1784 JULY 28 JOHN GALLOWAY TO JAMES CHESTER

SIDE ONE

Dear Sir

Your favour of last Thursday from Annapolis came safe to hand - It gave me much concern to hear the situation my father was in - don't you think it necessary that Doctor Scott should see him for altho his indisposition in great measure may proceed from the unhappy state of his mind which may have brought on his complaints and which medicine may in some degree relieve - I hope you will have influence enough on him to get him to take some care of himself - You may easily conceive my feelings in ~~not~~ my unfortunate situation in not having it in my power to come over to you which I am grieved is impossible just at this time as the Doctor thinks it be no means proper for me to be at a distance from him and should I desist from my course of Medicine I fear the matter would be all to go over again - We wait with impatience for the return of Uncle Billy from Annapolis by whom we hope to hear

Mr James Chester

Talbot Hill
