SPRING HAS COME!

—AND—

Everyone is anxious to have a first-class team. One of the best guarantees of an even gaited horse is in the

SHOEING

and one of the most necessary things about a good Carriage is the

WHEELWRIGHTING.

SAMUEL HICKS is the man who can DO BOTH JOBS to the satisfaction of a large patronage.

Bring your Horses here.

SAMUEL HICKS,
The Horse Shoer and Wheelwright.

Trust to Nature.

A great many Americans, both men and women, are thin, pale and puny, with poor circulation, because they have ill-treated their stomachs by hasty eating or too much eating, by consuming alcoholic beverages, or by too close confinement to home, office or factory, and in consequence the stomach must be treated in a natural way before they can rectify their earlier mistakes. The muscles in many such people, in fact in every weary, thin and thin-blooded person, do their work with great difficulty. As a result fatigue comes early, is extreme and lasts long. The demand for nutritive aid is ahead of the supply. To insure perfect health every tissue, bone, nerve and muscle should take from the blood certain materials and return to it certain others. It is necessary to prepare the stomach for the work of taking up from the food what is necessary to make good, rich, red blood. We must go to Nature for the remedy. There were certain roots known to the Indians of this country before the advent of the whites which later came to the knowledge of the settlers and which are now growing rapidly in professional favor for the cure of obstinate stomach and liver troubles. These are found to be safe and yet certain in their cleansing and invigorating effect upon the stomach, liver and blood. These are: Golden Seal root, Queen's root, Stone root, Bloodroot, Mandrake root. Then there is Black Cherrybark. The medicinal principles residing in these native roots when extracted with glycerine as a solvent make the most reliable and efficient stomach tonic and liver invigorator, when combined in just the right proportions, as in Dr. Pierce's Golden Medical Discovery. Where there is bankrupt vitality—such as nervous exhaustion, bad nutrition—and thin blood, the body acquires vigor and the nerves, blood and all the tissues feel the favorable effect of this sovereign remedy.

Although some physicians have been aware of the high medicinal value of the above mentioned plants, yet few have used pure glycerine as a solvent and usually the doctors' prescriptions called for the ingredients in varying amounts, *with alcohol.*

The "Golden Medical Discovery" is a scientific preparation compounded of the glyceric extracts of the above mentioned vegetable ingredients and contains no alcohol or harmful habit-forming drugs.

Every house in this town

Has use for a jewelry store once in a while.

A present to be bought, maybe.

Or somebody wants a Watch

Or the house needs a C lock

Or some Silverware

Or you want a Ring for the baby

Or a Brooch.

And then it is that we can be of service to you—and then it is that we can show you why our trade grows steadily and constantly.

We take care of ALL your varied wants in our line.

Bring us all your REPAIR JOBS. They will be promptly attended to and at a reasonable price.

Household Suggestions.

Damp salt will remove tea stains from crockery.

Equal parts of turpentine, linseed oil and vinegar make a splendid polish for furniture, etc.

To boil eggs without cracking, hold them in a sploonful of boiling water before immersing them.

To turn out a cake from a tin without breaking, wrap it round with a damp cloth for a few minutes.

Turpentine is the best preventive for moths. Saturate pieces of brown paper with same, and place in boxes.

We like best to call
SCOTT'S EMULSION
a food because it stands so emphatically for perfect nutrition. And yet in the matter of restoring appetite, of giving new strength to the tissues, especially to the nerves, its action is that of a medicine.

TO START NEAR ANNAPOLIS.

Anne Arundel County the First in Line for Oyster Survey.

Commissioner Grave and Engineer Earle of the Board of Shell Fish Commissioners had a conferende last week with Captain C. C. Yates of the United States Coast Survey in regard to details of oyster survey work. Captain Yates has been in Baltimore superintending repairs upon the Coast Survey steamer Endeavor. It is estimated that these will be finished in a few weeks, and then the vessel will be used in the coast survey work in aid of the oyster survey.

This branch of work will be carried on independently of the movements of the Fish Commission, as it will consist chiefly in the establishment of the shore signals, which will be utilized in the survey work as it progresses. Captain Yates himself, it is expected, will be detailed to accompany the commission, but the matter cannot be concluded until the pending appropriation passes Congress. In the meanwhile Captain Yates is giving the Commission the benefit of his advice and experience in maturing plans for the conduct of the work.

The illness of Commissioner Green has caused a change of programme. It had been the intention to begin work in Somerset county, Mr. Green's home county. The problems with which the Commission will have to deal there are as extensive and complicated as will be presented anywhere in the State. In view of Commissioner Green's illness it has been thought best to defer operations in that section until later, and it has been decided to make Anne Arundel county the starting point.

On Thursday next Engineer Earle will begin work setting up the shore signals that will be required. Descriptions of the various points have been obtained from the Coast Survey. The arrangements are also facilitated by the fact that charts drawn to the desired scale are already prepared for the Severn river, in which the work is to begin.

It is thought that matters will be in readiness for the Board to take hold next Monday July 2 1906. In the meanwhile it will be the duty of the County Commissioners of Anne Arundel county to appoint a local Commissioner to assist the Board in locating the natural beds. By that time also it is expected that the Coast Survey and the United States Fisheries Commission will have detailed the officers who are to assist the Board in making the survey.

Woman on the Stand.

"Now, then madam," said the attorney for the defense, as he began the cross-examination, "will you please tell the court how you know it was a sealskin purse?"

"How do I know it? Why I know it because that's what it was."

"Yes, but how do you know that's what it was? You had nothing but hearsay evidence to convince you that it was sealskin. You merely took the word of the clerk who sold it to you, didn't you? You didn't see the seal killed and the hide tanned and purse made, did you?"

"Look here, Mr. Smarty," replied the witness, "will you let me ask you a question? What day—"

"I must insist upon—"

"Yes, I'll answer your question in a minute, but will you please tell me what day of the week this is?

"This is Thursday. Now if you will kindly—"

"Thursday? How do you know it's Thursday? Were you present when this day was created, and did you see it labelled? Have'nt you merely accepted hearsay evidence that—?"

"Oh pshaw! If the court please, the witness will be excused."

Casual Philosophy.

What one goes into debt for nine times out of ten is a luxury.

A man always making excuses leaves himself no time to make anything else.

Business based upon friendship threatens both; friendship based upon business strengthens both.

That man can best ignore the enmity of those who don't understand him who goes home to a wife who does.

It is a good deal easier to pray for men's souls than to pour balm into their wounds, not to mention that it costs less.

The supreme court has not yet decided which is the weaker man—he who is not able to see his own weakness or he who has no faith in himself.

From an intellectual point of view that time of one's life is most wanted when he tries, in a spirit of dumb loyalty to admire all those things that are popularly considered admirable.—Success.

GEORGE W. SMITH. HARRY R. GRAHAM

GOLF

has its allurements and so have many other things. The moth can't resist the candle's blaze and economizers can't resist our low prices. Low prices mean nothing if goods are inferior. But when it comes to "best goods made" at low price every one is interested. That's why our up-to-date stock of

HARDWARE, HARNESS, CARRIAGES
—AND—
FARM IMPLEMENTS

is casuing such a sensation. It's because people can't duplicate what we sell at our prices.

The Monumental Fertilizers--The Rasin Brands.

Have been proven to give results beyond any other fertilizers used.

ALL KINDS OF FARM SUPPLIES.

The Janesville Corn Planter,

With low-down Check-Rower, is a full combination Planter, and can be used as a drill or a checkrower planter by only changing the plates. It is the simplest and surest device ever put on the market. The dropping of corn with this planter is certain and guaranteed not to skip a hill.

Genuine Oliver Chilled Plows and Castings.
