JEFFERSON.

THE LADIES STORE. CHESTERTOWN, MD.

Prices Pulsatin g With Economy.

The new goods—dainty, delicate, desirable—the harbingers of this season's fashions, fads and fancies. Without style, a garment is nothing in the eyes of any self-respecting woman. She looks, also, for service and economy. Some great writer has said: "The nearest approach to heaven on this earthly sphere is experienced by the woman happy in the knowledge that she is well gowned." And it is hardly necessary to say that the trinity, "STYLE, SERVICE, ECONOMY" are important features in her dress, skirt, waist or whatever garment she may be looking for. Journey hither to the benefit of your purses.

RECEIVER FOR GREEN HOUSE.

Restaurant is Declared to be Insolvent.

Insolvent and without working capital is the Green House Company, which conducts the Green House, 12 and 14 East Pratt street, Baltimore, according a to statement in the petition for a receiver for the hotel, filed in Circuit Court No. 2 by the Knickerbocker Ice Company, of Baltimore, and John A. Sheriban Friday.

Mr. Campbell Carrington was appointed receiver by Judge Wickes. He gave bond for $10,000.

SWALLOWED UP BY GRAIN

Boy Leaps Into a Bin And Meets His Death.

(Special Dispatch to the Baltimore Sun)

Lancaster, Pa., June 1.—Walter Leisey, a 9-year-old boy of Ephrata, was smothered to death by the wheat in an elevator at that place last evening, while his father and others were pulling at his arms to save him.

A companion dared him to jump into the bin, and the lad promptly accepted the challenge. As he was then being slowly swallowed up by the wheat the other boy gave the alarm, among those responding being Leisey's father.

The boy's head was still above the wheat when they arrived, and he piteously extended his hands and begged them to save him. Willing hands grasped his, but the suction of the wheat was too great for them and pulled him down to death by suffocation, his hands being still visible, as mute appeals for help after the wheat closed over his head.

Insurance Rates Advanced.

The local fire insurance agencies received notice the first of last week that on and after May 25th the rate would be advanced on a large number of risks in this territory, the increase amounting from 10 to 25 per cent. The increase takes effect on all new policies and renewals. The increase is made by the Underwriters Association and covers the entire country. It includes all the old line companies doing business in the United States. It is presumed that the higher rates are charged on account of the recent heavy losses of the companies at San Francisco, and of other large losses. In some sections of the country the advance is much heavier than in this territory and the Eastern Shore of Maryland gets off with comparatively a slight raise. The 10 per cent advance includes brick and frame stories, stocks of goods of all description, offices and contents, small manufactories and contents, and so forth. The only exception is in dwellings, household furniture and private stables. These are not advanced over the present rates. Among the special hazards that are not advanced in this territory are canning factories and their contents and lumber yards. The increased rates will mean a considerable burden to the business people of the country, but the companies state that the situation demands that it be made. As all the reliable companies except those doing a mutual business has entered into the agreement, there is no way out of paying the higher cost.
