1784 JULY 28 JOHN GALLOWAY TO JAMES CRAIG

SIDE TWO

from you and fainly would flatter ourselves your Account of my Fathers situation will be more favourable; should it be otherwise my Sister will cross the bay immediately and I do not know how I can well stay behind—

I must confess I have no patience with my Brother for his most extraordinary conduct. to my father & cannot help thinking when he comes to know the real situation he has been the occasion of putting him in he must ~~[illegible]~~ with=and he has a hard of stone have some feeling for him and after his behaviour to him & if he does not I am con=vinced he will bring my Fathers grey hairs with sor=row to the grave — If ~~[illegible]~~ complying with their demands would satisfy them and my father could be hereafter made happy by it I could sincerely wish it was done for it is hard that the poor old man cannot spend the remainder of his days in peace — My Brother I have reason to think did not meet with any encouragement at Burlington respecting this affair — I shall write you again about Monday next by the boy who comes over with Tandango — If you have an Opportunity pray let Craig know ~~[illegible]~~ they have every thing ready to send him over at that time —

you will remember me with the kindest affection to my father — should he get so well as it will be prudent for him to have home had not ~~your~~ better push the matter for him to come over to us as the Change of air & Sence may be of service to him — love to Nancy & all Friends

Dear Sir Your

Yours Very Affectly

John Galloway

Chester Town

July 28th 1784
