teams were not exempt, There were no deaths among the players of the great varsities, but men of Yale, Harvard, Cornell, Columbia, Princeton, Annapolis and West Point suffered broken bones, and Midshipman Aiken, of Annapolis, came so near death that an operation on his skull was all that saved him. The armor plate that the trainers put on their players protect them to a certain extent, but no padding can protect a man's arm or neck in mass plays.

Bones crack, tendons stretch and sometimes vertebrae break and all is over. It is in the mass plays that the bones are broken and the fatal injuries occur. Ankles are sprained and noses broken in the open field work now and then, for a vicious tackler has the best opportunity for his dirty work when the runner is alone.

There are in this country about 10,000 football teams, including colleges and schools, athletic clubs and minor organizations. A conservative estimate places the members of each team at 25. The result of 250,000 boys playing a rough game every day for 80 days must of necessity be accidents and deaths, but the record this year surpasses that of previous years by many injuries.

SOMETHING NEW —IN THE— HOUSE PAINTING LINE!

CARRARA HOUSE PAINTS contain no Lead whatever, and are yet by far the Best House Paints ever introduced to the public. While not cheaper per gallon, they are much cheaper per house, as the covering capacity is 50 per cent. greater than the best lead paint in the market. If used as per directions, it is claimed that a house painted with Carrara Paints will look better after seven or eight years than any lead and oil painted house after two years. It is guaranteed not to chalk, crack, peel off, rub off or blister. Carrara Paints dry with a hard enamel-like finish and gloss, which is permanent, and can be washed and scrubbed without staining or injury. It is not affected o discolored by ammonia, carbonic, sulphurous or other gases. Carrara Paints will not cause Painters' Colic or lead poisoning. They stay on—stay glossy—and hold their colors until worn off.
